BUCK MEANS PERFECTION IN STOVES AND RANGES.

THE GREAT BUCK RANGE YOU HEAR SO MUCH ABOUT.

Buck's stove and range making started years and years ago (your grandmother used a Buck) and they have become the most widely known as well as the most extensively used stoves and ranges in this country. We don't think it is possible to produce a more perfect piece of kitchen utility than a Buck. We honestly believe that the Buck represents the highest type of range construction, the most perfect article of its kind in every necessary detail of practical use. The Buck is undoubtedly the standard by which all others are measured. It is made on honor and will last a lifetime. Our success with the Buck, has truly been magnificent. The hundreds now in daily use here is the most worthy argument we can advance for their thorough satisfaction and worth to homelovers. This store's Buck's display is now unusually attractive.

You are welcome whether looking or buying.

THE BIG STORE

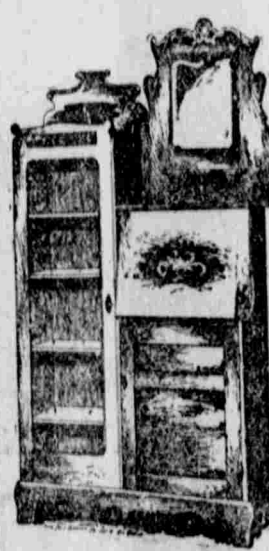

Fourteen years ago we first opened our store in Salt Lake. At that time we occupied a space of 15,000 square feet of flooring. So rapidly did our trade develop that it became necessary for us to find more room. We added 20,000 more square feet to our building. Three years after this we found we were still too crowded for our business that was still growing. Year after year we were forced to add to our space, until now we occupy over 60,000 square feet. We believe, and we have heard it said scores of times, there is no equal to this store in point of size, of assortment and of stock capacity, for doing business and arrangement of its store features west of Chicago.

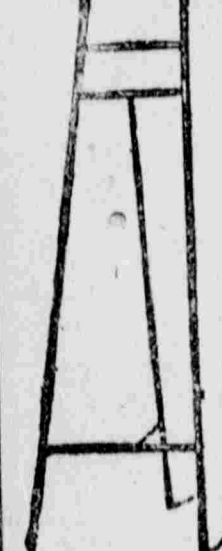

EDITORIAL.

Few stores are close enough to the people to have such a warm hearted reception as we will hold this week. Few stores treat people so liberally or take them so much into their confidence as we. "WE TRUST YOU." Pay us a little each week or month. It was a new way to trade, but it was a good way. We gave you our confidence before we asked yours. The close alliance between you and us has made this store what it is today. We still say:

Your Credit is Good.
