Upwards of \$20,000 Worth of The Dexter and Tuscarora Share-Business Transacted Today.

LOWER MAMMOTH RAMPANT FORTUNE HIGH GRADE ORE.

Stock Sells Up to 78 Con. Mercur Very | Shipments Will Soon be Made-Lucky Active - Daly - West Weakening -Star Con. Was Firmer.

TODAY'S METALS: SILVER 64%

LEAD, \$4.00 CASTING COPPER 15%

Business was unusually brisk on the exchange today when 6,900 shares sold for \$20,664.60. Excepting May 28th, this is the biggest day's business recorded during the present year. On the latter date the sales amounted to nearly \$25,-000, Con, Mercur was heard from today. Over 1,000 shares changed hands but in spite of such a large offering it was readily absorbed at prices ranging from \$4.45 on the opening sale to \$4.49% at the close.

Daiy West was also very much in evidence today, when some 500 shares changed hands at lower figures than those at which the stock has been held for some time past. After making its first sale at \$23.42 the stock weakened to \$23.38. Daly participated at \$1.55. while Grand Central released 100 shares at 34.95.

Lower Mammoth made a new record on news of the latest strike on the 700 level. From 62 it advanced by jumps and bounds to 78, the figure at which the closing sale was made. Star Con. was also in good form, selling from 72 to 73%, but weakening to 72% on the closing rales.

closing sales.
Galena of Fish Springs was traded in at 84 while Rocco-Homestaks loosened up 200 at 674s and Sacramento let go 100 at 37. South Swanssa sold down to \$1.03 per share, Emerald closed with 445 bid while \$24 per share was offered for

CONSOLIDATION EFFECTED TODAY.

holders Ratify the Proposition.

Hoy Disaster-Tesora Shipping Heavily.

At a meeting of the stockholders of panies held in this city today, the proposition to consolidate the two Powder. Gold medal, Three Crown roperties was ratified. Henceforth the two mines will be owned and operated by the Dexter-Tuscarora Consolidated dold Mining company with a capital anteed, once tested always used, of \$1,000,000, divided into 500,000 shares f the part vaule of \$2 each. The of doers of the new company are: E. H. president, and George E. Airis secreary and treasurer. These, with Charles J. Devereaux, of Boston, and form the directorate.

The new company, it was said today, starts with a clean sheet. Of the capital stock 200,000 shares goes to each of

at \$1 per share and the proceeds is to applied to the liquidation of the Dexter company's indebtedness. Superintendent P. A. McKenzie, of the Dexter, was in town and when asked concerning the property, he said he expected to see it accumulate a surplus from the start. Notwithstanding a shut down of twelve days last month Mr. McKenzie says the value of the product amounted to nearly \$11,000. It is expected that the output for the present month will run close to \$20,000. The expenses, Mr. McKenzie says, amount to between \$8,000 and \$12,000 per month, so that the profit for this month will be a snug if everything goes as anticipated.

n snug if everything goes as anticipated.

The mine is said to be looking well. The new veln which was struck some time ago in the drift on the 250 level which is being run east to the Tuscarora lines, is being developed with good results. In addition to the 65-foot drift an upraise has been extended for about 35 feet. Some rich ore has been found but the average, Mr. McKenzie says, runs between \$13 and \$15 per ton. The vein has been proven to be between ten and thirty feet wide. It has been crosscut by the east drift which has passed beyond it some 110 feet and it is expected to enter Tuscarora ground within sixty days. Some of the richest offe ever found in the district is reported to have been found on the Tuscarora vein in a drift from the 150-foot level. This ground is virgin and Mr. McKenzie looks forward very confidently to the future of the consolidated property.

AT THE FORTUNE.

Manager Hill Expects to Soon Extract 20 Per Cent Copper Ore.

Manager Elmer Hill, of the Fortune group at Bingham, reports everything moving along serenely at the new mill notwithstanding some slight difficulties with the electric power. The mill is kept busy on lead ore and about twentyfive tons of good concentrates are being obtained every day. It is the inention of push this work while the fine weather lasts. The Freedom tunnel is upraise from the lowest tunnel. In a drift from this upraise a body of high grade copper ore has been exposed which assays as high as 30 per cent. Two streaks of this grade of ore occur in the yein, one of which is about 18 inches wide the other being about 2 feet wide. The vein is about 6 feet wide altegether. Mr. Hill expects to soon begin the extraction of some of this class of ore,

TESORA SHIPMENTS.

The Mine Has Already Sent Out 16 Carloads This Month.

Advices from the Tesora of Tintic states that 4 more carloads of ore were shipped from that property yesterday, making sixteen cars of ore, about 400 tons, which have been sent out from the mine during the present month. Some of the ore has been extracted for sev-eral weeks but Manager Heffren says the mine is in a condition to furnish a car a day easily. It is the intention to extract the ore at this rate and dump it in the bins at the Bingham Copper company's new smelter, which will be started up before many weeks.

Some low grade ore is exposed in the
Shoebridge Bonanza, which will also be

REVIEW OF WOOL MARKET. Boston, Nov. 14.—The American Vool and Cotton Reporter will say towool and cotton Reporter will say to-morrow: "The wool market has con-tinued active, and a large volume of business has been transacted, though the sales for the past week figure up a slightly less total than those of the preceding week. The improvement noted in prices just before the elec-tion has been fully maintained, and in some lines of scoured and railed wools some thes of scoured and pulled wools slightly better prices are being asked and in some cases, it is reported, have been secured, but manufacturers as a rule are not willing to pay any advance beyond that noted in the market report of last week. The dress goods mills have been the principal buyers. Some of the Maine mills have been reported in the market, and have taken on some fair-sized lines of wool.

on some fair-sized lines of wool.

"The moderate and smaller sized vorce, \$1,000 altmor unils have been more of a factor in the their minor child. market. The American Woolen compainy has bought only moderately. The bulk of the week's business has been in territories, grading fine and fine medium. California and Oregon wools.

"The sales of the week in Boston amounted to 4,666,000 pounds domestic, and 720,000 pounds foreign, making a total of 5,380,000 against a total of 6,205,000 for the previous week, and a total of 16,317,776 for the corresponding week last year. The sales since January 1st amount to 124,762,800 January 1st amount to 124,763,300 pounds against 300,324,576 pounds for the corresponding time last year.
"The receipts of wool in Boston this week amount to 2,460 bales domestic, and 747 bales foreign, making a total of 3,207 bales against 5,282 bales last week

week this year. "The total receipts since January is have been 347,704 bales of domestic, and 125,991 bales of foreign, against 578,966 bales domestic, and 77,835 bales foreign for the corresponding period of 1899."

LIVE STOCK NOTES.

stockman's life uncomfortable and give his purse a lean and hungry appear-

Discussing the sheep situation in Tex-ns, the San Antonio Express says: The sheepman of Texas will soon be able to resume his smile of last spring. It is beresume his smile of last spring. It is between seasons now; very few, if any, rangers are going to market and the supply of fed mutton is decidedly scarce. The inquiry for wool is more active and everything points to another prosperous year for the flockmaster. The export trade in sheep promises to be much better this winter as Argentina will not cut much ice as a competitor. The export trade, however, may require a better grade of sheep than Texas can furnish just now, but she will share in the benefits of an increased demand and if prices for wool are as good next spring as they were last spring it will mean a handsome sum to many will mean a handsome sum to many who held on too long in the hope of a further advance.

One of the subjects to be discussed at the convention of the National Live Stock association at Salt Lake in Jan-uary will be the necessity of concerted and general action looking toward the stamping out of the wolf and coyole pest in the west. It is estimated that western stockmen lose over a million dollars annually by the depredations of wild animals,

The cattle sale in Chicago during the first week of December, while the International Live Stock exposition is in progress, is expected to be the greatest peef cattle sale the world has seen. The beef breeds represented are Herefords, Shorthorns, Aberdeen-Angus and Gal-

······ AMUSEMENTS.

There was another immensely crowded house at the Theater last evening to witness the production of "Quo Vadis." The dramatization is a fine one, and the theme is so noble and the scenic production so gorgeous, that it cannot fall to appeal strongly to the popular interest. At last night's performance the usual singing of the "Holy City" was emitted, but Mr. Weihe played it in a manner that brought down the house. The engagement closes tonight.

At the Grand the "Day and Night" company closed its season last evening. The noted "Brownies in Fairyland," a traveling company composed largely of children, opens tonight,

Local Manager S. Kronberg, of the Grau Opera company, arrives here on Monday to arrange the details for the grand production of the "Stabat Mater" in the Tabernacle. Excursions from Provo and Ogden are now being ar-tanged for the big concert which is set for the night of Tuesday, December 4th.
The advance sale opens on Monday at
Daynes', and the prices will range from
\$2.50 down to \$1.00.
