

MINING, BUSINESS AND STOCKS.

FAIR BUSINESS
THIS MORNING

WOLVERINE IS
LOOKING FINE.

Week's Trading Unsatisfactory Influenced by Eastern Situation.

LOCAL CONDITIONS GOOD.

During the Week Transactions Involving 344,305 Shares and \$195,362 Were Recorded.

Another week's trading on the mining exchange was brought to a close with this morning's session during which a fair business was recorded. The week has not been a satisfactory one so far as trading in Utah mining stocks is concerned. Traders influenced by the eastern monetary situation have held aloof and the result has been that the market has been wholly in professional hands.

With few exceptions prices have been tobogganed and manipulated from their natural tendency which, in view of local conditions is undoubtedly towards higher figures.

Notable gains in prices were this morning made by Lone Pine of Park City which sold for \$2 and Lower Mammoth, which advanced several cents to \$1.30. Wahash was also stronger, while Daly-West, Daley-Judge and California continued weaker.

The week closes on the following market:

MINING NOTES.

Silver is quoted in New York today at 50¢ and copper at 11¢.

Three cars of United States of Bingham ore (Gavin lease) will be marketed today.

Manager Dusseldorf of the Comstock left for that Park City proposition this morning.

One car of New England of Bingham ore (gulf settlement on controls obtained today).

Manager McVicar of the Bingham Cons. has returned from a short hunting trip to Idaho.

Gemini ore to the extent of 6 carloads will be forwarded to the American smelter today.

The total transactions on the mining exchange yesterday involved 95,109 shares and \$64,836.

Manager Charles Read of the Mackintosh estate has returned from a trip to Nevada mining camps.

The market became feverish on the rise and large selling was resumed. St. Paul and Missouri Pacific were driven a point or more lower than at the opening and the coasters and Pacifics declined again to the opening level or below.

The bank statement appeared stocks made an effective rally. St. Paul recovering 2½ and other leaders from 1 to 2 points.

The decline in the surplus shown by the bank statement threw the market into confusion again and prices melted away lower than before. The level of prices touched was 1 to 3 below last night for the leading active stocks. The market closed active and easy, except for a few feverish rallies on covering by room shorts.
