ING.

Wr. ask any sensible, consistent Latter-day Saint whether, after viewing the chaste, beautiful, yet simple decorations at the funeral of Apostle Erastus Snow, he does not come to the conclusion that they are vastly more appropriate for funerals than the usual concomitants of such

occasions? Why should the faithful addressed the congregation. He read who depart from this life be surround-the 13th verse of the 14th chapter of Revelations; ed by the emplems of gloom, which can only tend to deepen the sorrow of bereaved relatives and friends in place of pointing their hopes and thoughts to the glorious condition of those who fight the good fight of faith and retire behind the vall to continue to labor in the cause of redemption until all enemies are put under the feet of mies are put usder the feet of Him whose right it is to reign? It is too often the case that while the aim of the speakers at fuuerals is to com-fort and console, the general surround-ings are of a nature to produce the ngs are of a nature to produce the posite effect. Consequently, the substitution of white for black at the services of Apostle Snow should be appreciated. - The former color is suggestive of shadow, while the latter is the symbol of light and purity, emblematical of the hope and assurance

of a glorious resurrection. Nothing could have been more harmonious with the tastes of Brother Snow than the floral decorations. He delighted in flowers, his fondness for them amounting with him to a passlon. He frequently watched little children as they came trooping down the canons with boquets of wild flowers they had gathered from the hill sides. As he looked at them he would exclaim "God bless the children with their flowers."

We meet upon this occasion to show our respect for our departed brother, and also for his family and friends. His demise was unexpected to most of the Saints, unlooked-for and most unwelfore. We feel to mourn because we cannot see him, and associate closely with him, whom we have learned to love; and wa feel that we now meet, in his departure, a heavy loss. In this we are not deceived. We feel that we need his counsel and the benefit of his great wisdom gained by a long life of experience. But our loss is his gain. Were he here he could say, with the ful mission than any other now known. I first became acquainted with bim in Copenhagen in 1873, when I was on my first mission. I labored under his direction in getting out certain books. I loved him as a son loves a father, and my heart is too full for utterance. It was under his advice that I took hold anew in my labors. I met many who knew him on his first mission to Scandinavia, and all speak of him in terms of high respect. He came, a stranger to our language, but through the gift of tongues he acquired a knowledge of it in a remarkably short time. He was doubt or hesitate in regard to the work God had imposed upon him.
