

MINING, BUSINESS AND STOCKS

GOLD BUTTE HAS SOME RICH ORE.

A Genuine Surprise Sprung Yesterday on Salt Laker's Interested in New Camp.

MOTHER LODE VEIN GOOD ONE

Assayer's Certificate Shows Yellow Metal Values of \$212.80—Discovery is Significant.

While Manhattan and some other camps in Nevada have been having their boom, there is at least one new camp in the neighboring state that is being developed without any display of ostentation. This camp is Gold Butte, located in the southeastern corner of Lincoln county. Other camps have reported strikes of rich ore; so has Gold Butte had them; but if they had been made anywhere in the vicinity of Goldfield or Tonopah there wouldn't have been teams and vehicles enough in the country to handle the rush.

BIG GOLD VALUES.

The most gratifying news that has come from Gold Butte since the district was opened a few months ago was the result of assaying taken from a sample of ore from the Mother Lode vein of the Nevada Gold Butte Mines company. The ore was dug out of the vein by Treasurer W. H. Jones during his recent visit to the camp; it was taken right off the surface, at the grass roots, so to speak. It was "hungry" looking stuff, at least it was thought by Superintendent Gibbs, as well as by Mr. Jones, that the rock would not show values of more than \$5 or \$6 to the ton. The assayer, in whose hands the sample was placed, made his report yesterday afternoon and his verdict gave evidence of \$212.80 in gold and 1.9 ounces in silver to the ton. Officials of the company were taken completely by surprise.

MOTHER LODE VEIN LARGE.

Superintendent Gibbs, also a mining engineer sent out to inspect the property not long ago, coincided in expressing the opinion that the Mother Lode vein is the one from which the company will get its biggest returns, that the five other parallel veins probably will turn out to be off-shoots from this ledge, which has its strike along the apex of the mountain. Mr. Gibbs based his conclusion on this theory when he located the ground last fall and that is why he gave it the name of the Mother Lode vein. It shows croppings along the surface anywhere from 2 to 12 feet in width.

During a recent visit to the Gold Butte camp, O. Wiser, former superintendent of the Anna Laurie Mining company's mill at Kimberley, Utah, took a sample across a seven-inch streak in what is known as the Gold Bluff vein and he got returns of \$50 in gold. At the time, Superintendent Gibbs was doing some trenching on the vein, assaying ore and sacking it for shipment.

L. A. Copeland, manager of the Taylor & Brantley Sampling works, and president of the Gold Butte company, is preparing to pull out for camp on an inspection trip on an early train.

MAY LEASE GROUND.

Some local parties who have had considerable experience in leasing have approached officials of the company for a lease and the directors may decide to grant it; but no action will be taken until after the return of Mr. Copeland.

ON MINING EXCHANGE.

Week Has Been a Busy One for Salt Lake Brokers.

The past week has been a busy one on the floor of the Salt Lake Stock & Mining Exchange. Sales have been heavy, and the tone of the market has been good.

There was a significant picking up in Park City stock, particularly in Daly-Judge and Wabash. Sales have been heavy, and the tone of the market has been good.

The inquiry for the first named has been quite pronounced and the chances are favorable for a further move upward. The stock was bought today at \$11. Wabash has been eagerly sought during the past few days.

Of the Tintic stocks, May Day has probably been the most active and the stock closed strong today. Grand Central, Victoria and Uncle Sam Consolidated have also contributed largely towards swelling the week's totals.

The closing quotations and sales today were:

WINTER ECZEMA SKIN HARD AND DRY

Some skin diseases are active in Summer, while others wait until cold weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence; but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, black winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other parts of the body may be affected. So painful and distressing is the trouble that the sufferer constantly "doctors" and treats it using to get relief. Soothing washes, medicated ointments and salves are tried, but aside from giving temporary relief they do no good. The cause is poisonous acids in the blood, and these must be removed before a cure can be effected. The only cure for Winter Eczema is S. S. S., the greatest of all blood purifiers. It cleanses the entire blood supply of the acid poisons and sends a fresh, healthy stream to the diseased skin, healing and softening it and curing the painful, itching eruptions. S. S. S. enters the blood and purifies it of all waste and foreign matter, and cures Winter Eczema—no matter how it is sometimes called—safely as well as surely; besides it does not contain any harmful mineral to derange or damage any part of the system. Book on Skin Diseases and any medical advice you need, free. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

TINTIC ORE SHIPMENTS.

Bad Roads and Snow Responsible for Light Output.

Owing to the heavy snowfall and bad conditions of roads, the ore shipments from Tintic this week are lighter than usual. A total of 132 car loads were sent out by the shippers and the amount sent out by each being:

May Day, 3; Bullion-Beck, 5; Beck Tunnel, 8; Centennial-Eureka, 54; Dragon Iron, 5; Eagle and Blue Bell, 5; Eureka Hill leasers, 6; Gemini, 10; Grand Central, 3; Lower Mammoth, 2; Mammoth, 5; Pioneer lease, 1; May Day, 1; Ridge and Valley, 6; Seranton, 2; Swansea, 2; South Swansea, 1; Uncle Sam, crude ore, 3; Uncle Sam, concentrates, 2; Victoria, 3; Yankee Consolidated, 2.

MAYNE ON MANHATTAN.

President of Gold King Company Says It Will Outshine Goldfield.

A letter to H. B. Cole from A. H. Mayne conveys some interesting information about Manhattan. The

writer gives it as his opinion that the camp will prove to be a greater one than either Tonopah or Goldfield.

The district, he says, has been opened along stretch of four miles, showing ore the entire distance.

Mr. Mayne is president of the Manhattan Gold King company, and residing in the Yellow Horse claim, adjoining the domains of the corporation of which he is the head.

Owing to the heavy snow fall, leasers have not made as good headway as they would under other conditions. But developments, as far as they have gone on the Gold King, look decidedly interesting to Mr. Mayne.

THE BULLION BECK.

Corporate Life of Company to be Extended 25 Years.

The stockholders of the Bullion-Beck & Champion Mining company met today in special session for the purpose of authorizing the filing of an amendment to the articles of incorporation extending the corporate life of the company 25 years. The first quarter of a century of the existence of the corporation will expire by limitation on the 24th inst.

In the former, the directors of the company have decided to extend the corporate life of the company 25 years. The first quarter of a century of the existence of the corporation will expire by limitation on the 24th inst.

DECLARE DIVIDENDS.

Grand Central and Victoria Directors At Prove Today.

(Special to the "News.")

Prove, March 10.—The directors of the Grand Central and the Victoria Mining companies met here today and posted dividends.

The directors of the Victoria, 4 cents a share, is \$10,000, both payable on the 15th. The books will be closed at noon of the 15th.

SWANSEA DIVIDEND.

The directors of the Swansea Mining company met yesterday and posted a dividend of \$5,000. The date of distribution was fixed for the 20th inst., and the books will be closed against transfers on the 14th inst. This Tintic mine has paid, including the one posted yesterday, dividends to the amount of \$11,200.

CONCENTRATES.

A. E. Hyde, Jr., is at the property of the Biscuit Mining company at Cherry Creek, Nev.

L. A. Arnsden, secretary and manager of the Yankee Con. will leave for California in a few days for a vacation.

The taking of testimony in the "smoke" cases against the smelting companies will be resumed again next week.

Manager C. D. Rookledge of the Pioneer smelter departed yesterday afternoon for Manhattan and other Nevada mining camps.

The Wabash assessment of 10 cents a share is delinquent on the 14th inst. There is not much doubt but that it will be paid in full.

James W. Neill, consulting engineer of the East Butte Mining company, was in the city for a few hours yesterday and departed last night for the Montana copper camp.

Chief Metallurgist A. J. Bettles of the Newhouse mines is recuperating and will probably be able to come down town again some time next week.

A dinner was given at the Alta club last night in honor of Thomas F. Cole, visiting mining magnate, by former Senator Kearns and David Keith.

The arrival of Managing Director A. F. Holden of the United States Smelting, Refining & Mining company, is anticipated for sometime next week.

Major H. P. Myton has returned from Los Angeles and on the way back took note of the activity being displayed in a mining way at Good Springs, Nev.

August Mathes has returned from Ely, Nevada, where he went for the purpose of examining the Highland group of claims for Samuel Newhouse.

A letter from Fairview, Nevada, conveys the information that F. A. Virtue and associates, have turned a deal that will realize for them about \$25,000.

Frank Morehouse, who is in charge of the mines of the Mexico Consolidated in old Mexico, has reported that the February receipts of that corporation will aggregate about \$47,000.

During the illness of Chief Metallurgist Bettles of the Newhouse mines, Foreman Peterson is conducting the experimental work at the Boston Consolidated mine in Bingham.

Dr. Van Norman, one of the directors of the West Quince Mining company of Park City, is in the city from Los Angeles. Accompanied by Manager Turner, he will visit the company's property.

W. H. Wiley and his staff of experts have completed the work of sampling the Ohio Copper company's mine at Bingham. The work was done in the county last night, where another mine examination will be made.

The Bingham Miners' union held a meeting last night and appropriated \$100 towards the defense of the federation officials now in the Idaho penitentiary charged with the murder of former Governor Frank Steuneger.

Attorney C. C. Parsons of the Newhouse mining interests has returned from a trip to Goldfield and Tonopah. He made an inspection of the Hannan mine while away and Superintendent F. E. Cole is doing some telling work there.

Development work is being pushed on the properties of the Addie Mining company in Cottonwood gulch, up Carr Park canyon, Bingham. The property is controlled by A. Woodhouse of the Bellvue Power company and A. L. Heaton of Bingham.

A. H. Luback, for many years in the employ of the Ontario company at Park City, but now engaged in the custom milling business in Mexico, is in the city for a brief vacation. He will visit among his old friends in Park City before returning to the southern republic.

BANK CLEARINGS.

New York, March 9.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ending March 8, with the percentage of increase and decrease as compared with the corresponding week last year:

New York	\$211,837,236	172.00
Boston	20,452,137	16.20
Chicago	13,445,630	33.40
San Francisco	15,960,251	17.50
Los Angeles	12,465,111	20.20
St. Paul	7,835,818	25.60
Denver	6,715,174	19.40
Seattle	1,844,444	12.60
Portland, Or.	4,368,266	4.30
SALT LAKE CITY	4,877,473	88.40
Phoenix	4,170,289	24.30
Rocky Mountain	4,170,289	24.30
Helena	4,170,289	24.30
Sioux Falls, S. D.	4,170,289	24.30
Totals, U. S.	\$329,225,412	15.20
Outside U. S.	\$1,137,427	12.20
Total, Canada	792,614	12.20

STOCK MARKET CLOSED WEAK.

Appearance of Bank Statement Unsettled Everything and Caused Prices to Yield.

NO PARTICULAR FEATURES.

Opening Was Active and Higher But Very Soon Things Went Downward.

New York, March 10.—The stock market today opened active and fractionally higher for a large majority of issues. Prominent exceptions were Union Pacific, St. Paul and Erie, which made small losses.

Anacostia fell 1/4. There was no conspicuous feature amongst the advances but Reading, New York Central, Norfolk & Western, Wabash preferred and People's Gas gained large fractions.

Selling on the opening advances forced the market fractionally below yesterday's closing. Reading, Union Pacific, St. Paul and Amalgamated Copper proved the most vulnerable. The completion of this selling found the market supply of stocks small and when attempts to cover were made prices rose again to the opening figures.

Among the advances, Tennessee Coal and Iron, and Hudson & Manhattan, Norfolk & Western and Northwestern, and Atchafalaya, Atlantic Coast Line and People's Gas, Pacific Gas & Electric, and St. Paul, Amalgamated Copper, and Brooklyn Transit about a point. Weighted averages but the closing was irregular.
