TWO SENSIBLE STEPS

THE minutes of the meeting held yesterday afternoon bp Zlon's Cen. tral Board of Trade appear in this issue. A perusal of them will show that the organization has taken steps in connection with two subjects of considerable importance to the community. The people of some sections of the Territory have felt that their progress in industrial, manufacturing and other material pursuits has been more or less retarded by their being discriminated against in the matter of freight rates by the U. P. Railway Company. There is no doubt that there is considerable ground for the complaint, yet it would be unfair to condemn unfavorable method without an investigation. They may be able to show reasons that would pallate if not justify their position.

SANITARY MATTERS.

in our local columns we publish a fragment of an elaborate paper read before the adjourned sanitary meeting in the City Hall on Monday evening. The article was handed in for publication in full, but its unusual length, and the fact that the first and far more extended part appeared unnecessary; caused us to omit it. It is doubtless very learned and scientific, but all that department of the subject can be gleaned from books, by these desiring the information, without weighting down | Waldron. the columns of a dally journal with it.
