## WANT A FOREST RESERVE

Cedar Water Shed and Mountain Forests Ruined by Depredation of Sheep and Cattle.

Agricultural Interests and Health of People Jeopardized—Work to Iron Claims—Reported Bonanza.

Special Correspondence.

Cedar City, Iron Co., Feb. 2.—We have had another wonderful snowstorm, one of the most of the beautiful having fallen in the gorge and canyons of the mountains, and in some places a considerable quantity of water for agricultural purposes.

Do not neglect the warning symptoms of a weak heart. Palpitation, smothering spells, swelling of feet or ankles, pain in and around heart, sometimes affections of the stomach, lungs, liver, bladder, kidneys, etc., arise from heart weakness. Nothing I took did me any good. It cannot stop to rest. It must be strengthened and regulated. The blood must be enriched, the heart nerves strengthened and the circulation of the blood improved. I was in very bad shape. I could not sleep on my left side at all and would frequently have the most dreadful smothering spells. At times my left side would swell up. I had pain in my head all the time from the time I suffered greatly. Nothing I took did me any good until I used eleven bottles of Dr. Miles' Heart Cure. There is positively nothing to equal this wonderful medicine in its beneficial influence upon heart's weakness from any cause.

"I am very grateful for what Dr. Miles' Heart Cure has done for me, as I am confident I would not be alive today had I not taken it. Its wonderful virtues I have learned of the suffering people who have been cured of heart disease for many years. In fact since I was a little girl and for three years before I began using Heart Cure I was in very bad shape. I could not sleep on my left side at all and would frequently have the most dreadful smothering spells. At times my left side would swell up. I had pain in my head all the time from the time I suffered greatly. Nothing I took did me any good until I used eleven bottles of Dr. Miles' Heart Cure. There is positively nothing to equal this wonderful medicine in its beneficial influence upon heart's weakness from any cause."

# APPETITES

Created and Maintained by Vinol.

THAT THE FOOD IS DIGESTED IS ALSO EQUALLY NECESSARY.

We Recommend Vinol as an Appetite Creator.

WE GUARANTEE THAT VINOL WILL AID DIGESTION.

Vinol is the greatest aid to digestion that we have ever known.

It is because Vinol acts so beneficially upon the stomach that it accomplishes so much good.

Vinol contains the active curative principles that are found in cod-liver oil, without any oil or grease.

These medicinal elements act so favorably upon the stomach, that this organ obtains for itself the elements necessary for creating new flesh, muscle tissue and for making rich red blood.

When the stomach acts easily and naturally, a desire is created for good simple food and a good appetite is the result.

With cod-liver oil as formerly taken the medicinal elements which it contained were too often unable to counteract the harm that was done by the obnoxious grease that enveloped them.

Now that in Vinol we have those same elements separated from the vile-tasting fat, we have a tonic and re-builder that is simply marvelous in its action.

The following is a letter that will explain itself.

"This is to certify that I have used six bottles of Vinol, and have found it of great value as an appetizer and tonic in general debility. I have received so much benefit from its use that I gladly furnish this testimonial in order that others may be induced to give it a trial and realize its full benefits to the suffering."—Mrs. ELIZABETH FENNEY, Waterbury, Conn.

We want every one in this place to know more about our Vinol, how it cures and what it cures. Certainly the greatest tonic and re-builder we have ever sold.

We, therefore, cordially invite any one interested to call upon us; and we want all to bear in mind that we will gladly refund to any one who is not satisfied with the action of Vinol every cent they pay for it.

ing a special tax for this purpose to voters according to law. It is thought the election will simply fill a formal requirement, as the voters were largely represented at last evening's meeting and were unanimous in their action. It is expected that a stone building costing between \$12,000 and \$15,000 will be erected, containing some eight regular and one large assembly room. The building is greatly needed and the trustees will aim to finish enough for occupancy this fall.

It is expected that some of the grades in the high school course will be inaugurated in Heber at an early date. The weather here is cold, crisp and healthy, ranging around the 20 below zero point. PAYSON. WRITES A NEW PLAY.

Victim of Scarlet Fever—Quarantine Raised—Much Snow.

Special Correspondence.

Payson, Utah, Feb. 4.—One of our townsmen, Mr. F. A. Hulsh, has written a new play called the "Fatal Pledge," which is to be presented here in the near future by the Home Dramatic company.

Old theatrical people have written the play and say it is well written and worthy the effort to put it on the boards.

Mr. Hulsh was assisted by members of the Home Dramatic in the arrangement of the piece and much credit is due O. P. Hulsh and James A. Daniels for this regard.

There is no doubt the play will be well presented as our home talent has done some very creditable work this winter.

A child of Mr. and Mrs. Frank Holsh died here today, caused by a severe attack of scarlet fever which developed into pneumonia. There is still several cases of scarlet fever but all are progressing favorably. The quarantine has been raised and school are again in session.

The people should take it upon themselves to assist in stamping out disease in our community by promptly reporting any case of contagion that may exist and not expose others who may be ignorant of their conditions; if this plan is followed we see no reason why these contagious diseases cannot be exterminated.

Last night was the coldest of the season. A good deal of snow has fallen on the mountains and valley and next season bids fair to be better supplied with water than for several seasons past.

He suffered terribly while he was in the snow, and was nearly asphyxiated by a plank weighing down on him, while the pressure on his chest was something awful, causing hemorrhages. He is being given the best of care and will ultimately recover.

Supt. John P. Ellgren of the Eureka Hill mill had his hand caught in the cog wheel of a piece of machinery this afternoon, and the fingers were crushed, causing the loss of at least three of the fingers. He was sent to the hospital at Salt Lake on this afternoon's train.

She was a faithful and devoted Church worker, and did much work in the temple. Her home for 11 years has been with Bishop Levi J. Though comparatively unknown as she leaves no relatives, her life works have made a lasting impression on the few who knew her.
