BOOK BINDING AND PAPER RULING

GEORGE Q. CANNON,
EDITOR & PUBLISHER.

☞ OUR SUBSCRIBERS in the country can at any time ascertain the date on which their subscription expires by referring to the numbers attached to their name on their paper i. e., 1-4-3 means first day, fourth month, third year, or April 1st, 1873, 15-7 2 means July 15, 872, &c., &c.

Those names having no numbers close with the end of the volume.

Subscribers understanding this will be able to renew their subscriptions prior to the time of expiration so that their papers may continue without interruption.

SPECIAL TO THE DESERET NEWS.

By Telegraph.

PER WESTERN UNION TELEGRAPH LINE.

EASTERN DISPATCHES.

WASHINGTON, 24.—Secretary Fish, this morning, communicated to the President the intelligence of the Emperor of Germany having decided the San Juan question in favor of the United States. Secretary Boutwell subsequently had an interview with the President.

A delegation representing the business men of St. Louis, Cincinnati, Dubuque, Milwaukee and Pittsburg, called on Secretary Boutwell this morning and urged the importance of relieving the stringency in the money market by increasing the volume of currency. They showed the great scarcity of currency throughout the west, and urged him to issue forty-four million dollars of the legal tender reserves. The Secretary in reply said he was glad to hear their statements, and would give the matter his earnest attention.

NEW YORK, 24.—There were fifteen offers for gold to-day, amounting to over two and a half millions, at 12.25 @ 12.97. A million was sold at 12.88 @ 12.97.

The horse disease has caused a very perceptible diminution of vehicles and conveyances on Broadway and other principal streets.

A Buffalo dispatch says that in consequence of the suspension of traffic on the canal, towage has increased from five to ten cents per mile.

A Troy dispatch says that Hon. Jno. A. Griswold is now lying at the point of death there.

WASHINGTON, 24.—The President has appointed Fred. C. Lord, Assessor of Internal Revenue for Nevada.

A synopsis of the October crop report of J. K. Dodge, statistician of the Department of Agriculture, indicates the comparative production of wheat, oats and barley and the condition of the corn crop to the first of October. The record of the yield of wheat is quite variable. Some States have made superior crops, others almost the poorest ever grown. The New England States have nearly sustained their usual average; the Middle States and Maryland together have reduced their last year's aggregate from thirty-seven millions of bushels to twenty-four millions. The Southern States from Virginia to Tennessee, which were known to have an enlarged production of fifty per cent., from eighteen million bushels to twenty-seven millions. California has increased her product at least 75 per cent. Minnesota and Iowa made a material increase, while Missouri and Kansas, the former growing winter wheat mainly, the latter both winter and spring, have had a comparative failure in both varieties. Virginia and Kentucky had good crops; Maryland and Ohio returned diminished yields, as does the entire district between Ohio and lakes Miami and Hudson. The returns received from counties representing a large proportion of the wheat section, indicate in each State an increase of about five per cent over the product of last year, which was estimated at two hundred and thirty million bushels. It is probable that the complete estimate will not fall short of two hundred and forty million bushels upon an area little less than twenty million acres. This would make yield between twelve and thirteen bushels to the acre, which may be considered an average for the United States. The quality in most of the States is better than last year.

NEW YORK, 24.—In the trial of Mayor Hall, he urged the propriety of the question. He said he proposed to show that the present board of auditors adopted the same practice as that in vogue in May, June and July '70. He said the duties of the board during that period, were enough to crush the brain of an ordinary man, and every bill could not be examined then and is not now. Tremaine, for the prosecution, argued that the question was irrelevant, that the board was appointed to stand between the claimants and tax payers, and were guilty if they failed to examine the bills. The Court decided in accordance with the views of the prosecution, and produced a number of vouchers, some of those upon which the mayor was indicted were shown the witness for identification. The witness contested the Mayor's signature to one certificate, though the latter appeared to be genuine. The mayor remarked that he had doubts as to his signature to some of the others certificates and to several warrants and vouchers which were stolen. Various warrants, including thirty-four in favor of Garvey, were then examined and the mayor identified the signatures, admitting all but one to be genuine. Ex-county auditor Lynes testified that he saw nothing to lead him to suppose these warrants were fraudulent at the time they were issued. He described the office routine in such matters, and said all the requirements had been complied with.

Garvey, the "ring" plasterer, was in court, and reported that he would be a witness against the mayor.

The tobacco men have resolved to vote for no candidate to Congress who won't pledge himself in favor of the modification of the tobacco tax.

Mrs. Greeley, who yesterday appeared better, has had a relapse and is now in a critical condition.

It is estimated that 15,000 horses are under treatment in this city; two car lines and one stage line have stopped running.

The trial of Chief of Police McWilliams, and detective Doyle, at Jersey city, for complicity in the Jersey City Bank robbery commenced to-day. Dennan, one of the robbers, testified that McWilliams told him there were two million dollars in the bank, and for twenty per cent. of the plunder he agreed to have the handcuffs so fixed on the robbers' hands as to permit them to slip them off and escape.

At the National Convention of the German American Progressive, and the German American United Associations, to-day, M. Mandl made a speech censuring Schurz for the abandonment of Republican principles.

BOSTON, 24.—The horse disease has disabled a thousand horses here, and appears to be spreading over New England. One omnibus line has stopped, and the street railways are much embarrassed.

WESTERN DISPATCHES.

SAN FRANCISCO, 24.—Thus far this year $6,058,506.70 have been paid into the custom house for duties. The treasure shipped hence since the 21st inst. amounts to $26,281,673, of which $2,300,000 in coin was sent through the mails. Nearly two millions more have been shipped this year than last. The total value of merchandize shipped during the week is $525,507.

An assessment of five dollars a share has been levied upon the stock of the Ophir Silver Mining Company, delinquent on the 26th of November.

The San Francisco and the North Pacific Railroad Company, recorded a mortgage of ten millions on its stock, franchise, &c., in favor of Chilo C. Calhoun and Eugene Kelly, of New York, to secure payment of certain bonds.

In the case of Jacob Wilkinson, charged with the murder of Hattie E. Burkhardt, in April last, the jury, last night, brought in a verdict of murder in the second degree. The counsel for the defense endeavored to make it appear that the deceased committed suicide, and the prisoner was placed on the stand and swore that she shot herself in his presence.

Johnny Divine, *alias* the Chicken, who was convicted of murder several months ago, has had a new trial granted him by the supreme court, on technical grounds. He will probably get clear now, as the evidence against him is scattered.

The Ochotak codfish fleets have this season brought 204,500 fish to this port, less than were brought last year; in fact the catch this year is the poorest of any since the inauguration of codfishing in this port in 1865.

The well known California artist, Chas. Rogers, is at work upon a historical painting, illustrative of salient points in the history of this country.

SAN FRANCISCO, 24.—A house painter named Peter Jorgenson fell from a building on 30th St., near Bryant, today, some 40 feet from the ground. He received a compound fracture of his right leg, and other severe injuries.

The papers, generally, in severe terms condemn the verdict in the Wilkinson case as outrageous; it certainly should have been murder in the first degree or acquittal. Wilkinson either murdered the woman or she killed herself, and the jury evidently did not believe the latter.

It is estimated by good British authority that from 80 to 88 millions of bushels of foreign wheat will be required to supply the English bread markets this season.

SACRAMENTO, 24. — It is reported among horsemen that "Occident," this a.m., did a mile in 2,18½, without whip or breaking. He goes to Alameda tomorrow.

SAN RAFAEL, Cal., 24.—To-day being the anniversary of the birthday of the patron saint from which the town gets its name native Californians held appropriate religious ceremonies.

LOS ANGELES, 24.—A letter from San Bernardino says a Democratic club of 67 members in favor of O'Conor has been formed there, and that O'Conor's vote will exceed that of Greeley.

EUROPEAN.

PARIS, 24.—The *Soir*, a public ministerial organ, says that it is impossible that minister Washburne will retain his post, he having been offered a seat in the Washington cabinet after the presidential election.

The complaints of the communist prisoners, of bad treatment, have been officially reported.
