DESERET EVENING NEWS: SATURDAY, JANUARY 17, 1903.

REACHES SEAT OF TROUBLE. **TWENTY INCHES** Don't Try to Cure Hemorrhoids With External Application. OF SOLID ICE.

What the Cold Spell Has Done in

Ogden Canyon.

ABOVE POWER CO'S DAM.

Something of the Proposed New Dam

And What It Will Do for

frrigation.

The continued cold weather has put

over 20 inches of solid ice in the water

above the Utah Light & Power com-

pany's dam in Ogden canyon, and that

locality is very suggestive of the north-

ern coast of Siberia. However, the com-

pany has now the currents from the

different plants-both steam and water -turned into one greater receiver for equal distribution all over the states

ent lines of consumption, so that there is no variation or unequal distribution f currents. Manager Campbell remarked in re-

sponse to inquiry about the prospects for the new dam, that the farmers of Weber county who would be benefitted by such an enterprise now understand the advantages that would accrue to them in the certainty of their crops ir-

them in the certainty of their crops ir-respective of drouths, and are ready to co-operate with the Light & Power company; so that the inauguration of the valuable enterprise is a question of ways and means, or the raising of the necessary capital, for it would re-quire some \$400,000 to successfully carry out the plans proposed; and these plans are on an economical but thoroughly ef-ficient basis. Such a dam would set the water back for 2½ miles, and give a lake with a surface of 2,500 acres. This amount of water would furnish sill the

amount of water would furnish all the power desired for the operation of the

Electric Light & Power company's in-creasing business, and supply irriga-tion water for 15,000 acres directly, and 5,000 acres more indirectly. So it would

not be a matter of much concern to beet and fruit growers whether there were dry spells or not, the water would be there, and the Electric Light people

would not have to scan the face of the sky with anxious countenance in warm

weather to discern, if possible, indica-tions of much hoped for rainfall,

Baneful Surroundings.

With External Approaction. When it is such a well known fact that hemorrhoids or piles is a disease originating in the morbid dilatation of the veins of the jower part of the rec-tum, it seems incredible that people af-flicted with this painful rouble should go on doctoring with external salves and washes, when the diseased parts can only be reached by an inward ap-pileation.

plication. The suppositories used in Pyramid Pile Cure are composed of the most southing and healthe oils and lotions known to Materin Medica, and act on the diseased veins and surrounding tissues like magic, giving almost instant relief. The dilated blood vessels are relieved, the instation of the muccus

membrane ceases and bleeding is stopped. The predisposing causes of piles are such as produce fulness of the hemorr-holdal veins and impede the return of blood from them, such as constitution, sedentary habits, city life, pregnancy, corsets, etc.; in fact, the causes are all fully covered in a very interesting lit-tile book published by the Pyramid Drug Co., Marshall, Mich., and the same will be sent free to any address

upon application. The general principles of treatment are, according to the evident causes, active habits, attention to dist, and other hygienic rules, etc., avoidance of constipation and each night the injec tion of a Pyramid suppository to heat and cure the afflicted parts. That this treatment has been effec-

tive is instanced by the testimony of thousands of people who have been per-manently cured and by the evidence of druggists: the case of Mr. Samuel Gouldie, 526 Moyamensing Ave., Phila-

Gouldie, 526 Moyamensing Ave., Phila-delphia, is a fair sample. "For twelve long yoars I suffer d ter-rible torture from piles. I had been under two surgical operations, once in Cleveland, Ohio, in the year 1595, and once in Toledo, Ohio, in 1590, and also tried a number of salves and ointments from different doctors. I at last found a permanent cure by only using two fifty cent boxes of Pyramid Pile Cure. The first two or three applications gave me relief at once. I am now entirely cured and thank God for finding such a medicine as the Pyramid Pile Cure." a medicine as the Pyramid Pile Cure.'

min of the second sectors and MISSIONARY ENTERTAINMENT.

On Monday evening next a farewell reception will be tendered in the Eighteenth ward schoolhouse to Elder Joseph Hyrum Parry, Jr., who leaves seph Hyrum Parry, Jr., who leaves Tuesday on a mission to Mexico. An interesting impromptu program will be rendered by the following artists, as-sisted by the ward choir: Mrs. Lizzie Thomas-Edward, Miss Ruth Wilson, Miss Bitner, Profs. J. J. McCleilan, Arthur Shepherd and C. D. Schettler, and Messrs, Fred Graham, Thomas Ashworth, Adeibert Beesley, B. S. Young, S. E. Clawson and George B. Margetts.

IN BEHALF OF CHILDREN. **APPLICATIONS** Proposed Bill to Rescue Children from FOR PARDON Within the next week or two a bill

that will engage the interest of humane men and women. The measure is The state board of pardons met tobeing prepared by Staff Capt. M. M. day in regular session and considered Woods, of the Salvation Army, and seven applications for pardons and will be known as "An act to define con-ditions of child dependency, neglect and ill-treatment, and to prescribe meth-ods for the protection, disposition and supervision of dependent, neglected and ill-treated children within the state of Utah." commutations. The entire board was present. The application of Charles Botha, known as "Dutch Charley," who was convicted of murder in the first degree for the killing of his wife and Capt. Woods has already enlisted the sympathy of the W. C. T. U. and at the meeting of the latter, held last evening at the home of Mrs. Clarence T. Brown, the bill was discussed and William Tibbetts in San Juan county, was withdrawn for the reason that his case is now pending in the supreme court. Three applications for pardon

Washington, Jan. 17 .- Admiral Hig- 1 ginson cables from San Juan, P. R., under today's date that by an explosion of powder in the eight-inch turret of the battleship Massachusetts five men were killed and four injured. None were commissioned officers.

The text of Admiral Higginson's dispatch is as follows:

"San Juan, P. R., Jan, 17, 1903. Secretary of the Navy, Washington-Powder charge exploded accidentally in s-inch turret of the Massachusetts. Cause is being investigated by board. Dead: A. Hendrickson, boatswain mate; F. H. Losser, apprentice: S. F. Malinowski, landsman; K. J. Platt, or-dinary scaman; Robert Kulo, ordinary

"Injured-W. W. A. Schert, appren-tice: A. S. Tacke, cosswain; J. S. Patterson, ordinary seaman; A. T. Dossett, ordinary seaman,"

DETAILS OF EXPLOSION.

San Juan, P. R., Jan. 17 .- Five men were killed and four others were wounded, two of them probably fa-tally, by the explosion of a powder charge of an S-inch gun on board the United States battleship Massachusetts yesterday morning, while at practice off Culebra Island. target

Details of the explosion were obtain-ed when the Massachusetts arrived here today. The explosion occurred in the starboard after 8-inch turret shortly before noon yesterday and was due to the accidental discharge of a percus-sion primer while the breech of the gun was open. The full charge exploded in the turret and killed or injured all the crew of the gun, numbering nine men, Ensign Ward K. Wortman, who was ip charge of the turret, escaped injury, though he was standing weat the decay

though he was standing and the device of the explosion. Magnificent discipline was immedi-ately shown by the officers and crew of the battleship. Capt. Earry Lee, com-manding the marine guard of the ves-est, and Ensign Clarence Abele imme-diately flooded the turnet with water and Lieut, Charles F. Hughes and Gun-ner Kulturen word helpow to the magner Kuhlwein went below to the mag-azine, picking up powder charges and preventing further explosions, while Lieut. William C. Cole and Gun Capt.

Soneman entered the turnet and with-drew the charge from the other gun, whose breach was open. The surviv-ors of the gun's crew, when rescued, were burned, mutilated and nearly dead.

One man whose clothing was on fire jumped overboard. In less than a minute after the explosion three streams of water were pouring into the turret, preventing the charge in the other s-inch gun from exploding.

NEW RURAL DELIVERY ROUTE

Owing to a slight oversight in the sacrotary's office, the name of William Radeker, Salt Lake, was overlooked in making out of the premium lists. He took second prize on drakes, third and fourth on ducks, and second on pen.

The association comes out ahead finan-

farming machinery, with liabilities amounting to \$1,720.79,

Today's weather map shows a low Today's weather map shows a low barometric area dropping down from the northwist, and the hopes are that it will drop down into Utah and leave some moisture here. Moderately low temperatures have characterized the country west of the eighty-fifth merid-ian during the last 24 hours.

Fred Harris has recovered his \$79 vercoat. He found out the man who had helped himself and gave him just so much time to return the missing garment or take the consequences. The fellow concluded to "refund" and within the time specified brought back the

The maiter was some time ago sug-gested to Congressman Sutherland by Postmaster Thomas, and by the comproposed to establish a new rural deslivery route starting from Murray. This. blued influence of these two active and hard working officials, the urgency of route, if established., will necommodate many people who are getting their mail from Big Cottonwood. The necessity for the establishment of this route was suggested by the discontinuance of the Argenta office, since which time, mail for many people has been sent to Brin-

BOY SKATES TO HIS DEATH.

terday afternoon by skating in front of a rapidly approaching Rio Grande train near Murray. The boy was hit by the sylinder of the locomotive, thrown under the wheels his legs practically ground The train was stopped, a and____ doctor summoned and the suffering lit-tle fellow taken with all dispatch to St. Mark's hospital, but ere an operation could be performed he succumbed to

his injur! of companions, was skating upon a death ended his sufferings.

EVANS COMES TO

John Anderson, a 14-year-old boy of small pond adjacent to the track and Murray, met with a horrible death yes- were indulging in a game of tag. In their excitement the boys did not no-

is injuries. Anderson, accompanied his son to the hospital and remained with him until

tice a train approaching and Anderson swooped at full speed close to the track. His terrified companions noticed his danger when it was too late and with a horrified yell told him to look out. The boy realized his danger as the train was upon him and attempted to throw himself flat on the ice. Ere he could accomplish his purpose he was thrown under the wheels with the result indicated. The grief-stricken father, John A.

SALT LAKE Following the absorption of the Rio Grande Western by the Denver & Rio Grande the accounts and business of the Utah Fuel company, which is to and intents and purposes, an adjunct of the merly known, the Pleasant Valley Coal

Large Car Shop, Foundry, New Storehouses and Other Buildings To be Erected.

MORE

Do This Year.

shops, but it is safe to say that they have but a faint conception of their magnitude and up-to-dateness. When it comes to all the latest labor-saving contrivances in the handling of heavy work there is not another set of shops under one roof in the West that can compare with them. To see the big electric traveling crane pick up the largest locomotive operated by the Oregon Short Line and with it dangling like a charm at the end of a particular for Oregon Short Line and with it dangling like a charm at the end of a watch fob carry it the length of the shop is alone "worth the price of admission." The layman simply throws up his hands and gives utterance to the hackneyed expression regarding the ingenuity of man. To the engineer the new shops now in opration are a thing of joy and a beauty continuous. Connected with the motive power de-

enthusiastically endorsed by all the members present, and a committee will be appointed to go in conjunction with other friends of the bill, before the Legislature and work for its passage. The Utah Home Finding association is in hearty accord with the measure and will be prominent in advocating its be-ing converted into a law. ing converted into a law. The bill, as yet, has not been worked

The bill, as yet, has not been worked out in detail but in general it is for the purpose of allowing officers, or any humane and kindly person, to seize the person of a child, whose father, mother or guardian is an habitual drunkard, or a person of notorious conduct or dis-solute habits; or a child who is asso-ciated with a thief or degraded person. The child is to be detained three or four days, or a length of time sufficient for the court to determine what dis-position shall be made of the child.

position shall be made of the child. At present no child can be appre-hended, according to the law, no mat-ter how revolting the conditions are in which he is conditions are in which he is existing, until an order has been secured from the court. Capi. Wood states that he has observed children under such conditions as have been described, but while he was mak-ing the representations before the court to secure an order, the children were spirited away and his humane purpose was thwarted.

Capt. Wood says he is aware of the objections that can be raised against the bill, but he thinks he can convince the Legislature that this measure will go such a long ways in remedying a crying and shameful evil, that it will be made a statute of the state before long.

A Guaranteed Cure for Piles

A Guaranteed Cure for Files Itching, Blind, Bleeding and Protruding Pilec Ne cure, no pay. All druggists are suthorized by the manufacturers of Pato Olutimeat to re-fund the movey where it fails to cure any case of piles, no matter of how long standing. Cores ordinary cases in six days; the worst cases in fourteen days. One application gives ease and rest. Relieves itching instantly. This is a new d scovery and it is the only pile remedy sold on a positive guarantee, no cure, no pay. Pricebec.

COAL AND IRON DEAL.

Second Payment of \$50,000 Will be Made On the 23rd.

A second payment of \$50,000 is to be made on the 23rd inst. by the Buhl-Kimberly syndicate to the syndicate including Col, S. H. Milner, M. H. including Col. S. H. Milner, M. H. Walker, the Campbell estate, J. C. Cut-ler, Jr., and others on the coal and from lands in iron county. This fact is con-sidered as a sure indication that im-mense amounts of eastern capital will be turned loose in the south country as soon as an understanding can be ar-rived at with the railroads relative to rates. It is confidently expected that as soon as the Twin Falls irrigation proposition has been well launched, and excavation brought well under way. excavation brought well under way, some move of importance will be made in the direction of the southern iron fields. Col. Milner remarks that while he has

no personal interest in the south coun-try after final settlement with his peotry after that settlement with his peo-plo for the iron properties, he believes there will be a general exodus of in-habitants from the southern part of the state to southern Idaha for occu-pancy of lands under the great canals and ditches to be built in the Twin Dealls country. Falls country.

SCHOOL FOR LEMHI INDIANS

Senator Dubols Gets an Appropriation For Another Building.

(Special to the "News.")

Washington, D. C., Jan. 17 .- Senator Dubois called on the commissioner of indian affairs today and asked that an appropriation of \$12,000 he allowed for an additional school building on the Lembi Indian reservation, which re-

were granted and three were denied, A number of cases were continued for one month August Nelson, who was convicted of

murder and sentenced by Judge Black burn at Provo on Nov. 2, 1832 to life imprisonment, received a pardon at the hands of the board and is now a free man. He has served over 10 years, and this is his second application for a par-

Ibopah, the Indian who was convicted of involuntary manshaughter for the killing of his father, and sentenced by Judge Marioneoux at Nephi, on Nov. 1, 1962, to one year in the county jall, was also pardoned. The district attor-ney who prosecuted Ibopah recommend-ed his pardon, and some time ago Gov. Wells was waited upon by a number of Indians belonging to Ibopah's tribe, who

invited to be present.

The great lake has risen one inch in , and the 1st of March. A reference to the last two weeks, after having re-the records show that almost every year during the month of February mained practically stationary for a trere is a decided rise in the lake. For month; and the local hope is that with several years past, though dry winters have followed these rises, and the temthe amount of snow there is now on the nountains of this watershed, there will porary gain was overbalanced by the continued deficiency in precipitation, until the lake was reduced to the level be a substantial rise in the spring. Usually the lake continues to rise, after once having started, until June 1.when the increasing evaporation prevents which it attained. The deficiency in precipitation is at present only .62 for ther rise, and the level steadily falls until late in the winter. The lake level reading is now 3 it. 5 in, be-low the zero mark at Garfield, and the an inch. If February, as it has done in the past, proves to be a wet month, this deficiency may be made up, and with the melting of the heavy snows that have fallen in the mountains durreading of 3 ft, 6 in, of two weeks ago will mark the lowest level reached by ing the winter, the lake may be ex-pected to rise rapidly and to a good height. If, as it is believed, the dry cythe lake since records were established. Section Director Murdoch says:

"This rapid rise should come during the month of February if conditions of previous years repeat themselves. In 1891 the lake rose two feet and two inches between the 15th of February | be watched with no little interest."

LATE LOCALS.

J. J. and J. W. Snell have given an option and lease on 69 acres of quarry lands north of Warm Springs to E W. Senior and associates, represailing the smelters, for \$25,000, and if the sale is made complete by March, the prio, will be \$29,000. There are extensive mairies of very fine limestons on these ands, of the color of Keyune stone, and which will take a glass like polish. This stone can be used either for building purposes or for fluxing in smelter opirations,
