Organized as a Band of the Sixth in Colorado.

## TERRORIZING THE COUNTRY.

A Vigilante Committee Being Formed to Exterminate the Bandits and Bloody Conflict Expected.

Denver, July 30.—One result of the lawless strike at Cripple Creek is the creation of a band of robbers who have terrorized the country in the mountainous neighborhood and the outbreak of trouble, more bloody than the recent strike, is among the possibilities.

When it became known that Sheriff Warden was to be permitted to serve warrants and make arrests those headed who said that their actions would be punished with heavy penalties, fled the camp. A party of them numbering ten or fifteen organized themselves in a band, and ever since have demanded protection from the surrounding ranchmen. They are mounted on stolen horses and make raids, scaling cattle, property, horses, etc., that will cover their purpose. Last night they made a little raid in Victor, demanding what they wanted and then looted all that one in Victor could stop them. Dr. Loring Wilson was the only man who had the courage to stand up to them. He was shot in the arm and his horse was captured. From a single gun he repelled them and he was obliged to dig out his cartridges, as no cartridges were left. He was obliged to fight his way home, but he was successful.

The missing man had incurred the enmity of the Capitols of his neighborhood and the feelings against him are intense. It is said that Sheriff Warden is organizing a powerful gang to proceed against them. Watchmen every member of the gang have been noted for acts committed during the strike.
