Death of Two Prominent Women-

Damage by High Waters.

Manti, Utah, May 26 .- Mrs. Emily

Smith Patton, daughter of Albert Smith, a member of the "Mormon" Bat-

talien, and wife of our pioneer towns-man. John Patton died here Thursday

evening, and will be buried tomorrow. Mrs. Patton was born in the State of New York in 1832, and joined the "Mormon" Church when she was a

child. Together, with her parents, she came to Utah in 1848, and the next year

they were called to settle Manti. Here she has resided ever since. She is the

mother of ten children, seven of whom survive her, and each of these has a

large family. Her children are scat-tered throughout this intermountain

country, and one of her sons is a well known engineer in New York. Another

oy of the family, the noted inventor ohn Patton, Jr., resides in Baltimore

KINGSTON.

DEMISE OF HENRY SUDWEEKS Close of a Long and Eventful Career.

Kingston, Plute Co., May 22,-"Grandpa" Henry Sudweeks passed away on Sunday last, at the ripe old age of 85 years. He had been ill for some time, and he died surrounded by his family. His had been a busy and eventful career. He was born in St. James parish, county of Kent, England, on Sept. 11, 1815. At an early age he left the farm and served nearly three years in the British navy. When 21 years of age he migrated to the United States, taking ship on Oct. 25 at London, England, and ship on Oct. 25 at London, England, and not arriving in New York until March 23, or nearly five months in passage. 1688 he married Sarah Sweet. Mr.

equently to St. George, Codar City, and Franklin, who has been on a mission on March 1, 1877, he arrived at King-ston, Plute county, where he has resided ever since. Mr. Sudwecks was the progenitor of thirteen childreen, liftyfour grandchildren and forty-one great grandchildren. His children are all men and women of sterling worth and influ-ence in the communities where they re-

ing in it again.

ADULTERATED FOOD STUFFS Millions of Dollars' Worth Sold Every Year.

Commenting on the pure-food question Dr. Wiley, the chemist of the de-partment of agriculture, says that the value of the adulterated foods sold an-nually in the United States amounts to "Coffee could no doubt be made far ries, to say nothing of the fake beans with which the real beans are mixed. Chicory, too, is popular in the lower grades. All these additions give the coffee an exceedingly bitter tasts. I have often purchased in Washington coffee from which I easily selected the manufactured beans. I have quite a collection of imitation beans.

the unground coffee, as they are mor apt to secure the real article. Ground coffee is so easily adulterated that many persons refuse to buy it, prefer-ring to take a little more time by doing the grinding themselves and achieving in the end far better results.

"Sugar and salt are as a rule absolutely pure. "Molasses and maple-sugar, however. and in the vicinity will be made to are greatly adulterated. There is more ield its strength to the growth of the of the latter sold by ten times than the sugar beets and other crops.

Hishop Wm. Lewis, with the aid of his flock, is remodeling and preparing their neat little meeting house for dedication at an early date.

or the latter sam by ten lines that product of the entire country. Maple sugar is generally mixed with brown sugar, and the public does not know the difference. Persons who would not deign to taste common brown sugar relish it when in the form of maple-

sugar, "Ground mustard, pepper and all spices are far from being what they appear. Indeed, there are factories in a flourishing condition which do nothng else than make fillers for condinents. Mustard is generally flour and turmeric, with a sprinkling of the real

"The beautifully colored jellies that invalids love are generally nothing more than glucose and the extract of apple parings and cores artificially flasay, were never at any time in the vi-cinity of orchards. These buckets of preserves, damson, etc., that sell by the pound and taste like shoe-blacking, are

most wonderfully put up.
"Perhaps the most injurious sub-stances in foods are the antisepties found in canned vegetables, soups and beverages, such as beers and wines. Catchup generally is put up with an antiseptic."

DANISH BUTTER.

"My country is devoting most of its forts to making butter and raising pige," said a representative of a cotton-seed importing house of Copenhagen, Denmark, who was recently registered at an American hotel.

"My firm, which has sent me over to buy cottonseed cakes, is increasing its business rapidly. Why, in one year Denthe Pocatello Stake of Zion, which was to convene next Sunday, June 2, has one postponed till the 17th A new Juorum of Seventies is to be organized and prominent visitors from Salt Lake research. to grow much grain now. They find there is more money in raising cows

"Denmark makes the best butter in the world. It is shipped all over the ported butter to the value of £15,000,000, Half of that money was paid to Danish dealers. Since then our butter ship-ments to the United Kingdom have in-creased, though I do not know the exact figures. Then our butter, done up in cans, is sent to Japan, Java, Sumatra, several countries in Africa and to Venezuela and other South American coun-tries. The butter is put up in such a manner that when the can is opened : tastes Just as fresh as the day it was made. No borax is used as a preservave. Our government prohibits that "Our pork exports have also assumed

large proportions. We send a great dea of our pork to the United Kingdom. At one true our cattle shipments were quite extensive. But the countries to which we sent them began to put up the bars. We ship considerable canned meat still, but the cattle-raising business has greatly diminished, "With all our pigs and cows we need

a great deal of grain and we turn to the United States to get much of it. Cotioned cakes is a favorite feed in Den

"Our people are contented and pros-perous, probably not prosperous in the American sense, but they have enough to take care of them and their children. Our country, while conservative, is advancing. We have a population of 2,-500,000 now. In 1864 we had only 1,300,people emigrate. Practically the only ones that leave us are those who go to Russia to teach the people of that country our methods of butter-making, Probably 1,000 of our people are dis-tributed about the czar's domain, givng instructions in butter-making. We
