AN ASSESSMENT

HAS BEEN LEVIED

Directors of Geyser-Marion Levy One of Three Cents Per Share.

SALT LAKERS IN SEATTLE.

May Not Reach Nome Before June 15th—The Grand Central-Smelter Project.

The board of directors of the Geyser-Marion Mining company of Mercur, met last evening and levied an assessment of three cents per share to meet the present indebtedness, which amounts to \$7,500. The assessment becomes delinquent on June 17th, the date to take place on July 20th.

In the report presented to the directors the secretary and treasurer says that when the present board were elected at the beginning of the year the company was in debt about \$5,000. Quite a little development work has since been done until the amount of indebtedness has been raised to \$7,500. This amount has been carried as an overdraft by the bank at Mercur, controlled by Frank D. Kimball and W. S. McCorkle & Co., who have notified the officers of the company that the bank cannot carry its business any further. The company has no money on hand and hence in order to save the mine and mill being closed, and prevent the institution of a new assessment was the only way out of the difficulty. The above assessment will give the company \$2,250, the surplus above present needs being necessary to prosecute development work.

Star Consolidated was a little stronger at \$2. Sacramento hung around 2 1/2% and Valco stood at 8 1/2%.

Buckeye dropped 1,000 at 2 1/2% while Dexter closed with 15 offered and Geyser-Marion stood around 6 owing to the fact that knowledge of the assessment had not leaked out.
