

## THE EVENING NEWS.

PUBLISHED DAILY, SATURDAY, FOUR VOLUME.

GEORGE Q. CANNON,  
BRIGHAM YOUNG,  
BROTHERS AND PUBLISHERS.

Wednesday - May 10, 1870.

## NOTICE

The Forty-eighth Annual Conference of the Church of Jesus Christ of Latter-day Saints will convene at the large Tabernacle in this City, at 10 o'clock A.M., April 6th, 1870.

John Taylor,  
President of the Council of the Twelve Apostles.

## EDITORIAL NOTICE.

The Iowa Legislature has rejected woman suffrage by a vote of 49 against 33. If the ladies are working, the majority will be on the other side after a while. Justice will win, in time.

The Wisconsin Legislature has voted on the educational question. The House recently passed a bill for compulsory education, and the Senate killed it. America is not yet ripe for this measure.

New York statistics show a good showing for the German-Americans of the population. Their rate of increase is 38 per cent. below the average, while their increase in births is larger than that of any other nationality.

The New York Monitor argues that non-property holders do not have the right of suffrage. Will its brother organ hold this view of the question? Is taxation a right basis for representation in the east, but a wrong basis in Utah?

The noted pro-slavery men are coming to trial. The notorious Madam Bonelli, of New York, is under heavy hands awaiting trial for selling some of the "slaves" with which she has acquired an immense fortune, and now resides at Chapman, of St. Louis. In the same fix, the New York Society for the Prevention of Cruelty has instituted proceedings in both cases. Success to them. The professional abolitionists have a confession of murder.

The electric light has been tried at Cleveland, Ohio. Two electric lamps, one hung near the eaves of a building 30 feet by 15, brilliantly illuminated the room with a pure white light like sunlight. Cost—every thing included—15 cents per hour; illuminating power equal to 200 oil lamps.

Electricity is a force which will be utilized in many ways. We hear failure; at present its uses are only beginning to be recognized.

From the Christian we learn that "a new method of observing the Lord's supper has been adopted by the new Methodist Church (Unitarian). Now, following the practice of Dr. Channing of Philadelphia. The bread and wine are displayed on the communion table—but that is all. They are not partaken of by the congregation." This is in keeping with other parts of modern Christianity. Goodness, peace and blessings of the gospel are viewed and received by the soul without being tasted. They read of them, as a hungry man may read of a feast, but like his imagination referred to above, they are only matters of thought.

## DEATH TO THE DEITY OF LIFE.

SALT LAKE fruit of all kinds until the past two or three years has been a luxury. It cannot be eaten for disease and flavor. With the exception of grapes, the tropical fruits, ripened in a climate without tropical, do not taste good. Rich and exquisite taste of Utah products. But lately a deadly enemy has invaded our orchards—white blight and blanching. Which have increased to such a degree that rain has overtaken the apple crop, and other fruits are ruined and partially destroyed.

The ending moth has visited down have apparently for permanent home, other destroyers are taking up their abode in our orchard quarters in the Territory. This city, which seems to be the center of the work of the destroyers, will soon lose its fruit reputation. Some combined effort is to be made to conquer the rapidly multiplying pests.

A correspondent sends us suggestions on this subject which we think worthy the attention of every person in this city and other places infected with the ravaging moth. He recommends that the ground be loosened for a foot or so around the trees and a good coat of lime applied. Now is the time to do this to be done. When the trees are in blossom dust them as frequently as often there is a chance, with a mixture of three parts sulphate and one part sulphate of potash around the trunk, and particularly in the crotch where blossoms form, places where no bark, which will not be eaten by the worms, the worms will be removed and destroyed after the trees are destroyed, the operation to be repeated until all the trees are gathered.

The apple worm, it is generally admitted, goes into the ground near the roots of the tree in the Fall, coming up in the Spring, a miller and devorant life cycle. One of them, the scales and soft-shelled insects of various kinds, the destruction will come when we can get hit the fruit pests.

Now if every orchard in the country is treated in this way, the pestilence will next year the politicians will be a heavy tax in the name of a winged hell upon the devastation; and poverty

think the effort worth making. Our apple crop should be of immense value. At present it is a delusion and a vexation. The fruit looks fair to the eye but inwardly it is tanned with filthiness. Most of it is unfit for the table and the markets reject it. The Territory may be cleared of the grey little interloper by a united effort. The attack must be general. Single assaults will avail but little. Let every person owning an orchard, whether large or small, commence the campaign at once. Give who none when the blossoms come forth in their pure white loveliness dust them with wood ashes and sulphur. Next set the cloth traps and keep up the fight until the fall. The labor will not be great, the cost is the greatest trifles; the results will be of immense value to every voter and the whole community. Let the motto be "Death to the destroyer."

## BY TELEGRAPH.

FOR WEDNESDAY EVENING TELEGRAPHIC.

## TO-DAY'S DISPATCHES.

## CONGRESSIONAL.

## SENATE.

WASHINGTON, 20.—Mitchell introduced a bill for the protection of hemlock waters of the public lands referred.

It was ordered that there be printed, for use of the finance committee, the statement made by the Secretary of the Treasury in regard to the repeal of the whaling laws of New Spain, through extraordinary efforts by the Spanish government, that they each receive \$5,000 dollars per detention, etc., while whaling in Spanish waters, but would not be compensated with instructions to forward the money here to the agents of the vessels. The owners are much pleased that a settlement has been promptly and satisfactorily arranged.

Arrested for Murder.

PHILADELPHIA, 20.—James Graham, aged 27, single, has been arrested on a charge of murdering John A. Armstrong, at Canfield, Ohio, on January 28th, and condemned to the death.

The starting point of Graham's confession is where he detailed how Hunt visited the house of the wounded man when he was at the post office of Canfield going to the office of Armstrong, in the absence of the lady member of the family, pressed his victim's hand and made the wounds bleed fresh again. Graham says the plot to murder Armstrong was carefully planned, and that he agreed to do the job for \$200 when Armstrong was unimpeded.

The sturdy sinner

HANOVER, N. H., 20.—Quint is a student at Dartmouth College. He has been a large number of dissidents, but only two expulsions, Isaac G. Barnard, a junior, from Francklin, and John Crocker, a freshman in the scientific department, from Illinois. The sophomore, to-day, escorted their disengaged classmates to the cars, some accompanying them to the next station.

The Internals

LONDON, 20.—A. H. Petersburg correspondent has reason to believe that the Czar did not, as the Turks hoped, remit a portion of the indemnity when he ratified the treaty.

A Russo-Turkish Treaty Discovered

Well informed people there discovered the report of the secret defensive and offensive treaty between Russia and Turkey. They point which is interesting in itself, for further dismemberment of Turkey and the Turks, if they comprehended their own interests, will act with her without a treaty.

Moscow's Threats

A Paris dispatch says: It is reported that the Russians, in consequence of the Porte's obligations, have relinquished their intention of going to Subsidy.

Singletons Arrested

A special from Corfu reports that a movement in favor of the creation of Albania into a principality, under the protection of Italy, has commenced at Berat. The Turks have arrested the ringleader.

A Dead Body

A dispatch from Vienna says: The dead body between Russia and England is complete. Austria and Germany are opposed to England's demand.

The International Walking Match

began on Monday morning, and to last six days, promises much interest. As it o'clock to-day O'Leary completed 24 miles; H. Brown, 22; and Harry Vaughn,

21 miles.

THE VENICE FAIR.

The World's Toronto special says: All is quiet on the principal street at Venice. Collins had a meeting of his band, and stones were thrown for a time, nothing serious occurred. Rossi left by the 3 o'clock train yesterday afternoon for New York. Singing quietly on the causeway to Cannaregio, nobody outside of his friends knew him, and to that he gave his lie.

Loss of a British Steamer—The Queen Victoria.

The British steamer Asterie stranded at Castillon on the 8th of January. During the night the storm increased, and at daylight only two of the masts were above water with seven or eight persons clinging to them, three of whom were dead. No help could be rendered because of the strength of the waves. The continued rough until the 5th, when a boat was sent to an island near the wreck, but nothing was found except paralytic corpses. Captain Baynes and thirty of the crew perished, only two men being saved. Mr. Parsons, the first mate, and Donald Campbell, the third engineer.

The survivors of the Asterie

REVENGE OF WAGS.

The cotton masters of North and North-east Lancashire will reduce the wages ten per cent.

INTERNATIONAL WALKING MATCH.

The international walking match began on Monday morning, and to last six days, promises much interest.

As it o'clock to-day O'Leary completed 24 miles; H. Brown, 22; and Harry Vaughn,

21 miles.

THE ASTERIE.

Hobart Pasha invited the principal leaders of the insurrection at Mardin to meet him for parley, with a view to the suspension of hostilities. The Sultan, however, was advised of the "Children of Malcontent Party." They replied that if Hobart Pasha wished an interview with the chiefs of the provisional government or the provisions, they would send envoys to meet him.

Loss Among the Steamer Passengers.

Advises from this side that typhus is raging among the Roman Catholics. General Millet, Gouraud, and Gouraud are reported to have died. It is believed more men have been lost by sickness since the cessation of arms than on the battle field during the war.

Gen. Gouraud's Death.

A special from Paris of the 9th, says that O'Leary will win. Smith is said to be dead by book odds, and many other officers start for O'Donnell to-day. Gouraud himself, who was a native of the "Children of Malcontent Party," they replied that if Hobart Pasha wished an interview with the chiefs of the provisional government or the provisions, they would send envoys to meet him.
