

afternoon. Not the least enjoyable feature was a delicate luncheon. Principal Barton and corps of teachers being invited, and all enjoying a delightful time.

The teaching corps regret to learn of the misfortune befallen Miss Stimmell of the Union school, in the severe illness through which she has just passed, and the death of her mother, which occurred at Fargo, this week. The hosts of friends which she has made since she came here will be pleased to learn of her speedy restoration to health, and return to duty.

Miss Rhinehart visited Misses Eaton and Thomas at the Riverside on Tuesday.

One of the most instructive grade meetings of this year was that given under the direction of Supt. Christensen at the Fremont on Tuesday afternoon. Geography as outlined for pupils of the sixth and seventh grades was treated, the time being exceedingly well spent by those present.

The pupils that are eligible to manual training show an ever-increasing interest in that important department of the curriculum. Supervisor Doxey in formulating his scheme requires of the pupil (1) to draw an object free hand; (2) to make the objects drawn according to directions given upon the blackboard; (3) draw the object to a scale. The first plate, upon which pupils have been working is now completed, and plate number two will now be begun. The first includes blocks from which penholders, rulers, etc., are made, the pupil sawing and preparing his own blocks. The purpose in making the blocks is to give pupils facility in the use of tools. The penholders are made for the sake of utility, and applying varnish and woodglue gives instruction in the use of varnish. The ruler teaches the use of a scale by drawing a scale.

Principal W. W. Barton of the Hamilton was a visitor at the Sumner on Tuesday. He presented to his last year's teachers a photograph of his little son.

Principal McKay of the Lowell gave the pupils in the fourth grade an instructive talk on lumber, on Thursday, in connection with a lesson upon that subject.

Supervisor Wetzel and teachers appreciated the kindness of Mr. E. B. C. in loaning a Mason and Hamilton organ for the use of teachers in the grade meetings.

The Lowell, Webster, Longfellow, Hamilton, Sumner and Ninth schools were visited by Mr. Wetzel the past week.

Very commendable work is being done in music in eighth grade at Ogilvie under the direction of Mr. Danyon. They are using Concone's sight reading exercises and the result is some very beautiful melodies.

The Hamilton girls' chorus and the Lowell Boys' chorus furnished the musical program at the teachers' meeting on Saturday morning. The efforts were greatly appreciated.

WEST SIDE HIGH SCHOOL.
Mrs. Jennings spoke interestingly to the Bryant High school on "Greek Art," Friday afternoon. She dwelt on the influence of art, the idealism in Greece, and results of the prevailing democracy among the Hellenic races.

Senior and junior classes were held Monday afternoon. The former chose for their president Will Davis; and the latter, Ralph Nelson.

Advanced Greek classes are taking up study of Scanning.
Mr. Ray reports having finished the study of the Roman republic, in his three classes of European history. The students will review the work of the past two months, next week.

Freshman English classes, under Miss Moffat have delivered speeches on "Myths of the Gods."

Royal Martineau and Erwin Trenam have received mention for their excellent work in algebra. Mr. Sorenson's class. The geometry classes take up quadrilaterals, and algebra classes, ards, the coming week.

Mrs. Prosser reports good examinations in her mathematical classes. Misses Maude Miller and Edith Rutland reached high figures in their examinations.

Monthly report cards will be given out next week.

L. D. S. UNIVERSITY.
Salt Lake City.—The monthly examinations in all classes were conducted last week.

The new building is rapidly nearing completion. The plastering is now being done in the east end of the building.

The classes in the shorthand department are in excellent condition. The enrollment up to date is larger than it has ever been before.

There are so many students in the type-writing department that the fifty machines are in use during every hour of the day. The speed class now writes forty words per minute from direct dictation.

At the Friday matinee, the Gold and Blue teams played a match game of basketball. The playing was excellent on both sides for amateurs. After a hard battle the Blue won. These teams represented the 12 o'clock physical culture class.

The third year English class is studying the Elizabethan period of literature. The students of this class have just finished reading the tragedy of Macbeth, and are now discussing the play from the standpoint of character. The class is highly interesting to both students and teachers.

Under the auspices of the university a Sunday school has been organized. It meets each Sunday morning at 10 o'clock in the Barratt hall. The attendance is rapidly increasing. Good courses of instruction are given in all theological subjects. Most of the Sunday school teachers belong to the university, with the exception of Drs. Talmage and Merrill.

At Monday morning's devotional Prof. Hinckley gave a warm and encouraging talk which was much appreciated. He advised the students to listen to their best friends, especially the faculty and the president, whose advice was never harmful and whose interest in the welfare of the students it is impossible to doubt.

The students met Wednesday to elect the president and other officers for the Students' society. After several of the nominations were put before the assembly to be voted upon, the contest stood between the Commercial nominee, Horace Clark, and the Normal nominee, M. M. Stockey. The contest was very earnest, but the anxiety of each party to elect was so great that neither succeeded, and a new election was ordered for next week.

On Tuesday morning at devotional President Paul read one of the letters to which he has made answers in recommending students for employment in business firms. The letter asked about the applicants' habits, of order, and persistency in school work and about their habits as to the use of strong drinks, the company they kept, and the way in which they performed their promises made at school. If any of these answers should indicate that the applicant had not been a steady, honorable, clean, and trustworthy student, then the fidelity company would not go on their bonds and the student could not obtain high-class employment.

BRIGHAM YOUNG COLLEGE.
Logan, Oct. 30.—Students are still entering the college, and the enrollment is rapidly increasing.

The most lively game in the sporting line at the college is probably basketball. A contest game last Friday between the Second and Third years demonstrated some very good talent, and a team is now selected, which is determined to win the laurels of championship by being the victors of any team in the state. Other sports, such as tennis, pole vault, racing, jumping, etc., are being urged.

Society work is beginning again for another year. On Wednesday afternoon the students met in the Assembly hall and re-elected officers for another term in the Philomathean Literary society. Joseph A. Godfrey, who last year was selected as president, and other well qualified officers were elected. It is the purpose of the students to make this society the principal one of the college, and one that will attract a great many friends from the public. The various classes have arranged for regular meetings at which literary and scientific subjects will be treated by the students. The Uniona society of young ladies and the Phi Polo society of young men are reorganized and at work. All these associations are conducted by men and are excellent opportunity is afforded them for becoming efficient in public speaking, as well as broadening their learning aside from text books.

The classes in French, German, Latin and Greek are very much larger than ever before.

The college is very fast becoming a center of music, as a great deal of work is being done here in the musical line.

mother's death. He left immediately for his home in Farmington.

The sub-freshman school and the grades had a lively game of baseball last Saturday, which resulted in a victory for the grades. The "subs" are not satisfied and have issued a challenge to their opponents for another contest, which will take place next Saturday.

Miss Sabrina Cropper, a 1904 student, and Mr. G. Reynolds of Springfield, were married in the Salt Lake Temple last week. Miss Cropper has been a loyal '94 ever since that class was organized, and the '04's especially, unite in wishing her a successful experience in married life.

The White and Blue of this week has in it a very pretty poem written recently by our absent teacher, Prof. G. H. Brigham. The piece is entitled "Farewell," and was written at his health resort at Ocean Park which he describes in a fresh and pleasing manner. A thrill of old-time enthusiasm went around the school as the students read the message from their beloved teacher and friend.
