

FRENCH TO DELAY THEIR EVACUATION

They Will Not Leave Pao Tung Fu Until Autumn.

TRANSFERRED TO CHINESE.

British and Japanese Sections of Peking Turned Over—Society of Allied Villagers Succeeds the Boxers.

London, July 3.—A dispatch from Peking says: The French propose to delay their evacuation of Pao Tung Fu until autumn. They believe that their presence there is necessary as the disorders which have been widespread, are increasing. The Society of Allied Villagers is replacing the Boxer organization. This society was ostensibly formed for local protection, but it is really insurrectionary as it resists the collection of the regular taxes because the villages suffered heavily last year and objects to the additional taxes for the expenses of the court's return and indemnity for the Catholic converts, who greatly outnumber the Protestants.

The people have some ground for complaint, it is said, but money being needed, the government must make demands and when they are resisted the Chinese troops must enforce the government's orders. If these troops fall the foreign troops must intervene. Hence there is good reason for the French remaining, as the converts are under their protection. Another reason is that the railway runs through the disturbed districts and must be protected. The Germans intend to evacuate Pao Tung Fu by July 5.

PEKIN PARTLY EVACUATED.

London, July 3.—The British and Japanese sections in Peking have been formally transferred to the Chinese, says a Peking dispatch to a news agency. There is delay on the part of the British, French and German in transferring their sections in the Tartar city. The Germans have transferred their section of the Chinese city, all of which is now under the jurisdiction of the Chinese. The British, French and German retain some supervision over the city and are responsible for the settlement of quarrels between foreigners.

A thousand new Japanese troops have arrived here and nearly four thousand more are coming to replace the force in the province of Chi Li. The Japanese, French and German commanders have consented to Gova Yuan Shih Kai troops coming within seven miles of the city. But the British, French and Japanese say that they will not evacuate until the troops of the other powers have.

Arrangements are being made for the return of the court. Orders have been given for the rebuilding of two of the large gates of the city. The cost of this work is estimated at 1,000,000 taels for each gate. The merchants in the ruined portion of the city are rebuilding, showing that they expect the court to return.

FOREIGN MINISTERS MEET.

Peking, July 3.—The meeting of the foreign ministers today was barren of result, only matters of minor importance being discussed, despite the efforts of two of the ministers to force consideration of the indemnity question so that a satisfactory reply might be given to China, accepting the offer of \$50,000,000 taels at 4 per cent interest.

MISSIONARIES MUST BE SPARED.
Sims, July 3.—Advices received here from the Sikkim border say that the edict signed by the emperor and empress dowager of China has been posted in Chinese Thibet announcing that the Europeans have been victorious in northern China, and ordering that the lives of missionaries and Christian converts be respected, on pain of decapitation.

PAY RESPECTS TO SALLES.

Admiral Crowell and Naval Officers Call Upon Him.

Rio de Janeiro, July 3.—Rear Admiral Crowell and officers of the United States cruisers Chicago and Atlanta called upon President Campos Salles and the minister of marine Monday. The governor of Rio de Janeiro will entertain U. S. Minister Bryan at a banquet on Thursday, in honor of July 4th.

CITY OF MEXICO EXCITED.

Hundreds of Students Make an Anti Clerical Demonstration.

Mexico City, Mex., July 2.—The public mind is much excited, and the clergy are filled with indignation over the results of the students' anti-clerical demonstration yesterday. The students, to the number of 300, held a public meeting near the statue of Columbus, on El Paso and Shive drive, where speeches were made, and the intense feeling of the young men and denouncing the recent immorality of the few priests, who, it was claimed, have been shielded and not punished. Part of the great crowd entered the church of Santo Domingo while the church was filled with worshippers, mostly women. Shouts were raised, "Death to the priests," "Down with the clergy," and the priests left the altar and sought refuge in the sacristy, with many of the worshippers. Women cried and shrieked, but the disturbance went no farther.

Another part of the crowd entered the church of Santa Clara, arriving during 12 o'clock mass. Windows were broken and images hurled down. The priests were dispersed and the students made speeches denouncing the clergy. There were heard shouts for Father Diaz, who is accused of many misdeeds. The women present were terrified, and the police made several arrests, but many of the prisoners were afterward released. The leaders among the students had counseled moderation and against making a disturbance, but the mob was apparently bent on showing its feeling toward the clergy.

RIOTING IN BUENOS AYRES.

Bill for Unification of Argentine Debt the Cause.

New York, July 3.—Rioting has occurred in Buenos Ayres, a Herald dispatch says, because of the bill for the unification of the Argentine debt. Several persons have been wounded. Navy students made a demonstration against the unification plan and Dr. Jose Terry, a former minister of the interior, in a lecture to show the disastrous results of the unification scheme, declared that the unification scheme might bring about the interference of the powers. At the close of the lecture, a mob had been in the audience, paraded the streets and made a hostile demonstration. They broke the

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in many ways, in hospital work, in private practice, among the help and poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Windows in the offices of La Tribuna and El Paris, newspapers which are supporting the bill. The police charged upon them and several were wounded. Congress will receive a memorial tomorrow signed by thousands of citizens, petitioning that the unification bill be not passed.

THE MAINE CLAIMS.

Spanish Organ in Havana Savagely Attacks America on Them.

Havana, July 3.—The Diario de la Marina, organ of the Spanish party, has its leading editorial on the question of claims growing out of the destruction of the battleship Maine.

The paper says the higher interests of justice have placed before the United States the hard alternative of admitting the legality of the claims and paying them, which would represent an enormous sacrifice, or of confessing before the whole world that the Americans were stupid and lying in accusing Spain and in provoking a war for which Spain was unprepared and as the result of which she lost all her colonies.

"Between the two extremes of shutting up and paying," says the paper, "or confessing that he has abused force we shall see which road Mr. McKinley will take."

There is a general movement now to hasten elections and install the new government.

THE COLONIAL MINISTERS.

Mr. Chamberlain Tells Them Colonists' Rights Have Not Been Interfered With.

Their Presence in London Acts Like a Tonic on the Jaded Salisbury Government.

New York, July 3.—The presence of a strong group of Canadian and colonial ministers and officials in London has acted like a tonic in invigorating the Jaded Salisbury government, says the Tribune's correspondent. Mr. Morley's inquiries respecting the fate of the free institutions of Cape Colony have been frankly met by Mr. Chamberlain, who has easily proved that the home government has not interfered with the right of colonists to govern themselves and that the constitution of the chief colony in South Africa has not yet been suspended, although warrants have been issued for the expenditure of money in the public service.

This constitutional question gave the Canadian ministers and the colonial guests much to talk about at the luncheon ordered for them at the Constitutional club. Ministers Blair, Fielding, Mills, Davies and Fisher were the most conspicuous figures present, but South Africa, Australia and other self-governing sections of the empire were represented. It was an informal conference over the present phases of imperial policy and the necessity for adopting measures for binding the empire together.

More Fighting in Manchuria.

Tien Tsin, July 2.—Fresh reports of fighting in Manchuria and on the frontier of Chi Li province have been received here. A pitched battle has been fought at Shen Yang, in which the natives defeated the Mohammedans.

REV. CAMPBELL MORGAN.

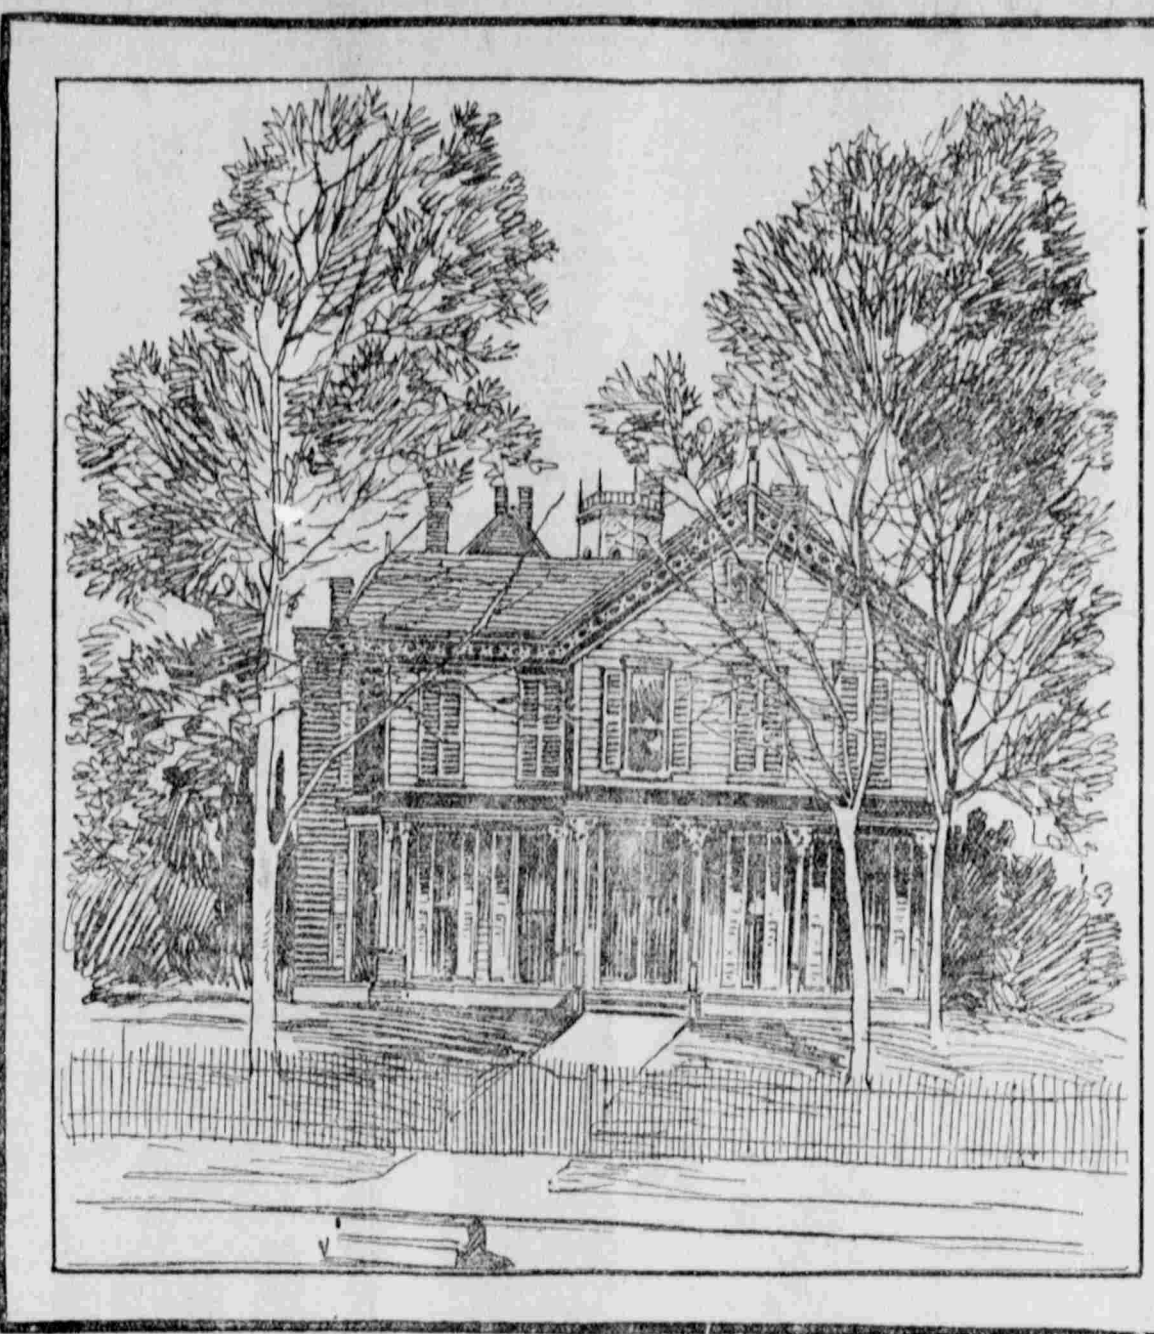

He Begins Meetings in Moody's Church in Chicago.

Chicago, July 3.—Rev. G. Campbell Morgan of London, Dwight L. Moody's successor at Northfield, Mass., arrived in this city last evening from the East, and began a series of meetings at Moody's church. Mr. Morgan was until two months ago the pastor of the New Court Congregational church of London. In April he resigned his pulpit in America the Northfield system of Bible study, founded by the man he had so admired and revered.

A STIMULANT.

And a Sorry Friend to Some Systems.

"Coffee acts as a stimulant to me. I can for a time accomplish considerable more work, but then I am dull, spiritless, nervous, weak and irritable. Coffee acts like a slow poison on my father, giving him inward pains and a feeling of being generally upset. Continued use always used to make him ill. "He used to be very fond of the beverage and was in the habit of drinking it two mornings, say, then skipping a few days and taking it two mornings again. If he took it the third morning, he was invariably sick. It is two years now since we had the first package of Postum. We have been using it ever since, to our very great benefit. A lady friend who is the wife of a prominent clergyman in New Haven (whose name I am not at liberty to give) was a complete nervous wreck from the use of coffee. About a year ago she began the use of Postum and continued in it. Six weeks after starting she had lost all her former nervousness, had grown plump in the face, and her health better than it had been for years. She is a splendid walking advertisement and is most enthusiastic in the praise of Postum, telling all of her callers of its merits and urging them to try it."—Kate Austen, Hamden, Conn.

PRESIDENT MCKINLEY'S HOME IN CANTON.

This week President McKinley begins his vacation. The removal of Mrs. McKinley from the White House to the pleasant home in Canton has at last been found practicable. The president's previous plans for the summer have all been abandoned, but if Mrs. McKinley's improvement continues some of them may be revived.

WE CAN IGNORE ALL CREATION.

America Independent of the World in Food Products.

SO SAYS SECRETARY WILSON

Any Effective Combination Against the United States Will be an Impossibility.

New York, July 3.—Secy. Wilson of the department of agriculture is quoted in a Washington dispatch to the Tribune as saying in an interview about the work his department is doing: "There is no doubt that this country within a few months will be in a position to ignore every other nation on the globe in the matter of food products. We will produce within our own domain everything that goes upon our tables and upon our backs. We will then be, commercially and industrially, almost independent of the other nations of the world. Hence any trade combination which may be effected against us will count for nothing. Whenever we get ready we can come pretty near starving any other nation. Therefore an effective combination against us will be an impossibility."

Mr. Wilson then went on to say that steps are being taken to begin the raising of hay in the Philippines, primarily for the horses and mules which the government has there. The department's experts are experimenting with coffee, and it is expected that something will be accomplished toward its cultivation during the fiscal year in our insular possessions. Rubber will be cultivated extensively, the secretary says, before long in Porto Rico, Hawaii and the Philippines.

SOFT COAL COMBINE.

All the Principal Properties Will Eventually be Consolidated.

New York, July 3.—The Tribune says: Independent dealers in soft coal say that the reported syndicate of operators with J. Pierpont Morgan at its head will eventually succeed in consolidating all the principal soft coal properties of the country. This concentration of the industry will be in sympathy with the community of interest idea will, dealers say, be a less simple operation than an amalgamation of the anthracite mining properties because soft coal is found more generally and in greater abundance. But a representative of J. Pierpont Morgan smiled wearily when asked about the reported leadership of his company in the soft coal combination. "It is always Morgan," he said, "Morgan would be at the head of everything if he would give ear to half we hear in the street."

Champaign, Ill., Flooded.

Chicago, July 3.—A special from Champaign, Ill., says: Champaign and Urbana were flooded last evening as the result of what is thought to have been a cloudburst. The deluge lasted two hours. The river which flows through both cities, overflowed its banks, inundating the big university green houses and threatening the home of President A. S. Draper and the campus. In the city of Champaign business men have lost thousands of dollars' worth of property by water. Telegraph and telephone wires are down and the street car service was stopped for hours. Lightning struck several houses.

TORNADO NEAR SING SING.

Trees Uprooted, Houses Unroofed and Windows Blown In.

New York, July 2.—A tornado struck the shore of the Hudson river near Sing Sing, N. Y., this afternoon, cutting a path two miles or more long, and several hundred feet wide. All along its course trees were uprooted, buildings unroofed and windows blown in. No houses were blown down as far as reported, neither were there any fatalities as far as can be learned. The tornado embraced, practically the whole village and the Sing Sing prison was in the very center of the storm's path. There was great excitement and much damage. Almost every window on the westerly side of the prison was blown in, and the rain and yellow mud scooped up by the wind, was

POLICING THE ISTHMIAN CANAL.

Question Must be Decided Before Commission Reports.

THIS POWER IS NECESSARY.

Colombian Government Hesitates to Grant It lest It Involve a Permanent Concession.

ARIZONA TOWNS BURNED.

Fire Destroys Fourteen Buildings in Globe, Making Ten Families Homeless.

Fire Also Swept Williams, a Railway and Lumbering Place on the Santa Fe.

Globe, Ariz., July 3.—Fourteen buildings were destroyed here yesterday by fire of an unknown origin and ten families of miners are homeless. Loss, \$80,000.

Early in the morning smoke was discovered issuing from an upper story window of the business block owned by J. J. Morrison & Sons and before the fire department arrived the flames were eating their way through the roof and licking down into the general store on the first floor, where several barrels of oil were stored. Knowledge of the explosives kept the fighters at a distance until the oil had ignited and it was considered safe to venture nearer the house.

Such headway had been gained, however, that the department and citizens who volunteered to aid, confined their efforts to the furniture and contents of the dwelling and other store buildings near by. A strong wind carried the flames leaping from house top to house top so rapidly that in a little more than a dozen buildings were burned and there was danger of the whole town going. Selecting a point on Main street, five houses away from the edge of the flames, a frame dwelling was blown in with dynamite and in this manner the town was saved from today's destruction.

TOWNS PRACTICALLY DESTROYED.

Los Angeles, Cal., July 3.—A special to the Times from Phoenix, Ariz., says: The towns of Globe and Williams, Ariz., were practically destroyed by fire yesterday. The losses cannot be specified but cannot fall much short of \$500,000 in Williams.

Williams is a railway and lumbering town on the Santa Fe Pacific railway and has a population of about 2,000. Its main street, facing the railway right of way, was remarkable for the possession of a number of frontier drinking saloons in a row, housed in rough frame fashion. The place and the great mill in its suburbs have been destroyed by fire twice before.

KILLED BY LIGHTNING.

One Man at Saginaw, Mich., and Three at Cahokia, Ill., Are Struck.

Latter Had Taken Refuge Under a Large Sycamore Tree—One House Destroyed.

Detroit, July 3.—Rain and thunderstorms in various parts of this state did considerable damage last evening. At Jackson a small cyclone demolished a couple of dwellings and uprooted trees. At Saginaw James Davenport was killed by lightning, and at Coldwater a small tornado overturned a dwelling and several barns. Similar reports of wind and rain come from other towns.

THREE INSTANTLY KILLED.

St. Louis, Mo., July 2.—A bolt of lightning instantly killed three men, fatally injured a boy, and seriously injured a man and a boy, members of a St. Louis fishing party who had sought refuge from the fierce storm of this afternoon beneath the shelter of

A CASE OF EXTRAVAGANCE.

YOU never cut off three-quarters of a new cake of soap and throw it away! Yet you pay twice the price of Ivory Soap for a cake of "tinted" toilet soap less than half as large. Your little cake of toilet soap costs you four times the price of Ivory, for it lasts only half as long and costs twice as much. No money can buy purer or better soap than Ivory. If it came in dainty paper, all scented and colored, you would pay fifteen cents for a very small cake of it.

a massive sycamore tree on the bank of Deak creek, at Cahokia, Ill.

DEAD.
William Ingelhauser, 42 years old, John J. Graft, 18 years, Louis Stern, 26 years.

FATALLY INJURED.
Benny Seglin, 13 years old.

SERIOUSLY INJURED.
Joseph Egglin, 24 years old, Albert Leidenger, 14 years old.

The men and boys gathered around a tall sycamore tree a hundred feet from where they had been fishing. Suddenly the tree was wrapped with a brilliant light. The crash which followed was heard for miles. When the citizens of Cahokia discovered the party they found three of them dead and had much difficulty in resuscitating the others. None of the bodies were badly marked, the lightning showing its effect principally on the feet of each member of the party. The point of contact was at the waist line of each individual, traversing the legs in each instance and escaping into the earth.

LIGHTNING FIRES A HOUSE.
New York, July 3.—Lightning which struck an uncompleted brick apart-

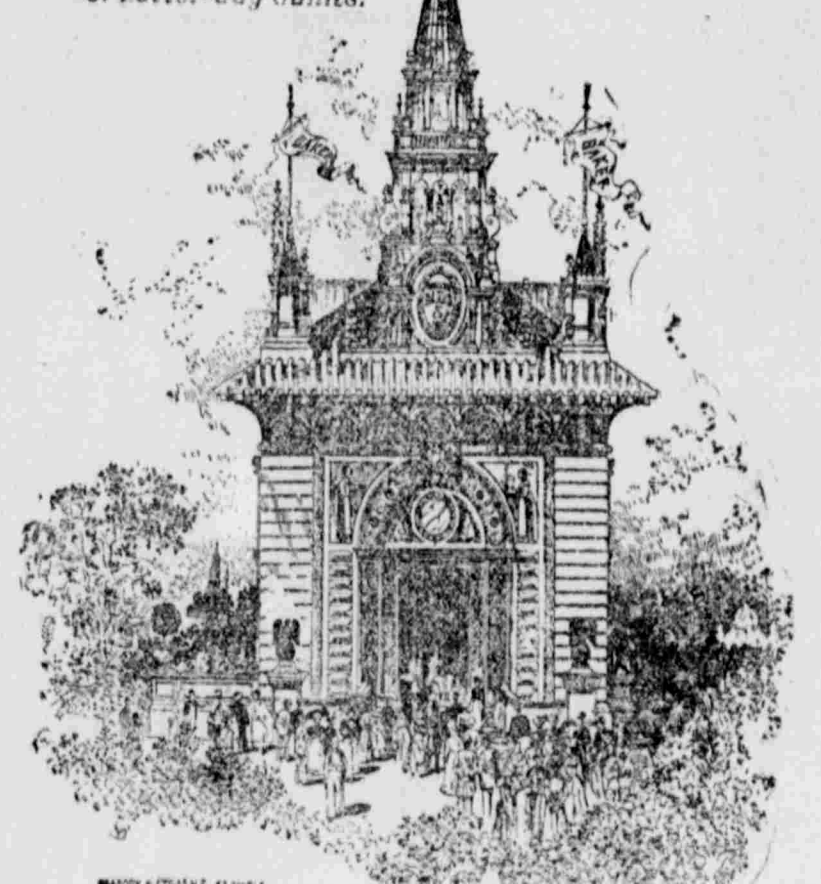

ment house on Fifteenth street near West End avenue this afternoon destroyed the house with an estimated loss of \$150,000. The high wind prevailing carried the sparks to residences in the vicinity, causing damage to the extent of several thousands of dollars. Among other buildings destroyed was the old Riverside Drive hotel, which forty years ago, was a resort of the elite of the city.

Boys Overcome by Foul Fumes.
Pittsburg, Pa., July 2.—Ten boys were overcome today by foul fumes in a tunnel leading to the old Keating mine, owned by the Pittsburg Coal company. A train which came upon them crushed two of them to death. The others were rescued and will recover.

DEAD.
Anthony Miller, aged 15, Patrick Gallagher, aged 14.

HERBINE clears the complexion, gives buoyancy to the mind, cures headache, regulates the stomach and bowels, stimulates the liver, and is, in fact, a perfect guardian of the health. Price 50 cents. Z. C. M. I.
