

SERIOUS CRISIS ARISES IN TURKEY

Large Section of the Army is In-
fected With Young Turk-
ish Sympathies.

REFORMS ARE DEMANDED

Constitutional Government and Op-
position to European Interference
in Macedonia Among Them.

London, July 22.—Details received here of the crisis which has arisen in Turkey through the infection of a large section of the army with Young Turkish sympathies are still somewhat obscure, but it is evident that the sultan has been driven to adopt strong measures to meet the difficult situation.

The present crisis appears to have been the result of general dissen-
sion. A body of the sultan's troops in the
Mondist district, discontented with
their regular pay, bad food and cloth-
ing, have fallen under the influence
of the Young Turkey propaganda and
mutined. The leading features of the
Young Turkey movement are a de-
mand for constitutional government
and opposition to any European inter-
ference in Macedonia on the ground
that it would mean the ultimate separa-
tion of Macedonia from the Ottoman
empire.

As it is admittedly hopeless to ex-
pect the sultan to grant parliamentary
rule, the Young Turkey demand is
really for the abdication of the sultan
to enable the inauguration of the con-
stitution.

Adherents of the Young Turkey
faction are scattered among all classes,
tradesmen and officials, and their
movement evidently is making great
headway, although at the present time
it lacks a strong leader.

During the past week numerous as-
sassinations of officers under suspicion
of being informers opposed to the
Young Turks have been reported from
Macedonia, while Greek outrages
against Bulgarians tend to strengthen
the reformist movement, because the
Bulgarians are likely to make com-
mon cause with the Young Turks.

SENECA INDIAN BOY CAUSES STIR IN NEW YORK

New York, July 23.—Said to be the
last full-blooded Indian boy ever
criminally in the courts of the city,
Colon Fox, 15 years old, a Seneca In-
dian, was before Justice Wyatt, in the
children's court yesterday. The boy
had been taken from his reservation
at Gowanda, New York, and was
picked up by the police while
wandering aimlessly about the streets.
Colon was educated in the reservation
school and is remarkably bright, be-
ing well informed in geography and
history and having a good command
of the English language. He said he
had been punished severely lately
and decided to leave the reservation.
A week ago he started for Buffalo
from there, and his way was on
freight trains, working as a farm
hand for his food and some spare
change. He had \$2.50 in his pockets
when he reached here Monday.
At the boy's request, Justice Wyatt
remanded him to the care of the
Children's society until communication
can be had with the Chief Chester Lay
of the Senecas and arrangements made
to send the young Indian back to his
reservation.

TORPEDOBOAT DESTROYERS.

Oil Burning Furnaces May Be In-
stalled in Ones to be Built.

Washington, July 22.—Significant
attaches to some inquiries which Rear
Admiral John K. Barton, chief engineer
of the navy, is about to investigate,
because on the result of his investiga-
tion may depend the installation of oil
burning furnaces in the 10 torpedo-
boat destroyers authorized at the last
session of Congress.

Rear Admiral Barton has been de-
tailed by the navy department to in-
spect the steam engineering plant of
the navy-yard at San Francisco and
the navy at Mare Island, Cal., the
trip beginning the last of this month.
He purposes to carefully examine the
oil burning system installed by the
Union Iron works of San Francisco
on vessels of the merchant marine of
the Pacific coast, in order to compare
it with the oil burners now in use in
the navy. The navy oil burners have
been experimented with at the New

far have yielded very gratifying re-
sults.

Whether oil burners will be placed
on the vessels to be built for the
navy will be determined to an extent
at least, by the result of Admiral Barton's
investigation, coupled with the
experiments being made at the At-
lantic yards.

BIG FIRE IN PORTLAND.

Portland, Or., July 22.—Fire which
broke out in the elevator shaft, gut-
ted the Abbington building, a six-
story brick store, and office building
lying on the east side of Third street
between Stark and Washington, short-
ly after midnight, and did damage
estimated at about \$300,000 in the
short space of the hour required to
extinguish it. The origin of the flames
is unknown.

G. B. BURHANS TESTIFIES AFTER FOUR YEARS.

G. B. Burhans of Carlisle Center, N.
Y., writes: "About four years ago I
was afflicted with a severe kidney
trouble by taking less than two
bottles of Foley's Kidney Cure. It
entirely stopped the brick-dust sediment,
and pain and symptoms of kidney dis-
ease disappeared. I am glad to say that
I have never had a return of any of
those symptoms during the four years.
I have been cured, and I am evidently
cured to stay cured, and heartily re-
commend Foley's Kidney Cure to any
one suffering from kidney or bladder
trouble. For sale by F. J. Hill Drug
Co., 'The Never Substitutors'."

MEXICAN REVOLUTIONISTS.

Their Application for Writ of Habeas
Corpus Will be Heard in October.

Los Angeles, July 23.—Attorneys
for Magan, Villareal and Rivera, the
Mexican revolutionists, have received
word from Washington that their ap-
plication for a writ of habeas corpus
will not be heard until the October
term of the United States supreme
court. The men must remain in the
county jail unless the supreme court
should allow the prisoners to give
bail.

THE REMEDY THAT DOES.

"Dr. King's New Discovery is the
remedy that does the healing others
promise but fail to perform," says Mrs.
E. R. Pierson of Auburn Centre, Pa.
It is curing me of throat and lung
trouble of long standing, that other
treatments relieved only temporarily.
New Discovery is doing me so much
good that I feel confident its continued
use for a reasonable length of time will
restore me to perfect health." This re-
nowned cough and cold remedy and
throat and lung healer is sold at Z. C.

BP. POTTER'S SUCCESSOR.

Rev. David H. Greer Becomes P.
E. Bishop of New York.

New York, July 22.—Right Rev. David
H. Greer, who was bishop coadjutor of
New York, until the death of Bishop
Henry C. Potter last night at Copper-
town, N. Y., now becomes bishop of
the Protestant Episcopal diocese of
New York. Bishop Greer will enter
immediately into the office of the bishop-
ric, no additional consecration being
necessary.

Bishop Greer is now away but will
return to New York at once.

"PAID IN FULL."

Suit Started to Recover Profits Not
Paid in Full.

New York, July 23.—A suit to re-
cover profits from "Paid in Full," now
playing at the Astor theater, has been
filed in the United States circuit court
by Florence Gerald Clark, the drama-
tist and writer.

Miss Clark, who is better known as
Florence Gerald, alleges in her com-
plaint that "Paid in Full" is an adap-
tation without her consent from "An
Idol of Clay," written by her in 1903,
and copyrighted in 1907. Besides de-
manding the profits from "Paid in
Full," the plaintiff asks for an in-
junction to prevent further production
of the play under any title whatever.
The defendants named in the com-
plaint are Eugene Walter, who wrote
"Paid in Full," and Lincoln A. Wagen-
hals and Colin Kemper, who are pro-
ducers and managers of the Astor
Theater, where "Paid in Full" has had
a run of nearly four months.

FIREWORKS IN POLITICS.

Chicago, July 22.—Fireworks figured
as political weapons in the Nineteenth
senatorial district last night to the dis-
comfort of Harry Wood, candidate for
the nomination for state representative.
A big "Bryan and Wood" banner, which
was hung across West Madison street
near California avenue, was bombarded
with Roman candles. Mr. Wood
accused other aspirants for the nomi-
nation of having caused the destruction
of his sign.

PRICE OF PLATINUM.

It is Reduced from Forty to Twenty
Dollars an Ounce.

New York, July 22.—Platinum which
sold at \$40 an ounce a year ago, has
taken a big decline and yesterday was
quoted at just half as much. The metal
is extensively used by jewelers as the
backing for diamonds in brooches and
other ornaments. Dentists and manu-
facturers of electrical and photographic
supplies also are largely consumers of
platinum.

The price of platinum doubled be-
tween 1905 and 1907, and is now back
to the 1903 price. It until it became
\$5 to \$10 an ounce 15 years ago.
Dealers in the precious metal at-
tribute the decline to the business de-
pression and consequent falling off in
demand.

Nearly all platinum comes from the
Ural mountains, and the government
of Russia keeps close control of the
mines.
Cheap imitations of the metal are ob-
tained in South American countries
also.

ROJESTVENSKY ENJOYED THE JOKE

When He Heard of His Death He
Said He Really Felt Better
Than He Did Before.

MASSSES FOR HIS SOUL SAID

Emperor William Directed Naval At-
tache at St. Petersburg to Commu-
nicate His Sorrow to the Czar.

Berlin, July 22.—In a dispatch from
St. Petersburg the correspondent of
Tagblatt says the erroneous report of
Admiral Rojestvensky's death at Bad
Nauheim, was widely telegraphed and
published in Russia. Masses for the
soul of the admiral were celebrated in
many churches and preparations were
made for other such ceremonies in
many more churches. Telegrams of
condolence poured in on the wife of
the admiral. Emperor William directed
the German naval attaché at St. Peter-
burg, Capt. Hintze, to commu-
nicate the sorrow of his majesty,
Admiral Nebogotoff and Gen. Stoessel,
both serving terms of imprisonment,
were permitted to attend the mass
celebrated at the cathedral.

Suddenly the admiral, who was on a
holiday at an interior village of Ger-
many, sent a telegram to the official
news agency of St. Petersburg convey-
ing his greetings and expressing the
hope that he would still live many a
year. He added that since he had
heard of his death he really felt better
than he did before.

SAN FRANCISCO HARBOR.

Engineer Will Recommend Expen-
diture of \$13,284.195 on the Work.

San Francisco, July 23.—A report pre-
pared by Col. W. H. Hays, U. S. A.,
and Luther Wagner, engineers en-
gaged in planning harbor improve-
ments for greater San Francisco, will
recommend the expenditure of \$13,
284.195 in this work.

The engineers also will recommend
the issuance of 75-year bonds.
The principal feature of the report is
the recommendation that Buena Vista
be purchased from the government
and graded to an even level of
10 feet above high water. This would
give 600 acres of ground for railroad
terminal facilities connecting with the
Alameda shore by a steel bridge bring-
ing the terminals within a mile and a
half of the city.

TRAMP STEAMER BATTLES WITH TEMPEST AND FIRE

San Francisco, July 22.—After bat-
tling three days with a tempest that
threatened to overcome her and send
her to the bottom and later experienc-
ing a fire in her bunkers that looked for
a time as though it would drive her
crew to the boats, the British tramp
steamer King George, coal-laden from
Baltimore, Md., made this port yester-
day much the worse for her terrible
voyage.

The vessel is the last of the fleet
bearing coal for the government and
carries 6,100 tons consigned to Mare
Island.
In the Straits of Magellan the ship
struck a gale that blew for three days
forcing her to lie to with her deck
under water and the man on the bridge
lashed to his post. Later fire broke out
and it took three days of heroic effort
for the crew to subdue the flames. The
King George left Baltimore May 8.

DEATH STOPS DIVORCE SUIT.

Chicago, July 22.—Death suddenly in-
terrupted a church divorce trial yes-
terday at the home of Rabbi Lazarus
Ankter.
Three rabbis, presiding as judges in

the case, were deliberating on the evi-
dence submitted by the parties to the
suit when Rabbi J. B. Hamburger of
the Tiferet Zion congregation was
stricken with heart disease. He died
in a few minutes.
The divorce case was that of Lewis
Flaxman and his wife, Celia.
It was announced that the trial of the
case would be indefinitely postponed.
Rabbi Hamburger was 48 years of age.
He came to Chicago from Russia five
years ago, and at once became active
in work among the Jews of the north-
west side.

SERIES OF MURDERS.

Panic and Heated Spell Largely Ac-
count for Them.

New York, July 22.—Dr. M. S. Greg-
ory, resident alienist of the psychopa-
thic ward of Bellevue hospital, does
not regard the record of "murders of
the last seven weeks as extraordinary.
The panic, with resulting want of
work and distress, in Dr. Gregory's
opinion, paved the way for conditions
that now exist. Timid persons have
fallen easier victims to their fears.
The excessive heat that brought the
climax and the results are found in
increased number of persons mentally
unbalanced and in a corresponding in-
crease in crime. But more to be blamed
than the panic or hot weather, in Dr.
Gregory's opinion, is the publication of
the details of the crimes.

The "Bellevue alienist" examined
every person who commits a crime in
New York under circumstances that
indicate insanity. From this broad
experience Dr. Gregory has reached the
conclusion that, while a publication
of crimes may have deterrent effect on
some it accomplishes more harm than
good for society in suggesting similar
crimes to others.

"I have found in almost every suc-
cessful attempt at suicide," said Dr.
Gregory yesterday "that the method,
at least, has been suggested by a news-
paper publication."

LIEUT. HAZZARD.

Leaves for Washington to Seek Re-
tirement for Hard Service.

San Francisco, July 22.—Lieut. J.
Hazzard, U. S. A., one of the party
which accompanied Gen. Funston on
his famous expedition which resulted
in the capture of Aguinaldo, the Phi-
lippo leader, will leave for Washington
today to appear before the retiring
board seeking to be relieved from duty.
The officer saw much hard service in
the islands and is broken in health and
spirits.

Hazzard is the man who captured the
deserter Arturo Howard, who is sup-
posed to have killed Gen. Lawton. For
this capture Gen. Chaffee recommended
that Hazzard be given the medal of
honor.

ICE COLD TEA.
Is delicious and healthful in this
hot weather. No drink is more
refreshing and invigorating, but
make it right—follow this recipe:
Brewing of tea requires fresh
water that has come to a furious
boil, steeping five to nine min-
utes, then pouring the liquid of
the tea leaves into another pot.
Follow this simple direction and
with the addition of a small slice
of lemon it makes a delicious,
appetizing and cooling drink fit
for the gods.
But poor tea would spoil this
drink.
Get good tea.

This woman says she was saved
from an operation by Lydia E.
Pinkham's Vegetable Compound.

Lena V. Henry, of Norristown, Ga.,
writes to Mrs. Pinkham:

"I suffered untold misery from fe-
male troubles. My doctor said an opera-
tion was the only chance I had, and I
dreaded it almost as much as death.
"One day I read how other women
had been cured by Lydia E. Pinkham's
Vegetable Compound, and I decided to
try it. Before I had taken the first
bottle I was better, and now I am en-
tirely cured."

Every woman suffering with any
female trouble should take Lydia E.
