

## BUTTRUSSING THE TRIPLE ALLIANCE

Chancellor von Buelow and Signor  
Tittoni Discuss it at Confer-  
ence at Rapallo.

### WERE ABSOLUTELY IN ACCORD

Head of German Foreign Office Not  
Opposed to Principle of a General  
Limitation of Armaments.

Rapallo, Italy, March 31.—Originally it was intended by Prince von Buelow, the German Imperial chancellor, and Signor Tittoni, the Italian minister of foreign affairs, that the slightest political importance should be attached to their meeting here today; but after the conference this morning it was decided to issue an official statement, which follows:

This morning there took place a long and amicable discussion between Prince von Buelow and Signor Tittoni. Although the conference was not brought about by political reasons, naturally the subjects of conversation were the political questions now occupying the international field.

The conversation demonstrated again the complete and full correspondence of the ideas of the two statesmen.

Although the strictest secrecy is maintained concerning the meeting of the diplomats, it seems that the chief discussion was concerning the efficiency and strength of the triple alliance, and that it was especially agreed that reciprocal relations between Austria and Italy should be strengthened, as the greatest danger to the triple alliance was a conflict between themselves, which the triple alliance wished to avoid.

It is expected the conference will end when Prince von Buelow and Signor Tittoni meet Baron Althoff, the Austro-Hungarian foreign minister.

It is asserted that the German chancellor is not opposed to the principle of a general limitation of armaments, but that he will reserve his actual adherence to it until a practical way for its application is found.

### A JEALOUS LOVER.

Roscoe James Kills His Sweetheart  
And Then Shoots Himself.

Portland, Or., March 31.—Rendered insanely jealous at the sight of his sweetheart in company with another man, Roscoe James, son of the superintendent of the Oregon penitentiary, late tonight shot and killed Miss Grace N. Disney on Sixth street between Main and Madison and then shot himself in the head. He will die. James and a companion were walking up the street when they suddenly saw Miss Disney and her escort. With only the words, "So, there you are?" as a warning, James pulled a revolver from his pocket and shot the girl. The bullet entered her back, severing the spinal column and passing through her heart. She gave a piercing scream and fell to the ground dead. With equal suddenness James then shot himself. Miss Disney's escort, according to James' companion, fled at the sight of the revolver. His identity is not known. Miss Disney's home is at Warren, Oregon.

### MOB LYNCHES A NEGRO.

Durant, T. T., March 31.—Jim Williams, colored, charged with attacking Little Mizener, white, near Colbert, I. T. Saturday afternoon, was lynched at Durant tonight by a mob of a thousand people. Williams was hanged to an old derrick and his body riddled with bullets. Deputy U. S. marshals and local officers pleaded with and threatened the mob, but to no avail. The girl identified Williams.

### MR. CLEVELAND GRATEFUL TO HIS COUNTRYMEN.

Princeton, N. J., March 31.—Former President Grover Cleveland has furnished the following to the newspapers and requested its publication:

"It seems to be impossible for me to acknowledge, except through the press of the country, the generosity and kindly consideration of my countrymen, which have been made manifest by congratulatory messages and newspaper comment on the occasion of my seventieth birthday. These have deeply touched me, and in the book of grateful recollections they are written where every remaining day of my life I can turn a page and read them."

### FATAL FIGHT WITH TRAMPS IN OREGON.

Portland, March 31.—A special to the Oregonian from Woodland, Wash., says that James Foster, said to have been from Cleveland, O., was shot and killed by Tom Baxter, of his own party, and that George Baxter, likely probably mortally wounded and Tom Baxter slightly hurt by shots from a posse. The three men are tramps who have been peddling cheap articles of jewelry. About

## HUSLER'S FLOUR!

But you can't do so well, if  
there is any desire to have the  
best Bread, cakes and pastries.

midnight Saturday a shot was heard in the neighborhood of the depot and the town marshal with a posse went thither to investigate. Foster's dead body was found near a freight car and after a search the Baxters were found hiding inside the car. The posse crawled under the car to await developments, and a moment later the Baxters jumped from the car and ran. Shots were fired at the fugitives, one bullet striking the younger one in the back and another inflicting a flesh wound in the leg of the father. The young man fell, and the older one retreated to the car. The sheriff at Kalama was notified and arrived within a short time. Emboldened by the reinforcements the posse boarded the older fugitive in the car and he submitted to arrest without resistance.

A coroner's jury formally charged the Baxters with murder. Tom Baxter admits the shooting but tells conflicting stories. At one time he gave the officials the name of the dead man and later he said Foster was unknown to the Baxters, that they thought him a robber and shot him in self-defense. Baxter's statement that Foster was not known to them was controverted by the sheriff, who testified that he had seen the three together at Kalama and had run them out of town.

### HAD RELIGIOUS MANIA.

Brother and Sisters Made Funeral Pyre,  
Laid Down on It and Set it on Fire.

Paris, March 31.—A brother and two sisters who suffered from religious mania committed suicide in a terrible manner near the Spanish frontier. All three tried to starve themselves to death, believing that they would thus ensure happiness hereafter. But as death did not come fast enough they set a funeral pyre by breaking up their furniture, drenched it with oil, laid down together and set it on fire.

When the neighbors extinguished the fire the younger girl was still alive, but unable to relate the story before she died.

### BRAZIL MISTREATS RUSSIANS.

Riga, Russia, March 31.—The governor-general of the Baltic provinces, Lieut. Gen. Meisler-Sakimovsky, has received from Russian colonists in Brazil a letter complaining of the difficult position of the colonists and the unfair treatment of them by Brazilians and asking him to prohibit immigration to the South American republic. Riga is the starting point of a large stream of emigrants to Brazil.

### QUEEN CHRISTINA ILL.

Mother of King Alfonso Has Severe  
Attack of the Grip.

Madrid, April 1.—Queen Christina, mother of King Alfonso, is suffering from a serious attack of grippe. Her temperature has reached a maximum of 104 degrees, and she is unable to get up. She is unable to make any predictions as to the probable outcome of the patient's condition. She has received the last sacraments.

Queen Christina was preparing to go to Cartagena with King Alfonso to meet King Edward VII, who was expected. Owing to the interesting condition of her daughter-in-law, Queen Victoria, the illness of Queen Christina at this time is regarded as particularly unfortunate.

### EXPOSURE.

To cold draughts of air, to keen and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the throat and neck after public speaking and singing, brings on colds. Ballard's Horehound Syrup is the best cure. Mrs. A. Barr, Houston, Tex., writes, Jan. 31, 1907: "One bottle of Ballard's Horehound Syrup cured me of a very bad cold. It is very pleasant to take. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street."

Season tickets for Music Festival not on sale after Sat. 50th.

MARTIN COAL CO.

### TO DETERMINE EFFECT OF SALT PETER ON THE HEALTH

Chicago, April 1.—A dispatch to the Record-Herald from Urbana, Ill., says: "It is the plan of the commission to make the most elaborate tests ever made in the country to determine the effect of the salt peter contents of cured meat upon the health," said President James of the University of Illinois, yesterday, in discussing the work of the national food commission. "The work," he added, "is undertaken at the solicitation of the packers themselves, who have long wanted to know whether or not salt peter when consumed in small quantities is injurious. "The investigation will be carried on at the University of Illinois under the direct supervision of Prof. Gridley of the university. A squad of 20 men will be housed at a club near Urbana, the favorite resort to game fowling. Half of the men will be fed meats cured in the ordinary way and the others on exactly the same diet, except that the meats will not contain any salt peter. A doctor will examine the men daily,

and their weight and physical condition will be carefully noted. The investigations will extend over six months and the results will be accurate in every particular.

"The men composing the commission are the most noted in the country. They will direct the work and their presence on the commission insures that the results achieved will be final. The work is of great importance. Owing to the immense amount of cured meats consumed in the country, it is imperative that the people know of the injurious or non-injurious use of salt peter."

As soon as the salt peter investigation is finished other work of the commission with nutritive problems will be undertaken.

### REQUIEM MASS FOR DR. JELLOS.

St. Petersburg, March 31.—A requiem mass was celebrated today in the main synagogue for Dr. Jellos, editor of the Kinski Yedoveno, who was assassinated by a youth of Moscow, March 27. Many thousands of persons attended, among them being the most prominent leaders of all of the political parties, nearly 100 members and ex-members of parliament and Princes Peter and Paul Dolgoroukoff.

### FOREST SERVICE.

Can Charges for Right of Way Across  
Reserves be Made?

Washington, March 31.—The forest service has submitted to the attorney-general the question of the legality of the practice of charging commercial companies for the right of conducting water through the reserves for the development of power and other purposes as to one of them to contribute to the expense of maintaining the reserve. The service has heretofore exacted payment for pipe-lines taking water from the streams in the reserves, but the right to do so has been questioned, and it is now the purpose to secure the attorney-general's view on the subject. The forestry administration takes the position that the companies should pay something for the service they receive, through the conservation of the waters of the streams on which they rely, and they find their only opportunity in the charge for the right of way. Practically all the water by the pipe-lines conveyed through pipe-lines for the production of electricity, and the demand is constantly increasing.

### AMERICAN ASSOCIATION OF MUSEUMS CONVENTION.

Pittsburg, March 31.—Following the dedication of the Carnegie institute this month the second convention of the American Association of Museums will be held at the Carnegie museum. William J. Hoar, director of the Carnegie museum and the founder and second vice president of the national association, is already making preparations for the gathering, which will comprise the heads of museums of world-wide fame in this country.

The object of the association is to promote the welfare of museums, to increase and diffuse knowledge of all matters relating to them and encourage helpful relations among the museums and those interested in them. It is proposed to ally the organization with the National Educational association, which matter is now under consideration by the council.

The council is considering a proposal that a special committee of three be appointed by the chair to consult with the proper authorities of the four class postal rates upon the publications of museums and other educational institutions in cases in which such publications are distributed gratuitously but cannot be issued at stated intervals of time. All these matters will be reported on by the council at the Pittsburg meeting.

### CLEVER CLIQUE OF WIRE TAPPERS ARRESTED.

Cleveland, O., March 31.—In the arrest here today of three men and a woman giving the names of Edward Weiss and Max Morris, of New York, and Charles Ducker, and Claudia Carlson, of this city, the police believe they have caught a clique of clever wire-tappers wanted in several cities. The arrests were made following an alleged attempt to swindle J. D. Marks, a wealthy iron dealer here, out of \$5,000. A draft for that amount, signed by Marks, was about to be turned over to Weiss, when two policemen, secreted near the transaction, were in progress, arrested Weiss and Morris. The others were taken in later as accomplices. Marks told the police that Weiss told him that he was in a position to procure wire taps secretly in New York, on the strength of which Marks was promised a large amount of money. They had planned to go to New York Monday, Marks says. "Today he mistreated the plan and sent for a policeman. A meeting at Marks' office was arranged for and the arrests ensued. Ducker, Weiss, Morris and Miss Carlson are held on suspicion."

### EXECUTE EX-POLICEMAN.

Kursk, Russia, March 31.—Druzzanikoff, an ex-policeman, sentenced Feb. 21 to a year's imprisonment for torturing peasants during a punitive expedition in the country to determine the effect of the salt peter contents of cured meat upon the health," said President James of the University of Illinois, yesterday, in discussing the work of the national food commission. "The work," he added, "is undertaken at the solicitation of the packers themselves, who have long wanted to know whether or not salt peter when consumed in small quantities is injurious. "The investigation will be carried on at the University of Illinois under the direct supervision of Prof. Gridley of the university. A squad of 20 men will be housed at a club near Urbana, the favorite resort to game fowling. Half of the men will be fed meats cured in the ordinary way and the others on exactly the same diet, except that the meats will not contain any salt peter. A doctor will examine the men daily,

### PLANS FOR SPREADING SOCIALISTIC DOCTRINES.

Milwaukee, March 31.—Victor L. Berger, the Socialist leader, tonight announced the plans of the national executive board, of which he is a member, for spreading Socialism into 25 states of the Union where interest is now lukewarm.

Mr. Berger, who is one of the most thoughtful students in the party, makes the statement that President Roosevelt had stolen many of his ideas from the Socialists.

"All this recent agitation and unrest," said Mr. Berger, "and the showing up of how corporations are running things is making us realize the need of Socialism. We are going to win our membership."

"The people are awakening. They are becoming more and more beginning to understand social conditions better. Why, look at President Roosevelt. His agitations and exposures are helping us immensely. He is paving the way for Socialism. While he is not of our faith, he shows up the corporations he makes votes for us. The more he agitates the people, the more we are helping them. We know what we are talking about. Why, he has even stolen some of our ideas."

"The entire country has been divided into three classes of states as follows: "Class 1—New Jersey, Illinois, Wisconsin and California. "Class 2—Arkansas, Colorado, Connecticut, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, Texas, Vermont, Washington and West Virginia. "Class 3—Alabama, Arizona, Delaware, Florida, Georgia, Louisiana, Mississippi, Nebraska, North Dakota, South Dakota, Nevada, New Mexico, North Carolina, South Carolina, Utah, Tennessee and Wyoming."

The scheme of the Socialists is believed to be the preliminary campaign which they are making for the presidency.

### HENRY W. GOODE DEAD.

Portland, Or., March 31.—News was received here today from Atlantic City, N. J., of the death of Henry W. Goode, president of the Portland Railway, Light & Power company. Mr. Goode was seriously ill but four days ago left Portland for 30 days ago on a business trip to New York and Philadelphia. A few days ago a letter mentioned his having experienced an attack of the grip, but it gave

## MUNYON'S SUCCESS

In Curing Old, Chronic  
Cases of  
**RHEUMATISM**

Patients Given Up As  
Incurable

Speedily Restored to Health  
by

MUNYON'S 3 X RHEUMATISM REMEDY.

I want every rheumatic to throw away all medicines, all liniments, all plasters, and try MUNYON'S 3 X RHEUMATISM CURE. No matter what your doctor may say, no matter what your friends may say, no matter how bigoted or prejudiced you may be against all advertised remedies, go at once to your druggist and get a bottle of the 3 X RHEUMATISM CURE. Price \$1.00. (He will get it for you if he has none in stock.) There are 160 doses in a bottle, and as one lady says: "Every tablet is worth more than a diamond of the same size." A few doses will take away all aches and pains, and a cure generally effected before one bottle is used.

Remember, this remedy contains no salicylic acid, no opium, cocaine, morphine or other harmful drugs. It is Pure Food and Drug Act, but my guarantee I consider the best. Try the remedy, and if you are not satisfied, bring the money back to me and I will refund your money.

No room for doubting, no room for skepticism, no excuse whatever. It should not get well of Rheumatism.

If you have any other ailment, remember that we put up a separate remedy for each disease. We have no "cure-alls." Our Cold Cure cures the cold. Our Cough Cure is worth more than all the emulsions, all the oils, all the balsams and cough cures that have ever been made. You can prove this statement by the investment of 25 cents.

My Kidney Cure, I believe, has saved more lives and cured more chronic cases of bladder and kidney ailments than any known remedy. Money back whenever it fails.

My Dyspepsia and Stomach Remedy enables one to eat a good, square meal and digest it.

My Constipation Ointment gives a natural movement in from two to three minutes, and is rapidly taking the place of all cathartics and weakening nostrums.

My Headache Cure stops all headaches from 3 to 10 minutes, and is a good heart and stomach tonic.

All persons suffering with Piles I most earnestly ask to try my Pile Ointment. It stops all itching and pain instantly. Money back if it fails to cure and cure quickly.

Munyon's Balmizer gives vigor and strength to old men and restores lost powers. If you need medical advice, address Munyon's, 53rd and Jefferson streets, Philadelphia, Pa.

the impression that he was fully recovered. Yesterday a dispatch came saying that he was critically ill. Mr. Goode has long been prominent in the business affairs of Portland by reason of his position as the president of a large electrical company which, within the last year, under the name of the Portland Railway, Light & Power company, all the electrical traction companies in and about Portland were absorbed. His name received national mention from the time he succeeded Hon. Harvey W. Scott to the presidency of the Lewis and Clark Exposition company in 1904, until the conclusion of the fair in the fall of 1906. During this time he became well acquainted with the prominent men of the country who visited Portland, many of whom he entertained at his home. Mr. Goode had barely reached the prime of life.

### ARGENTINE GRAIN STATISTICS.

Buenos Ayres, April 1.—Statistics compiled by the ministry of agriculture give the total value of wheat, maize and linseed exports in 1906 as \$150,000,000 as against \$141,000,000 in 1905. Wheat exports in 1906 amounted to 3,257,718 tons; maize, 32,500,276; linseed, 322,333, and flour, 121,161.

## MOTHERHOOD

The first requisite of a good  
mother is good health, and the ex-  
perience of maternity should not be  
approached without careful physical  
preparation, as a woman who is in  
good physical condition transmits to  
her children the blessings of a good  
constitution.

Preparation for healthy mater-  
nity is accomplished by Lydia E.  
Pinkham's Vegetable Compound,  
which is made from native roots and  
herbs, more successfully than by any  
other medicine because it gives tone  
and strength to the entire female  
organism, curing displacements, al-  
teration and inflammation, and the  
result is less suffering and more children healthy at birth. For more  
than thirty years

Lydia E. Pinkham's Vegetable Compound  
has been the standby of American mothers in preparing for childbirth.

Note what Mrs. James Chester of 427 W. 35th St., New York says in this  
letter:—Dear Mrs. Pinkham:—I wish every expectant mother knew about  
Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned  
of its great value at this trying period of a woman's life urged me to try  
it and I did so, and I cannot say enough in regard to the good it did me.  
I recovered quickly and am in the best of health now."

Lydia E. Pinkham's Vegetable Compound is certainly a successful  
remedy for the peculiar weaknesses and ailments of women.

It has cured almost every form of Female Complaints, Dizziness, Sensa-  
tions, Weak Back, Falling and Displacements, Inflammation, Ulcera-  
tions and Organic Diseases of Women and is invaluable in preparing for  
Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women  
Women suffering from any form of female weakness are invited to  
write Mrs. Pinkham, at Lynn, Mass. Her advice is free.
