IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the last two years the road bed has been put in admirable condition, and almost the entire line has been relaid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East ern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb. or to W. H. Stennett, General Passenger Agent, Chicago. d54

THE ALLEGED DEFALCATIONS IN THE UNITED STATES MARSHAL'S ACCOUNTS.

Text of the Report of the Grand Jury.

Yesterday we published the substance and purport of the report of the grand jury of the Second District Court, relative to the embarrassing state in which they allege they found the accounts of U. S. Marshal Maxwell. Herewith we give the text of the jury report, as it appears in the *Herald* of this morning—

BEAVER, 13.—Following is the text of the report of the grand jury, who have been investigating the accounts of the United States Marshal:

To His Honor Jacob S. Boreman, Judge of the Second District Court in and for the Territory of Utah:

We, the grand jury, empanelled for the December term of the Second District court, in pursuance to your honor's instructions to investigate and inquire into all matters pertaining to the books, documents and official records of public officers, after a thorough examination of the United States Marshal's books and duplicates of accounts rendered, and now on file in the clerk's office of the Second District court, respectfully submit, as the result of our labors, the following statement and report:

We find the United States credited by a draft on the United States Treasurer, dated July 8th, 1875, $13,200.00, by an act of Congress approved March 3d, 1875. The above sum or draft was drawn for the purpose of defraying the Territorial expenses in the Second District Court of this Territory. We find the following accounts current rendered by the United States marshal for the July term, 1875:

To compensation for petit jurors, $736.

To compensation of witnesses, $2,192.10.

To compensation of marshal, $2,536.76.

To expenses of supply to prisoners, $1,929.26.

To audited expenses of court, $943.85.

To marshal's commission on disbursements exclusive of abstract No. 4, $118.02.

Total, $8,556.18.

The account current for the September term of the court presents the following total of charges, $1,514.87. The figures show that there is still a balance due to the United States, by taking these accounts on their face, of $5,120.45. We have examined witnesses and jurors whose names appear on the jury rolls for the July and September terms of the court, and so far as our examination goes we find that none of them, witnesses or jurors, coming before us, have received any pay or compensation whatever for services rendered, and attendance on the said court during the July and September court terms, for their time and services so rendered on the part of the Territory, and for territorial business.

We have also examined officers of the court and guards to prisoners, and they also testify that they have received no pay or compensation for such territorial business, although we find the vouchers show receipts in full for such pay to the United States Marshal. The means and time are not at our command to further examine witnesses and jurors in relation to the compensation of any they have received from the United States Marshal, but from the uniform and corroborating testimony of those who were brought before us in person, we seriously infer that others who have not been examined would report a like state of facts in their respective cases, and if such be the case we are forced to the conclusion that very little of the $13,200 appropriated to the Second District Court, by the act of Congress, approved March 3rd, 1875, has been used and expended for the purpose for which it was given.

We find in our examination of the books of Deputy Marshal Stokes that they are regular and correct, showing the records of all sums paid to him, and disbursements of the same. We will pursue our investigations and examinations of the accounts and documents of public officers more diligently at some other time, but at this sitting we are necessitated to stop with this report.

We would further ask leave to speak of the impossibility of running and upholding the dignity of the court so long as the deplorable state of things continues, of all and every one complaining that they can get no pay or compensation for their time and services in attending on this court. The Second District is about flooded with worthless certificates in the hands of jurors, witnesses and officers, on which they cannot get a cent. Such a state of affairs is very much to be deprecated, and should be checked at the very earliest season. If it continues we must apprehend that it will be impossible for our court to run; that crime and criminals will go unwhipped of justice, and the dignity of the law remain and continue unvindicated.

We, the undersigned, members of the grand jury for the December term, 1875, of the Second District Court, recommend that the above report be published in the Salt Lake *Tribune* and Beaver *Enterprise*.

CONGRESSIONAL.

SENATE.

Petitions Presented, &c.

WASHINGTON, 14.—The President *pro tem* laid before the Senate the annual report of the Attorney General of the U. S.; ordered printed and referred to the judiciary committee.

A large number of petitions for the appointment of a commission to inquire into the traffic in alcoholic liquors were presented by several senators, all of which were referred to the committee on finance.

Edmunds, from the judiciary committee, reported the Senate bill to extend the duration of the court of commissioners of the "Alabama" Claims, with several verbal amendments. He said it was desirable to have this bill passed by both houses of Congress before the holiday recess. It merely provided for continuing the court six months, and did not touch the disputed questions connected with that court; the bill was passed.

Allison introduced a bill to transfer the Indian trust funds to the Treasury of the United States; referred to the committee on Indian affairs.

The Chair laid before the Senate a communication from the Secretary of War, transmitting the report of Major C. B. Comstock, on the improvement of the South Pass of the Missisippi river, and the character of the work done; laid on the table and ordered printed.

The unfinished business being the resolution submitted by Davis yesterday, in regard to the unsettled accounts of the government officers and defalcations, was called up, the pending question being on the motion of Sherman to refer the resolution to the committee on finance, and it was agreed to, yeas 35, nays 25.

Edmunds inquired whether the credentials of McMillan came to the senate from the Governor of Louisiana. After a long discussion, by a vote of yeas 30, nays 28, the Senate agreed to the motion of West to allow McMillan to withdraw them, the only republican voting with the democrats against it was Dawes.

HOUSE.

Bill for Constitutional Amendment, Etc.

The Speaker called the States for bills and resolutions, under which call, bills, etc., were introduced and referred, as follows: One by Blaine, proposing to amend the Constitution, providing that no state shall make any law respecting an establishment of religion or prohibiting the free exercise thereof, and that no money raised by taxation in any state for the support of public schools, or derived from any public fund thereof, or any public lands devoted thereto, shall ever be under the control of any religious sect, and that no money or lands so donated shall be divided among religious sects or denominations. One by Davis, of North Carolina, to repeal the law forbidding payment on account of claims and demands of Southern citizens, for quartermasters' stores, etc., and appropriating $500,000 for the same; one by Whitehorn to modify the tax on tobacco; one by Landers relative to the repeal of the resumption act of the 14th of January, 1875; one by Baker, relating to the mileage of members of Congress.

Bills and Resolutions Introduced.

Fort offerred the following resolution, and demand the previous question on its adoption:

"Resolved by the House of Representatives, that in all subordinate appointments, under any of the officers of this House, it is the judgment of the House that wounded soldiers, who are not disabled from the performance of duty, should be preferred."

The standing vote on seconding the previous question showed 87 republicans voting in favor and pointment of officers under this government."

Hale, of Maine, inquired whether Cox's resolution was offered as a substitute for Fort's.

The Speaker replied that he understood it to be offered as an amendment.

Stackweather made objection, that as New York had been already called, the gentleman, Cox, could not put in a resolution.

The Speaker ruled that it was too late to make the objection.

Fort said he had tried to make an objection as soon as the resolution was offered.

Hale inquired whether the House had acted on the amendment.

Speaker—"It has not, that would be acting on the subject matter of the resolution now, which is not the purpose of the gentleman from New York; his purpose is to refer both resolutions to a committee."

Cox—"The original resolution was an *ad captandum* affair; my resolution was in the nature of an amnesty." (Laughter.)

Hagan made a point of order, that neither the original resolution nor the amendment was in order; neither of them proposed anything which the House was authorized or required by law to do.

The Speaker overruled the point of order, stating that if it was ever tenable it came to late.

The call of the states was resumed, and bills were introduced and referred as follows:

One by Harrison, To amend the constitution, by fixing one term for the President, and making him ineligible for future election, but making him a senator for life from the U. S. at large at the expiration of his office as President.

One by Morrison, to amend the constitution by fixing the Presidential term at six years, and making the President ineligible in any term of twelve years.

One by Randall, proposing an amendment to the constitution, providing that after the next Presidential election the President of the U. S. shall hold his office for six years, and that neither the President nor Vice President, when the office of President devolves upon him, shall be eligible to re election.

Spilger offered a resolution directing the committee of military affairs to inquire into the expediency of reducing the regular army to ten thousand men, or to such number as will insure an efficient public service at an expense not exceeding twenty million dollars yearly. Adopted.

The vote was taken by tellers, with the following result—ayes 99, nays 126, so the previous question was not seconded.

Cox offered the following as an amendment to the resolution, and moved that both be referred to a committee, and demanded the previous question.

THE WEEKLY SUN,

1776. NEW YORK. 1876

Eighteen hundred and seventy-six is the Centennial year. It is also the year in which an Opposition House of Representatives, the first since the war, will be in power at Washington; and the year of the twenty-third election of a President of the United States. All of these events are sure to be of great interest and importance, especially the two latter; and all of them and everything connected with them will be fully and freshly reported and expounded in THE SUN.

The Opposition House of Representatives, taking up the line of inquiry opened years ago by THE SUN, will sternly and diligently investigate the corruptions and mistakes of GRANT'S administration; and will, it is to be hoped, lay the foundation for a new and better period in our national history. Of all this THE SUN will contain complete and accurate accounts, furnishing its readers with early and trustworthy information upon these absorbing topics.

The twenty-third Presidential election, with the precautions for it, will be memorable as deciding upon GRANT'S aspirations for a third term of power and plunder, and still more as deciding who shall be the candidate of the party of Reform, and as electing that candidate. Concerning all these subjects, those who read THE SUN will have the constant means of being thoroughly well informed.

The WEEKLY SUN, which has attained a circulation of over eighty thousand copies, already has its readers in every State and Territory, and we trust that the year 1876 will see their numbers doubled. It will continue to be a thorough newspaper. All the general news of the day will be found in it, condensed when unimportant, at full length when of more moment; and always, we trust, treated in a clear, interesting and instructive manner.

It is our aim to make the WEEKLY SUN the best family newspaper in the world, and we shall continue to give in its columns a large amount of miscellaneous reading, such as stories, tales, poems, scientific intelligence and agricultural information, for which we are not able to make room in our daily edition. The agricultural department especially is one of its prominent features. The fashions are also regularly reported in its columns; and so are the markets of every kind.

The WEEKLY SUN, eight pages with fifty-six broad columns, is only $1.20 a year, postage prepaid. At this price barely repays the cost of the paper, no discount can be made from this rate to clubs, agents, Postmasters, or anyone.

The DAILY SUN, a large four page newspaper of twenty-eight columns, gives all the news for two cents a copy. Subscription, postage prepaid, 65c. a month or $7.70 a year. SUNDAY edition extra, $1.10 per year. We have no traveling agents.
