SIMMONS LIVER REGULATOR
MANUFACTURED BY
J. H. ZEILIN & CO., PHILADELPHIA, PA.

I was afflicted for several years with disordered liver, which resulted in a severe attack of jaundice. I had as good medical attendance as our section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; whereupon I was induced to try Simmons Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.

SAVED HIS LEG!
SCROFULA
OF THE
BONE CURED!

LITHONIA, Ga., August 11, 1887.
THE SWIFT SPECIFIC CO., Atlanta, Ga.:
Gentlemen—I have been afflicted with ulceration of the legs ever since I was a child, the disease undoubtedly being hereditary, as my mother suffered from scrofulous symptoms. As I advanced to manhood my affliction increased until the malady became harrowing and painful beyond the power of words to describe. My right leg particularly became fearfully involved, the left leg being less painfully affected. Finally, about fourteen years ago, the ulcers on my right leg had eaten through the flesh into the bone. In order to save my life the doctors determined to amputate my leg below the knee. The operation was successfully performed by Dr. H. V. M. Miller, of Atlanta, and Dr. W. P. Bond, of Lithonia. But the loss of my leg gave me only temporary relief. The poison was still in my system and soon began to show itself again. In a short time after large ulcers appeared on my left leg, covering it from the knee to the instep. Frequently while at work I could be tracked by the blood which oozed from the huge ulcers, and the sores and rottening holes were so offensive that my fellow-workmen could not stand the stench and would move away from me.
Last winter I was persuaded to try S. S. S. As a last resort I commenced to use it, and about seven months ago I began taking the Specific. I soon began to feel the good effects of the medicine, the offensive running began to grow less and less and finally ceased, the ulcers healed, my flesh became firm and solid, and to day, after using twenty one bottles, I am as hale and stout a man of my age as there is in Georgia. I am seventy one years old, but feel now younger and stronger than I did when I was twenty-five. I weigh about 130 pounds. Nothing is to be seen of the terrible disease, or to remind me of the torture I suffered for so many years, except the scars of the perfectly healed ulcers.
I want the world to know of the almost miraculous cure effected on me by S. S. S., and I call upon those who wish to know the particulars directly from me to write, and I will consider it a pleasure as well as a duty to answer their letters. I refer to Dr. W. P. Bond, of Lithonia, as to the truth of my statement. Very gratefully yours,
B. DRAKE.

Fires in Various Places.

FALMOUTH, Mass., April 13.—A disastrous forest fire started this noon. It is burning very fast with a strong wind, and the village of Teaticket is in great danger. At 1 p.m. the fire was not yet under control.

NEW YORK, April 13.—At 1 o'clock this afternoon while two longshoremen were employed in unloading jute from the ship *Glen Quin*, lying at the foot of Harrison Street, Brooklyn, the ship suddenly took fire and also ignited the pier. The fire gained considerable headway before the firemen arrived, but at 2:45 o'clock the fire was under control. The origin of the fire is unknown, nor can it be learned who is the owner of the vessel. The damage to the pier and contents is estimated at $100,000. Three firemen were slightly injured.

BOSTON, April 13.—At a fire in 155 and 159 High Street this morning, an explosion of gas occurred, burning three firemen probably fatally, and three others seriously.

Lowell on Independents.

NEW YORK, April 13.—A large and distinguished gathering was present in Steinway Hall tonight to hear an address by James Russell Lowell on "The Independent in Politics," delivered under the auspices of the New York Reform Club. Mr. Lowell was introduced by Anson P. Stokes. He said in part:

In speaking of "the independent in politics" it is my intention to treat the subject in its general rather than its special application. If one would know the difference between a statesman and a politician, let him compare Burke's view of the American trouble with that of Dr. Johnson. Never did two men show more clearly the quality of true statesmanship than Senators Fessenden and Trumbull when they dared to act independent of their party in the impeachment case against President Johnson. They saved us from the creeping paralysis which is gradually benumbing the political organs of France. In our early days we produced statesmen not endowed with Burke's genius, but comparable with him in breadth of view, and perhaps his superiors in political sagacity. I believe there is as much of raw material of statesmanship among us as ever. If parties will not look after their own drainage there must be someone who will do it for them. This duty can be done only by men disassociated from the interest of party. The independents have undertaken it, and with God's help will carry it through. A moral purpose multiplies us by ten, as it multiplied the early abolitionists. They emancipated the negro and mean to emancipate the respectable white man. I am struck with the fact that while we produce great captains and political managers, there seems to be a pause in the production of leaders of statesmanship. I am thankful to have been the contemporary of one, among the greatest, whom posterity will recognize as the most bravely human of modern times—Abraham Lincoln. What will be immediately to the advantage of the party is the first thing considered. What of permanent advantage to the country the last. Both parties have been equally guilty, both have evaded the leading questions of the day. Parties being necessary there must be politicians to represent them. There should be a neutral body large enough to moderate between both and to make both more cautious of their choice of candidates. If we have not got all we hoped from the present administration we got more than we expected. We have compelled discussion of the question, and I have so much faith in the good sense of the American people as to feel sure that discussion means victory. Two great questions have been opened anew by the President which really resolve themselves into one—that of war tariff. I say of war tariff because it is a mere electioneering device to call it a question of protection or free trade pure and simple. The advocates of protection have been unwise in shifting the ground of debate. They have set many people to asking whether robbing Peter to pay Paul is a method equally economical for both parties. The tendency of excessive protection, which thoughtful men dread most, is that it stimulates unhealthy home competition leading to overproduction and disasters which are its tainted offspring. I cannot take a cheerful view of the future of New England when her leading industries shall be gradually drawn to the South, as they will be by the cheapness of labor there.

Boulanger.

PARIS, April 13.—Political meetings were held at Turcoing and Armentieres, Department du Nord, last night and in both cases the disorder was so great that the speakers could not be heard. At a meeting at Manberge, in the same department, it was unanimously resolved to support General Boulanger. The party of the extreme left sought in vain to secure the adoption of a resolution in favor of the radical opponent of General Boulanger.

M. Souller, minister of public instruction in the late cabinet, in an article in the *Republique Francaise*, says: Since General Boulanger has declared his intention to force a duel with parliament, the latter should accept the challenge; and since it is evident the Boulanger agitation is not merely superficial or transient, but an organized attack upon the country, it is the duty of the cabinet to propose to the chamber for adoption such legislation as is necessary for the protection and defense of the republic.

Suspends.

NEW YORK, April 13.—The suspension of the American Exchange in Europe, limited, was reported today, and William C. Boone, treasurer of the company, was appointed receiver. Attorney Cromwell said the liabilities were $4,000,000. The company was formed in 1880, under the Enclish liability law, with an authorized capital of $5,000,000, of which $780,000 was paid in, and succeeded to the business of H. F. Gillig & Co., which had been established in 1873, paying $3,000,000 in stock for the purchase. Henry F. Gillig remained as vice-president and manager, Hon. Joseph R. Hawley being president.

Smallpox in New York.

NEW YORK, April 13.—The following particulars were received tonight from health officer Smith concerning the steamer *Newport* from Aspinwall with eleven cases of smallpox on board: "Arrived this morning seven days from Aspinwall with 70 cabin and 23 steerage passengers; 11 persons were removed to the hospital, some with smallpox. All persons on board have been vaccinated. The exposure has been such that the detention of the crew and steerage passengers and a portion of the other passengers will be necessary. The surgeon of the steamer saying been one of the first persons attacked the supervision and detection of subsequent cases was necessarily imperfect."

WASHINGTON.

Appropriations.—The Eight Hour Law.—Transfers of Troops, etc.

WASHINGTON, April 13.—The legislative, judicial and executive appropriation bill, as agreed upon in the House committee, makes a total appropriation of $30,472,394, which is $637,606 less than the estimates, and $209,246 less than the current appropriation for the same service. The whole number of salaries provided for is 9063, being 412 less than the number estimated for, and 53 more than the number provided for at present. The bill authorizes a readjustment of the standard weights and measures furnished to States and Territories. A clerk to the speaker is provided for at $1600 per annum. The salary of the Vice-President of the United States is omitted from the current law because of the vacancy in that office. The force employed at the Carson mint is reduced by five employes. The salaries of the bookkeeper, assayer, weight and warrant clerks at the San Francisco mint are reduced from $2250 to $2000 each. The signal office is rearranged as desired by the chief signal officer and provision made for 30 employes.

In answer to the House resolution calling upon the heads of departments for estimates of amounts necessary to pay claims arising under the eight hour law, the Secretary of War says $80,000 will be required by the ordinance department, and that the Quartermaster General, the Commissary General and Chief of Engineers have no data upon which to make estimates.

Attempted Murder and Suicide

SAN FRANCISCO, April 13.—At Emeryville today Louis Hanson, whose wife recently secured a divorce from him and afterwards married J. C. Gardner, went to the hotel where they were stopping and in a fit of jealousy shot them both. He then turned the weapon on himself and fell to the floor dead. Gardner and his wife may live.

In the House today, Representative Morrow (California) presented a petition of the employes of the customs service at San Francisco asking for an appropriation to supply the deficiency in the expenses for collecting, revenue for the year ending June 30, 1888.

The Secretary of War has directed the following transfers of troops, the movements to commence not later than June 1st next.

The Third Infantry and the Twenty-Fifth Infantry will exchange stations within the Department of Dakota.

The Fifth Infantry will be concentrated at Bismarck, Dakota, and then moved to such stations in the Department of Texas as the commanding general of that department may designate.

The Sixteenth Infantry will move to the department of the Platte with headquarters at Fort Douglas, Utah.

The companies of the Sixth Infantry now at Fort Douglas, Utah, to Fort Lewis, Col.

The Twenty-second Infantry to the department of Dakota, with headquarters at Fort Keogh, Montana.

The commanding general of the department of Arizona will order some company from his command to Fort Marcy, N. M.

The Thirteenth Infantry in the department of Arizona will exchange stations with the Twenty fourth Infantry in the department of Missouri.

Battery G, First Artillery, in the department of the east, will exchange stations with Battery F, First Artillery, in the department of California.

The portion of the Eighth Cavalry now in the department of Dakota, will be concentrated at Fort Meade, Dakota, and then moved to Fort Riley, Kansas.

The Eighth Cavalry will be concentrated at such point in the department of Texas as its commanding general may designate, and moved to Fort Meade, Dakota.

Minister Phelps.

NEW YORK, April 13.—Hon. Edward J. Phelps, United States Minister to England, arrived this morning on the steamer *Aller*. His visit, he says, has no political significance whatever, and he had come over on purely private business.

The *Tribune*, in an interview with Minister Phelps, has the following:

The English people are beginning to think, he said, that free trade would be bad for them, on account of the certainty that industrious and enterprising Americans will drive them out of the market altogether. The English undoubtedly admire Mr. Cleveland, but not because he is in favor of free trade. For, as a rule, the people over there know little and care little whether a man be a democrat or a republican.

He spoke of Mr. Blaine, who was received in London "with most marked attention," of Chamberlain, destined to play a great part in English politics, and of Parnell as a clever tactician and able speaker.

Bismarck.

BERLIN, April 13.—There is now absolutely no foundation for the hints appearing in the press that the betrothal project of Alexander and Victoria at no distant date will again be brought forward. Such a contingency is out of the question in view of the character of the personages concerned and the political situation. The reports that Prince Hahenlohe and Count Von Hatzfeld, Minister to England, have been sounded as to their willingness to succeed Prince Bismarck are untrue; the Emperor has not for a moment contemplated the possibility of the Chancellor resigning.

The Canadian Pacific.

OTTAWA, April 13.—At a ministerial caucus this morning the basis of the settlement with the Canadian Pacific for a cancellation of the monopoly privileges was officially announced. The only new point is that the company will expend the $15,000,000 derived from the government bond issue under the supervision of the government, five millions to pay off the floating liabilities of the company, five and a half millions in new rolling stock, and the remainder for the general improvement of the lines.

The minister of justice and Clark, the solicitor for the Canadian Pacific Railway, are engaged in drawing up a document referring to the cancellation of the company's monopoly privileges. It has been definitely decided that the rate of interest on the $15,000,000 of land bonds which the government will guarantee shall be 3½ per cent.

80,000 Acres Sold.

NEW YORK, April 13.—Vice-President Oakes, of the Northern Pacific, says the sale of eighty thousand acres of timber land in Washington Territory, within thirty miles of Tacoma, has been consummated and the papers will be signed tomorrow. The transaction involves the construction of a line from Tacoma, to be known as the Tacoma Southern, to cost two million dollars. The purchasers are C. W. Griggs, St. Paul, and H. E. Hewitt, New Richmond, Wisconsin, and their associates.

Allison for President.

CHICAGO, April 13.—J. S. Clarkson of Des Moines, chairman of the republican sub-committee, was in the city today inspecting the auditorium building. He said the pressure for convention tickets was unprecedented. Mr. Clarkson left for the east tonight to confer with Senator Allison, who he is warmly championing for the republican nomination. "We will have 3000 men here during the convention in campaign uniform, all Allison clubmen," said he. "There is no possibility of Blaine's nomination in any event. He has put himself beyond the reach of nomination by his own motion and desire."

FIFTIETH CONGRESS.

HOUSE.

WASHINGTON, April 13.—The clerk proceeded to read the journal of the legislative day of Wednesday the 4th of April. The journal consists of ninety-one manuscript pages, exclusive of 71 roll calls.

Dockery (Missouri), asked unanimous consent to dispense with the reading of the journal, but Taylor and Grosvenor interposed objections. They did not, however, demand the reading of the roll calls in full, as such reading would occupy two or three days.

The clerk then proceeded to read the skeleton outline of the journal. The reading consumed exactly one hour.

A large number of the executive documents which had accumulated upon the Speaker's table during the deadlock were laid before the House and appropriately referred.

Blount (Ga.), from the committee on postoffices and postroads, reported the postoffice appropriation bill. It was referred to the committee of the whole.

Peel (Arkansas) presented the conference report on the bill to ratify the agreement with the Gros Ventres, Piegan, Blood, Blackfeet and River Creek Indians in Montana and it was agreed to.

Also the conference report on the bill dividing the Great Sioux reservation into smaller separate reservations.

The remainder of the day was spent in committee of the whole in discussion of the bill for the payment of a claim of $7,000 for the occupation of certain property in Memphis by the United States troops in 1864. It was opposed by Grosvenor of Ohio, Thomas of Wisconsin, and Brewer of Michigan, and supported by Richardson of Tennessee.

Allen of Michigan, said the democratic side had settled two things, that they would not allow the loyal States to receive back their share of the direct tax, and the Southern States should not be required to pay their share. He would therefore suggest that all claims of the character of the one pending, should be put up as a set-off against the direct tax owed by the Southern States.

Richardson replied that the day had been fixed for the consideration of the direct tax bill. If the gentleman thought that it was not good policy to pay these war claims, why had his party in 1864 passed a law for the payment of such claims to loyal persons.

Montgomery (Kentucky) said he would vote for the payment of the claim of every loyal man. The quality of the loyalty ought not to be tested by the locality in which the claimant lived during the war, but if it were so tested, the quality of the loyalty of the citizens of Tennessee and Kentucky ought to be placed higher than that of those who had lived where it had been perfectly safe to be loyal.

No action was taken on the bill.

The House then took a recess till 7:30 o'clock, the evening session to be for the consideration of private pension bills.

MR. JOSEPH BEACH.
A LUCKY MAN.
Stone in the Kidney expelled after using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. S. Beach, of Stone Ridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculus or stone in the right kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment with only temporary relief from his agony.

By the urgent solicitation of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy," made, you remember, at Rondout, N. Y. He experienced marked improvement from the first day he began to use the medicine. On the 15th September he voided a stone as large as could be passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorders arising from an impure state of the blood." The "Favorite Remedy," is sold by all druggists. Price only $1 a bottle. The Doctor's only address where he manufactures his "Favorite Remedy," is Rondout, N. Y. Richardson Drug Co., St. Louis, agents.

EVERY NIGHT I SCRATCHED
Until the skin was raw. Body covered with scales like spots of mortar. Cured by the Cuticura Remedies.

I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from druggist, and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommend the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have been to me. My body was covered with scales, and I was an awful spectacle to behold Now my skin is as nice and clear as a baby's.
