The morning session of the quarterly onference of the Salt Lake stake conrened yestorday in the tabernacle at a. m., and was devoted to the work the Sunday schools of the stake. The interior of the building was astefully decorated for the occasion, On the stand were potted plants, buntng and flags. Around the gallery, bcides the stars and stripes, were the lags of many foreign nations. In front of the organ was a large picture of the Prophet Joseph Smith. The exercises were of a patriotic as well as a religious character, commemorating the adoption of the nation's emblem and bonoring the labors of the founder of

the Church. The gallery and the part of the main floor under the same were occupied by the public. In this remainder of the building were seated the Sunday school children with their officers and teach-ers, each wearing a flower and a small

It was proper, the speaker said, that the flags of other countries should appear in the decorations, as the gos-pel which the Latter-day Saints are preaching has been carried, and is being preached and accepted in many counpreached and accepted in many coun-

The speaker referred to the restora-tion of the priesthood in these days and its withdrawal in the early cen-turies of the Christian Era. During turies of the Christian, Era. During the period intervening there was no recognized priesthood on earth. Con-sequently all the acts of men purport-ing to have authority to officiate in the name of God, are invalid. He also dwelt upon the restoration of the Aaronic priesthood, by John the Bap-tist, and later the restoration of the Melchesedek priesthood by Peter, James and John, who held the keys of this priesthood in ancient days.

EFFECT OF HOLY GHOST.

EFFECT OF HOLY GHOST. The promise of the Comforter by the Savior, and its fulfillment, was then referred to, by which only men were able to testify that Jesus is the Christ. Its effect on Peter who denied the Master before the Holy Ghost was given, but after it was received he received strength and could then go willingly to his death, was referred to. The Holy Ghost was conferred by those holding authority. The right to do so in these days was conferred on Joseph Smith by Peter, James and John. He in turn conferred it on oth-others. By them it has been, and is being spread abroad and under its light people are receiving the truth. Those who do so bear testimony of the increased strength and light which increased strength and light which has come to them, beside which their former condition was darkness.

NECESSITY OF AUTHORITY.

The statement was then made that Christ was not made the Redeemer of the world and the first fruits of of the world and the first fruits of the resurrection merely because He was the Son of God, but because the authority of the holy priesthood was given to Him. If a man has not au-thority from God his acts are not recognized of God and are invalid. Those who receive the ministrations of the outbacked account of God will of the authorized servants of God will

of the authorized servants of God will know of a surety concerning the truth. He exhorted his hearers to be true to their profession, assuring them that Joseph Smith was raised up of God to organize and set up the Church of Christ. This has been accomplish-ed in the free country of America, whose flag the people honor. While the flag is thus honored it should not be forgotten that the first duty of mankind is to God who gave them life and bein 7. life and bein -.

from indulging in recreation on the Sabbath day, urged the speaker, which should be kept holy. Pleasure could be sought and obtained during the week so that the Sabbath day could be

week so that the Subbath day could be a day of rest for every man. He deprecated the necessity for em-ployers having large bodies of men working on Sundays, and he did not think those who opened resorts on Sunday were entirely free from re-sponsibility. The choir sang the anthem, "Lift Up Your Heads, O Ye Gates." Elder John Henry Smith said the day had been very interesting to him and he congratulated the parents of the children on the wonderful exercises given in the morning. He hoped the people would give heed to the appeal of the previous speaker, to keep the Sab-

DESERET EVENING NEWS MONDAY, JUNE 14 1909 for some new form of amusement. Elder John Henry Smith said that in the opinion of many thoughtful men the schools of this country are not do-ing their full duty to the clizenship of the nation, because they can not give attention to the spiritual needs of the children. As a result there is a widespread disregard for moral law, scentism abounds in the land. When a supply. We want to become acquaint-CITYed with the business men who do business with us, and with the people in general. We all live in the same in general. We all live in the same country, and have one common goal. We want to get together and work to-gether, and that's all." KB THEIR STOP A SHORT ONE 'Our delegation notices a great many substantial improvements which have been made in your beautiful city since its last visit four years ago. From the character of the improvements which are now going on, Salt Lake City is certainly destined to soon be one of the handsomest cities of the United States. Its new buildings and those now under construction surpass any Delegation of Business Men on a Tour Of Pleasure to Learn to Know Western People Better. **MMIGRATION WARD** now under construction surpass any Thirty-nine members of the Chicago which we have seen on our weeks trip with the exception of thre Association of Commerce, the biggest cities organization of the kind in the country, having three times your population These are evidences of the energy and thrift for which the people of Salt Lake FORMED LAST NIGHT were the guests of Sait Lake City for eight hours yesterday. Then we were shown about the city in carclub will pay our association a visit in Chicago at an early date and let us return the courtesies you have extended us. we were shown about the city in car-riages; today we were driven in auto-mobiles, and consequently we saw the city much better than we did before." The train arrived in this city from Bolse about 7:30 yesterday morning. A committee from the Salt Lake Com-mercial club, headed by Fisher Harris selors, members of the high council and other general and stake officers. The usual Sunday evening exercises preceded the transaction of the busi-ness involving the division of the wards. After the business of the evening had been concluded, a help-ful address was delivered by Elder Hyrum Smith. Following the benedic-tion and the adjournment of the meet-ing, congratulations were offered the newly sustained bishopric with best wishes for their successful administra-tion of their office. During the even-ing short addresses were also deliver-ed by stake officers and members of the bishopric. After greet-ings were exchanged the party boarded Kuh, Nathan & Fisher company, clothing merchants, said: THE BIGGEST ings were exchanged the party boarded motors and vanished up South Temple street for a spin over the city. This occupied about two hours, the drive extending up Brigham street to Fort Douglas and down through the city to Liberty park, where members of the party were treated to a nosegay from the park greenhouse. Returning via south Main to the tabernacle, the party attended the Sunday school observance "Of all the cities we have visited I must say that I have greater faith in its future than any. It has long been known as a place of great opportuni-ties, but it is now coming to its own in a greater way than I ever realized. Five years has made a world of dif-farence. "Along the streets where I then saw attended the Sunday school observance of "Flag Day" then going on in the one and two story shacks and small

Excavaling for two hotels that, I am told, will cost \$1,500,000 and \$2,000,000, and for the distance covered it would do credit for the same amount of territory in Chicago. It is a revelation to see a place going ahead with the stride that Salt Lake has set. Chicago people are looking this way as a center for commerce for the intermountain region and you can depend upon it that all who are with us on this trip go home with greater ideas of the possibilities of the west. Many I know are to extend their fields this way. Of course Salt Lake will never be a Chicago but I have been convinced that it will soon be a little
