MINING, BUSINESS AND STOCKS

ROUND MOUNTAIN

Forty Pounds of Ore Yield Sixty-Two Dollars in Gold.

Machinery is Being Purchased and Hoist Installed to Sink 1,000 Feet.

Work on the Round Mountain Sphinx property at Round Mountain is being pushed with vigor. Fifteen men are at present employed, and the company backed by a large treasury fund, is making very possible effort to get to a depth so that a large force of men can be practicably employed.

Two shafts are being sunk, both in pay ore from the start, the ore boly being 60 feet wide. Good milling values are found throughout.

Some remarkably rich streaks have been encountered as sinking proceeds. J. J. McSorley, when visiting the property theh other day, panned 40 pounds of ore, from which he obtained \$62 'n gold. The bottle containing the pantals of the process of th nings was on exhibition and was a si-lent evidence of the wealth which must be stored in the bowels of Round mounbe stored in the bowels of Koulid moun-tain; the scene of so many rich strikes. Shaft No. 1 of the Sphinx company, has reached a depth of 50 feet, while shaft No. 2 is down 30 feet. Arrange-ments are being made for a new hoist capable of sinking to a depth of 1,000

The Sphinx company owns 11 claims, and has pay ore opened up on five dif-ferent lodes. This will be one of the largest milling propositions in the state. Surveys are being made for a pipe line which will carry water to the property for milling purposes.

GARFIELD VERY BUSY. .

Smelter to be Ready for Business Inside 40 Days.

Reports from Goldfield are to the effect that large quantities of ore have already been received for treatment in the new smelters, but so large is the capacity of the company's bins that the thousands of tons already on hand are no more than the proverbial drop in the

The Utah Copper and the Newhouse mines in Beaver county have up to now contributed the greater part of the ton-nage, but ore is coming from all sources and already work for a long period is

Mr. Richard Stingley, the representa-Mr. Richard Stingley, the representa-tive of the Boston Con., on the ground, is of the opinion that 40 to 50 days will see the completion of the smelter, and the commencement of active work. Work on the Utah Copper company's mill is also progressing favorably, and within a very short time Garfield will be the scene of an activity indicating all the business the various plants can

TONOPAH MINING CO. REPORT. Total Dividends to Date Now Aggregate \$10,000,000.

The annual report of the Tonopah Mining company shows that during the fiscal year 6.147 feet of underground development work was done, making a development work was done, making a total of 27,755 feet. The year's work has added greatly to the value of the property, large bodies of high grade ore having been opened up. During the year 59,020 tons of ore were hoisted from the mine and 48,649 tons were shipped, of which 4,796 tons were in transit when the report was written. The smelter returns from 45,692 tons were \$1,461,886, the yield per ton be-The company has paid quarterly

The company has paid quarterly dividends of 25 cents per share since April, 1905, amounting in all to \$1,000,000. Unless some unforcesent cause arises it is the intention of the company to continue to pay 25 cents quarterly; this per cent will be increased as soon as a greater tonnage of ore, now awaiting breaking and shipping can be converted little money. shipping, can be converted into money.

It is expected that the mill now in It is expected that the mill now in course of construction will be completed by Aug. 1, when a much larger tonnage of ore can be handled. The new mill will handle about 400 tons per day, while the total capacity of the plants now in use by the Tonopah company is only about 100 tons daily.—Goldfield Review.

Development Work to Date is May Day Leads in Point of Very Gratifying to Owners.

WORK NOW BEING PUSHED. WHAT THE FIGURES SHOW. NEVADA STOCKS ARE QUIET.

Logan Tonopah Mining Company Recently Organized and Officers Elected-General Notes.

Logan, May 20.-Brigham Larsen, who has charge of the development work has charge of the development work being done at the Mineral Point mine, near Avon, was in town Friday and reports that a 35 foot incline shaft has been sunk on the property, and a two foot vein of iron and copper opened up. This ore assays 33 per cent copper, six feet of free milling ore assays, 35 gold. There is a well defined hanging wall of dolomite limestone and a foot wall of operativite. Those interested wall of quartzite. Those interested wall of quartzite. Those interested are enthusiastic over the prospects, and work will be continued on the shaft. The Logan Tonopah Mining company was organized Saturday. The capital is placed at \$1,000,000, of the parvalue of \$1 per share. It is not the intention to float any of the stock for some time to come. The company owns a number of claims and has a 12 foot vein which runs rich in gold. owns a number of claims and has a 12 foot vein, which runs rich in gold at a depth of 10 feet. Other adjoining properties with 18 foot veins at a depth of 200 feet have changed hands for large sums. Those interested in the property feel confident that they have a good thing and will push development work as rapidly as possible. John A. McAllister was made president of the company, E. W. Robinson, vice president; N. W. Kimball, secretary and treasurer, with W. J. Kerr, F. K. Nebeker, Thomas Irvine and Alfred Hansen, directors.

MANHATTAN DIVIDEND CO. Work of Active Development Now Commencing.

Commencing.

The Manhattan Dividend Mining company has placed three men at work on its property. This marks the beginning of active development. Outcroppings on the ledge show it to be 20 feet wide on the surface and assays \$9.80 to the ton. The company is in the hands of suci, well known mining men, George Wingfield, H. T. Bragdon, Gus Isen and George H. Lewis.

There is \$10,000 in the treasury and as yet not a share of stock has been sold which is a commendable feature of the organization.

TINTIC MINING NOTES. Prospects for Future Are Excellent

With Output Assured for Years. That the Tintic mining district is one

of the most remarkable in many ways, of the most remarkable in many ways, in the entire country, few mining men doubt, and notwithstanding the millions it has already contributed recent indications point to a future in point of output, as rosy as its past. Mr. John D. Murphy, one of the besk known mining men of the district, passed through Salt Lake Saturday enroute for Lead-ville, Col., where he goes to discuss with his associates there the overtures with his associates there the overtures recently made by Salt Lake capitalists looking to the securing of an option on certain Tintic properties which Mr. Murphy and his friends control. Very little definite information can be ob-tained in this connection, but that out-side capital has long regarded with en-vious eyes, the wonderful records made by many mines in the district, is not to he doubted.

In spite of the remarkable depth reached in many properties, the pros-pect of ore for years to come is as promising as ever.

BUSINESS FAIR ON EXCHANGE

Volume on Morning

New York Advances From 25 Saturday to 29-5,000 Shares Change Hands.

Business on the local exchange opened fairly active at the regular morning all. May Day was the most active of Utah stocks, 19,500 shares changing hands at around 18. This price is lower than usual. Five thousand five hundred New York sold at 27 to 29, and is still rising, 25 being the top notch reached Saturday. Six hundred and ninety Little Bell sold at \$13.50 to \$12.75. Business on the whole, for Monday, was of fair volume, although the trading in Nevada stocks was if anything quieter than usual.

MANHATTAN CALUMET CO.

Prospecting Going Forward With View

To Sink Shaft at Once. The Manhattan Calumet Mining company, owning the Flying Cloud, Snow Man and Eva Fraction, an estate lying on Litigation bill between Contention hill and the Consolidated, has a crew of men prospecting the ground to find a suitable spot to sink the shaft contemplated. The claims above mentioned were owned by Dan McNamara, the well known prospector and mining man who is at present involved in litigation with the Dexter company over the context of the rich Contents with enership of the rich Contention hill

The Calumet company has very flattering showings on the surface. The ledge is 2½ feet wide and average assays across the ledge give values of \$29,38 and \$31.81 at a depth of 6 feet.

WORK PROGRESSING STEADILY. Results Highly Gratifying and Pros-

pects Are Very Favorable. The tunnel on the Zanzibar Mining company's property, consisting of four claims adjoining the Pine Nut on the east is now in 50 feet with three shifts working. The road leading to the mine will shortly be completed, having been under construction the past few weeks.

The management states that the tunnel will be driven a distance of 250 feet, where it is expected to tap the ledge at a depth of 300 feet. Between the 300 foot level and the surface are two ledges which will be cut during the progress of the tunnel; these ledges contain good surface values and are expected to add materially to the value of the property. Assays on the main ledge have been obtained running as high as \$300 to the ton. Twelve cars are employed at present.

Many applications for leases have been received, but it is not the intention of the company to grant leasers any ground, as the owners of the property have plenty of capital to work the ground.

MINING CHAMBER INSTALLED. Mexican Government Elects Officers

For Period of Two Years. Mexico City, May 20.—The mining chamber of Mexico has been formally installed with a board of officers chosen for two years. President Diaz has been notified of the establishment of the chamber, which promises to be of great benefit to the mining interests.

SHIPPING TO BE COMMENCED. Values as High as \$100 Obtained With Plenty of Ore in Sight.

Some very rich values have been encountered in the Jones and Higginson lease on the Gold Wedge claim of the Jumbo Extension company's property during the past week. In running the crossout through the main ledge, which at present shows a width of 48 feet several stringers varying in ledge, which at present shows a width of 48 feet, several stringers varying in width from four to six feet, have been cut. In one of these stringers, which is fully four feet in width, values as high as \$400 are found and in the center of the pay streak there is a six inch vein which shows values running into the thousands of dollars. About 15 tons that will average better than 15 tons that will average better than \$200 to the ton have been taken out and it is thought that by the middle of next week a consignment can be ship-ped.—Goldfield Review.

> MORE ABOUT CHERRY CREEK. Hartford Nevada Gold Mining Co

Meeting With Good Success.

Reports from the Cherry Creek, Nevada, district continue of a favorable nature. Mr. J. N. Ingram, who reached the city from there on Saturday, is enthusiastic in his descriptions. The Hartford Nevada Gold Mining Co., whose financial representative, Mr. J. W. Wallace, recently made several purchases of machinery in the Salt Lake market, is meeting with excellent success, with from 10 to 12 men constantly at work. Development of the properties is going merrily forward, ores, some of which are of phenominal richness, being constantly taken out.

The six claims which constitute the Meeting With Good Success. The six claims which constitute the property are traversed by four paralleled veins, two shafts of about 100 feet have been sunk and crosscutting from each is being done. Trial shipments of ore show most gratifying results, parts of these showing value of as high as \$66,000 to the ton.

The attention of mining men throughout the country is rapidly being focussed on this district and it is not unlikely that the near future will see some strikes rivalling in richness anything that has so far been discov-

LOCAL MARKETS.

In today's local markets, flour has taken a 10 cents drop, while oats in wholesale lots have gone up five cents. Utah vegetables have taken the place of the California articles, so very lit-tle is being shipped in now from the west. However, western strawberries will be in evidence for a week yet, when the Utah berry will begin to appear. A bountiful supply is promised. Some localities in the country are entirely given to raising the strawberry, one little town down in Massachusetts, only six miles square, raises 600 tons annually for the Boston and Providence

Mexican tomatoes, raised where they don't have late frosts, and Texas cu-cumbers, are in the market, along with a plentiful supply of oranges and bananas, a car load of new potatoes from California, a car of old potatoes from Oregon. The prices obtaining today are as follows:

Chicago, May 20,-W. G. Voliva, the resent head of the Christian Catholic shurch, announced to his followers in Zion City today that between Jan, 15 and May 19 he had reduced expenses in the financial department of the church from \$9,800 per month to \$3,832 per month. This saving, he said, had been brought about by a reduction of the of those retained. In the same manner, he said, a saying had been made in the ecclesiastical department that would amount to \$70,-

department that would amount to \$70,-000 annually. Overseers who had been receiving \$300 per month were reduced to \$60. The pay of others was cut in proportion. His own compensation un-der the new adjustment, Voliva said, was \$100 per month. These facts, he said, were some of the details of a re-port that he made yesterday to a com-mittee appointed by Federal Judge mittee appointed by Federal Judge Landis to investigate the condition of the industries in Zion City. Voliva announced the resignation of John G. Excell from the office of general ecclesiastical secretary, owing to lack of sympathy with some of the doctrines of the church.

The condition of John Alexander Dowle today was said to be practically

WILL DEPORT WO GEN.

unchanged.

Seattle, Wash., May 20.—Wo Gen, manager of the Wa Chong company, and one of the wealthiest Chinese merchants of the northwest, is to be deported. He made a trip to China recently to patch up trade relations, and did a great deal toward elleviating conditions caused by the boycost. When conditions caused by the boycott. When he returned a few days ago he was found to have trachoma, the dread eye disease, and was placed in the quaran-tine detention station at Port Towns-end. Powerful influences have been but without avail.

PRODUCE.

CHICAGO.

Chicago. May 21.—The wheat market was firm at the opening today and trading was active. The chief cause of the strength was the absence of rain in the southwest. There was a big demand from commission houses and the principal selling was by a prominent buil. The tone of the cables was hearish. Liverpool failing to respond to the advance of Saturday in the local market. July opened 1/40 % higher, at 83 to 81/40/83%, advanced to 83% and then sold at 83%.

Minneapolis, Duluth and Chicago reported receipts of 195 cars against 34 cars a year ago.

Minneapolls, Duluth and Chicago reported receipts of 195 cars against 34 cars a year ago.

The corn market was firm, July opening unchanged to ¼ higher at 47¼ to 47%, advanced to 47½,47%, and declined to 47%.

The oats market was strong and active, July opened ½ to ½ higher at 33½ to 33%, sold up to 33%, and on profit taking sales declined to 33%.

Provisions opened easier and soon rallied on a good demand from packers for all products. July pork opened 7½ lower, at 15.59 and advanced to 16.65; lard was 5 cents lower at 8.52½ and sold up to 8.62½. Ribs opened a shade to 2½% lower at 8.5 (8.97½ and advanced to 9.02½.

8.97½ and salvanced to 9.02½.
