

RACE PROBLEM IN HAWAII.

Gov. Dole Expresses the Opinion There is Danger of the Whites Being Still Less Numerous.

MIXED MARRIAGES ARE MANY.

Rate of Decrease of Pure Hawaiians Appears to be a Diminishing One According to Governor.

Washington, Nov. 5.—Gov. Sanford B. Dole, chief executive of the territory of Hawaii, expresses the opinion in his annual report to the secretary of the interior that "unless there should be a larger immigration of American settlers than now seems probable, the present numerical inferiority of those who may be classed as belonging to the Teutonic race as compared with the Hawaiians will, in a few years, become a still greater inferiority as compared with the then American citizens of the Hawaiian, Portuguese, Japanese and Chinese races."

This opinion is based on conditions in the schools. The American and European children in the schools, not including Portuguese and Porto Ricans, number 1,565 an increase of only 18 over the previous year, while the Hawaiian, Portuguese, Japanese and Chinese children in the schools number 16,229, an increase of 945. Among references in the report to social conditions in Hawaii are the following:

"There are many marriages between Hawaiian women and white men, and a few between Hawaiian women and Chinamen. The offspring of both classes of marriages are an improvement, as a rule, on the pure Hawaiian in business enterprise."

"The Portuguese generally intermarry among themselves. The same is true with the Japanese. Pure Hawaiians, as a class, are increasing, and the rate of decrease of pure Hawaiians appears to be a diminishing one."

The report says the statistics show a steady increase in the last three years in the production of sugar and an increase in the shipment outside the territory. Coffee shipments show an increase of 7,000 pounds over the previous year, but a decrease of 63,000 pounds compared with the year ended June 30, 1901. Rice, the report says, is inevitably a diminishing product, both from the competition of the new rice fields of Texas and Louisiana and the

diminishing number of Chinese in the territory.

Gov. Dole says that the majority of the new settlers on the public lands last year were white men, and he adds: "It is evident that the settlement of the available lands of the territory by farmers owning and cultivating their holdings must be of gradual growth. The large area of public lands held under unexpired leases is one reason for this. Other reasons are want of markets, cheap transportation and sufficient good roads."

The report says the competition of the Chinese and Japanese in the labor market is formidable on the ground of their lower wages rather than the quality of the mechanical performance of the men of those nationalities, which falls behind that of the Anglo-Saxon as regards work not especially oriental. It recommends that a limited immigration of Chinese laborers to the territory be permitted, conditioned upon their engaging only in agricultural, mill and domestic work for hire during their stay.

Against Cuban Reciprocity.

Detroit, Mich., Nov. 5.—Three Michigan congressmen who passed through here today on their way to Washington expressed opposition to a reduction on Cuban sugar. They were Congressmen George A. Loud, of the Tenth district, Fordney of the Eighth and Darragh of the Eleventh. Congressman William Alden Smith has already taken the same attitude.

Herbert's Estate Small.

London, Nov. 5.—The estate of Sir Michael Herbert, late ambassador to the United States, was sworn today by his widow at \$39,420.

TOVAR ACCEPTS JUNTA'S TERMS

He and His Troops, Convinced of The Uselessness of Resistance, Agree to Depart.

ATTITUDE OF UNITED STATES

It Will Conduct Affairs on the Isthmus With a Firm Hand in Execution of Treaty of 1846.

Panama, Nov. 5.—Gen. Tovar and his staff have at last been convinced of the uselessness of their resistance to the provisional government, and have accepted the terms offered by the junta. They will embark this afternoon for Colon on an express train, and will leave immediately on the Royal Mail steamer Orinoco for Cartagena. The arrangement to this end was made through the efforts of Commander Hubbard of the United States gunboat Nashville, Supt. Shaler and Asst.-Supt. Prescott of the Panama railroad, who guarantee that both parties will fulfill the agreement.

There is great rejoicing all over the city because the stability of the republic now seems assured. The fact that troops were already moving toward the line, probably, decided Gen. Tovar and his staff to accept the terms of the junta.

After a conference this afternoon Col. Torres, commander of the Colombian troops at Colon, seeing that the situation was hopeless, agreed to embark his soldiers on the Royal Mail steamer Orinoco, sailing for Cartagena at 6 p. m.

The people of Colon are now jubilant. The flag of the new republic flies from the railway stations at Gatun and Rio Salado, and the troops from Panama will doubtless take charge of the city tomorrow. Part of the troops have already embarked on the Orinoco and the ammunition has been taken aboard.

The municipal council of Colon has just notified the provisional government at Panama of its adherence to the new republic.

ON THE ISTHMUS.

United States Will Conduct Affairs With a Firm Hand.

Washington, Nov. 5.—The Associated Press is enabled to say that this government will conduct affairs on the isthmus with a firm hand in the execution of the treaty of 1846. Orders have been sent to the various naval commanders in the Caribbean that the isthmus is to be policed, the transit kept open and also that bloodshed must be prevented at any cost.

This is further than the United States has ever gone heretofore, and in the opinion of officials here indicates that the establishment of the new government at Panama, if it proves stable and orderly, will have the good wishes of the United States and our ultimate recognition and co-operation in conducting an orderly and permanent government of the isthmus. Advocates of the construction of the Panama canal say this assures the execution of the project.

It was suggested tonight that in the event of the postponement of recognition of the new government the question might be referred to Congress for action.

Robert Goelst Not Married.

New York, Nov. 5.—A report gained wide publicity today to the effect that Robert Goelst, a son of Mrs. Ogden Goelst, was married to Miss Eleanor Anderson, daughter of a restaurant keeper in Sixth avenue, near Forty-second street. Miss Anderson was until recently a telegraph operator in the Grand hotel, but had not been there for the last week. A reporter talked with Mr. Goelst tonight at the home of his attorney, George DeWitt. Mr. Goelst said:

"There is not one word of truth in the story of my marriage to Miss Anderson. I never heard of her, never saw her, and don't know who she is. I have only been back from abroad a short time, and have just returned from Newport. This outrageous story, coming at this time when all of my family are busy with the details of my sister's wedding, is very distasteful to all of us. You cannot make it too strong that there is not a scintilla of truth in the story from beginning to end."

Eloy Platt a Defaulter.

St. Louis, Mo., Nov. 5.—Eloy S. Platt, of St. Louis, Mo., who attempted suicide in Pittsburgh, Pa., yesterday, is charged with being a defaulter to the extent of over \$20,000 by the stockholders of the George Platt Concrete company. In a petition which they filed in the circuit court today asking that a receiver be appointed for the company, George Platt, president of the company and father of the man in Pittsburgh, assumed the liability for his son's alleged shortage.

Wentz in Hands of Abductors

Bristol, Va., Nov. 5.—Congressman Sloop in Bristol tonight confirmed the rumor that Edward L. Wentz, the young Philadelphia millionaire who disappeared, is in the hands of abductors in the mountains of southwest Virginia, and that a ransom of \$100,000 is demanded for his release.

Waterlogged Crew Saved.

New York, Nov. 5.—Capt. Gabrielsen and nine of the crew of the waterlogged schooner John Linnell have reached this port aboard the Italian ship Gabriella d'Al.

The Linnell left Ferdinandina on Oct. 17 and on the 24th plunged into a terrible gale. She sprang a leak and was soon waterlogged. To prevent the schooner's turning turtle, the sailors were cut away. The sailors lashed themselves to the stumps and remained there 48 hours, the waves breaking over them continually before the Gabriella d'Al sighted the bulk.

ARMY IN PHILIPPINES.

Gen. Young Decides for the Present Its Size Shall Not be Reduced.

Washington, Nov. 5.—Some time ago Gen. Davis, commanding the division of the Philippines, recommended a reduction of the garrison in those islands, and the secretary of war authorized the chief of staff to determine what reduction should be made. Gen. Young has decided that the garrison in the Philippines for the present should remain at four regiments of cavalry and nine of infantry. When the arrangements for five regiments of infantry and 10 of cavalry were made, it was decided that one-third of the infantry and cavalry would at all times be sufficient in the Philippines and two-thirds

We have given a few logical talks

on TREE TEA—MEANWHILE the TEA talks o'er each cup.

In the United States. When the orders were being prepared for the recent change, however, it was necessary to pass over the Eighth infantry because half of that regiment was in Alaska. By keeping only nine regiments of infantry in the Philippines it will enable the department to make the exchanges without interfering with the Alaska service and possibly the Porto Rican service, and in addition thereto an extra regiment will be always available for any emergency without breaking down the plan. It is not probable that any further reduction of the garrison in the Philippines will be made until proper barracks accommodations can be provided in the United States.

Russian Troops in Mukden.

London, Nov. 5.—The Daily Mail's correspondent cables that 1,000 Russian troops have entered Mukden.

Jos. Killoran Pleads Guilty.

Springfield, Ill., Nov. 5.—The trial of Joseph Killoran, charged with complicity in the robbery of more than \$6,000 in stamps and silver from the safe of Postmaster Ridgely of this city, eight years ago, and who escaped from the Ludlow street jail in New York, began today. He pleaded guilty. Judge Humphrey sentenced the prisoner to who served a year in the penitentiary in consideration of his old age.

CASPAR ERNST SURRENDERED

Has Been Out on Bail Charged With Forgery.

St. Paul, Nov. 5.—Caspar J. Ernst, capitalist and promoter, who has been out on bail of \$1,000 pending a hearing on charges of embezzlement and forgery preferred by Father Maggier, Catholic priest of Chippewa Falls, Wis., was surrendered by his bondsmen tonight, and is now in the custody of a deputy sheriff. The son of a prominent family, Ernst is said to have received large sums from people throughout Minnesota, Wisconsin and other states to be investigated into the private fortunes for investment. What the total amount of money so received is, is not known. It was in the neighborhood of \$20,000. Since his arrest Ernst has filed a deed of trust to John D. O'Brien, an attorney, conveying to him, with power to sell, two office buildings in the business district. This property is estimated to be worth \$200,000, but Ernst has only an equity in it, amounting only to about \$30,000.

BACK FROM LIBERIA.

Southern Negroes Who Went There Tell a Pitiful Tale.

New York, Nov. 6.—Two negro men with three women and four children, gaunt, hollow-eyed and ragged, have arrived here from Europe en route to their home in Odessa, via, from Monrovia. They constitute a part of the survivors of a party of 15 southern negroes who, about a year ago, were sent by a number of southern philanthropists as an experiment in colonizing American negroes in Liberia. Financial aid in the colonization scheme was furnished by planters. It was hoped that the growing of cotton would mark the success of the venture, and reports had shown that the soil of Monrovia was adaptable to its growth. The colonists arrived there early in February and those who have returned declare they were soon disillusioned. They found themselves in the midst of a tropical wilderness with only a few white traders, who were mere adventurers. The party built three cabins and planted their seed, but the entire growth was rotted or washed out within two months. There were continuous rains for weeks at a time, the natives were hostile, and finally the jungle fever broke out and wrought havoc among the colonists. The provisions were depleted and they lived partly on native roots. In less than eight months more than half of the entire party had died. The party which came back did so on funds furnished by their former employers in Georgia.

Worry And Overwork Caused Nervous Prostration—Completely Worn Out.

Dr. Miles' Nervine Cured Me.

Dr. Miles' Nervine will cure nervous prostration. It brings sweet sleep and rest; it will relieve the mind of the tendency to worry; it will make the nerves strong and the patient well. I have cured thousands. I will cure you. Try it today.

"Some years ago I was stricken with nervous prostration caused by overwork and worry. I was in such a weakened, exhausted, run down condition that I was unable to do any housework. I felt too weak and tired to even make calls on my neighbors. Frequently when out driving I would become so exhausted that it seemed that I would die before I reached home. I was also troubled with sinking spells at night which left me so weak that I thought I could not live until morning. I was in this deplorable condition when one day Dr. Miles' Nervine was brought to my notice. I had little faith in proprietary remedies but determined to give Dr. Miles' Nervine a trial. After the second dose of the Restorative Nervine I was able to sit at the table and eat a meal, something I had been unable to do for many days. I have since taken a number of bottles of Nervine, and myself cured. I am doing my own work and give Dr. Miles' Nervine credit for my general good health. My object in writing this is to recommend your medicine and I cannot write as strongly as I feel."

—Mrs. ANDIE B. VARNER, 405 E. Marion St., Guthrie, Oklahoma.

Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

Miss Hannah E. Mershon, Collingswood, N. J., says:

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular. I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

How Mrs. Pinkham Helped Fannie Kumpe.

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. The pains in my back and womb have all left me, and my menstrual trouble is corrected. I am very thankful for the good advice you gave me, and I shall recommend your medicine to all who suffer from female weakness."

—Miss FANNIE KUMPE, 1922 Chester St., Little Rock, Ark. (Dec. 16, 1900.)

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.

\$5000 FOREFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.
