

SEVEN HUNDRED JAPS BLOWN UP.

Russians Exploded an Electric Land Mine Right Under Their Feet While Marching.

ENTIRE COLUMN WIPED OUT.

Frightful Disaster Cunningly Brought About by the Aid of Electric Wires and Searchlight.

Chetov, Sept. 9.—A Japanese column, numbering approximately 700 men, while marching along at night on a road in the valley between Long Hill and Division Hill, met a frightful disaster through the explosion of an electric land mine Sept. 1. The mine was carefully laid by the Russians three weeks ago. It covered nearly a mile of available marching space. The explosive was placed at the bottom. Hocks were placed next, and on top of these clay was packed so carefully that the ground gave the impression of not having been disturbed.

The indications of Japanese activity in this vicinity put the Russians on guard. Near midnight the outposts rushed in and reported that the Japanese were approaching. The Russians withdrew their fire for some time, but they knew a bombardment on the valley. The Japanese opened with a few shots. The Russians continued to wait until apparently the whole Japanese column was in the danger zone.

Such was the case. The explosion knocked a number of Russians down, and the sign of Japanese rifles, water bottles, and some other things were scattered in all directions. The explosion was an awful one. Some of the Japanese were killed. The explosion was an awful one. Some of the Japanese were killed. The explosion was an awful one. Some of the Japanese were killed.

The following information is contained in a small report issued Sept. 4 by the fort at Novosibirsk. It states that the explosion was an awful one. Some of the Japanese were killed. The explosion was an awful one. Some of the Japanese were killed.

A cannon arriving here at midnight confirms the above, to the extent of saying that he heard a report that many Japanese had been killed by a mine, but he did not learn the details. On the night of Aug. 26 and 27 a similar disaster befell the Japanese near Redoubt No. 2. It is reported, but no details have been ascertained.
