# MINING, BUSINESS AND STOCKS.

# MARKET WAS BUOYANT TODAY.

Decided Improvement on the Mining Exchange This Morning.

VICTOR WAS THE FEATURE.

Sold Up to 67-Ajax Very Active-Century Stronger - Ben Butler Firmer.

Business was very brisk on the mining exchange this morning, and prices were more buoyant than they have been for a week or two. Over 63,000 shares of stock changed hands for the sum of \$50,306.62. Victor was the star stock in the pit and its record is one of meteoric brilliance. A few days ago it might have been bought for 25 or 28 cents a chare, but today it opened at 58 and soared to 67 before a halt was called. Exactly 24,000 shares changed hands during the call. Ajax was also a promduring the call. Alax was not being recording the feature, with sales being recorded from \$1.32 up to \$1.37%. Nearly 16.000 shares changed hands and the stock closed firm. Carisa was active up to \$1.52%. was active up to \$1.52\frac{1}{5}, while Con. Mercur sold up to \$2.36. Daly released 400 at \$2.90, while Eagle and Blue Bell opened at \$1.07 and climbed to \$1.10. Lower Mammoth showed signs of a reaction with one sale recorded at \$2.60. May Day was active between \$1.45 and \$1.43, while Sacramento dropped 1,000 at 22½. Star Con. hung around 35. Grand Central sold at \$4.00 on the curb.

# CENTURY IS LOOKING FINE.

Col. Dorsey Reports an 8-Foot Breast of \$30 Ore on 150 Level.

PAYMENT WAS MADE TODAY

Sum of \$35,200 Paid for Three Bing ham Claims-Hydro-Carbon Locations-Uncle Sam Improving.

Colonel G. W. E. Dorsey returned yesterday from a trip to Park Valley Mining district, which he reports to be short of miners owing to the unprecedented amount of activity in the various prospects in the camp. While away the colonel started work on the Mayflower tunnel which is to be run on the vein to develop the group of seven claims owned by the company. The property is located east of the Century The colonel is very enthusiastic about the Century, which is said to be looking much bigger than it appeared on a former visit. The most interesting showing is presented in the north drift where an eight-foot body of \$30 ore is said to be in sight. The stamps are being removed from the old mill to the new one which will be started up in a few days. At the same time the management is upraising from the lower tunnel to connect with the upper workings, in order to afford a more economical outlet for

the ores.

The West Century company has started a new tunnel to tap the vein intercepted in the upper tunnel. After running the tunnel in about 125 feet a winze was sunk in what is said to be good ore. Water was encountered, however, and in order to save pumping it was decided to run a lower tunnel. A great deal of work is being done at the Planetary, Globe, El Amigo Iowa and other properties, which has caused a shortage of men. The colonel says there is employment for more men in the camp. The Century Mer-cantile company has just opened its store which is well filled with miners' supplies and everything presages very active winter campaign.

#### MONEY PAID TODAY. Sum of \$85,200 Paid for Three

Claims in Bingham. deal was closed this afternoon which the Bingham Consolidated Mining company becomes the owner of the Olympia, Miner's Dream and Vanderbift claims in Bingham. The transaction, which involves the payment of \$35,200, was origiwas origi-Willard E nally made through Snyder, who with Mr. Farnsworth, eured and option on the ground and then turned it over to the Binghan, company. The owners are W. C. Hall company. The owners are W. C. Hall and W. C. Stayners, who received paymen: teday. The three claims paralle, the Dalton & Lark vein on the east and the property is also said to have the apex of considerable of the Brooklyn vein. Two chutes of good ore are being opened up which are yielding nicely. The put-chase by the company was made on the recommendation of Captain McVichie.

HYDROCARBON LOCATIONS. Decision of 1892 Still Governs Lo-

cators of Such Lands in Utah. Doubts have been expressed as to the manner of location of hydrocarbon lands in Utah and elsewhere. Some state that the deposits should invari-

ably be located as lode claims, owing to the fact that the elaterite and gilsonite deposits occur in fissure veins This view of the matter is taken by the department of the interior, though the decision states that if the deposit is broken up and the vein not in place the location would be that of placer claims. The rule governing the local land office is that land down in 1892 by the acting commissioner at Washington. Placer claims are there said to embrace all forms of deposit excepting veins of

quartz or other rocks in place. There have been several official definitions of what constitutes a lode or vein under the above section of the Copp's Land Owner, Vol. 1, page

83 says: "A vein or lode must be in place. If the ore body is continuous to the ex-tent that it may maintain that charac-ter, it is in place, whether deposited in that form, or moved to its position bodily with its inclosing walls, whether vein vein is thick or thin, is not ma-terial, so it is continuous. But if the territory is so broken up, jumbled and mixed, the several parts together, that there is nothing continuous, there is no lode in place." Nor does the character of the mineral deposit whether metalliferous or otherwise make and differ-ence, and if therefore, the hydrocarbon ence, and it therefore, the hydrocarbon actually exists in the form of a true continuous fissure vein, the land should come within the excepting clause of said section 2329, R. S. and be subject to location as lode claims only.

### Cheerful at Pioche.

The whistle on the Meadow Valley No. 3 hoisting works above town, after years of silence, announces to the happy miners that they must don their spermed pants and candlesticks, and again penetrate its rusty vaults, where lie deposited fortunes for somebody, says the Pioche (Nev.) Record. This mine and many others have been purchased recently by the Manhattan Mining company, and the vim with which its manager, Mr. E. F. Freudenthal, is purplies the work on the various mines. pushing the work on the various mines inspires faith in everybody. And with a president like Mr. A. B. Lewis, who is so successfully operating the Majestic, Imperial and Royal mines in the San Francisco mountains and in Frisco Utah, it will not be long before Ploche will be one of the foremost mining camps of the West. The smelter below own and the railroad to Jackrabbit are undergoing thorough repairs, and ere long their whistles will unite with those of the Manhattan company in ushering in the new boom.

Park City Items. A trip to the Little Bell was made by the Park Record reporter last week. Great activity is noticeable here on every hand, and the amount of progress made is surprising. Foreman Keetley started at the grass roots on the 6th day of August with a regulation the best remedyler Dierrheas. Zerit a bouts.

WHITE'S CREAM VERMIFUGE in essentially the child's tonic. It improves the digestion and assimilation of food, strengthening the nervous system and restoring them to the heaith vigor and elasticity of spirits natural to childhood. Price, 25 cents. Z.C.M.I. the 8th day of August with a regulation double-compartment shaft, each compartment of the winding from the 2th of the same month he was down a distance of sixty feet, discarded the windlass and began hotsting by steam. On the 29th of the month he was down an even hundred to childhood. Price, 25 cents. Z.C.M.I.

timbered at the 100-foot mark. There are at present forty-five men on the payroll. The great amount of work accomplished in so short a time demon-strates that Foreman Keetley is holding his reputation as a pusher and com-petent miner, and it will surprise no one to hear sensational reports from this property at any time.

#### Uncle Sam Improving.

Manager David Evans returned yesterday from the Uncle Sam, of Tintic, with very cheerful reports of the mine. In the opinion of Superintendent Roundy the property is greatly improved during the past week or two. New developmentso fa very encouraging na-ture are reported in four or five dif-ferent places and the outlook for the company is said to be extremely cheer-

Fourteen Inches of 20 Per Cent Ore During the present month the Columbia of Bingham has marketed three lots

of concentrates valued at \$2,303.52, one car of which netted \$1,028. Another two-car lot is on the way to market.

The property is being operated by leasers, one of whom is feeling very much elated over a strike in an upraise above the main level. He reports fourteen inches of ore in sight which averages 20 per cent in the red metal.
Preparations are being made to extract
the ore in the hope of developing a
much larger body.

### MINING NOTES.

Jesse Knight was in town today.

Four cars of ore were marketed today by the Carisa, of Tintic. The Daly West of Park City paid its monthly dividend of \$52,500 today. Supt. John A. Kirby of the Daly West

was a visitor to the metropolis today Joe Dedericks was at his desk today, after a slight illness of several days. Four cars of high grade copper matte vere sampled today from the Bingham

The Tiewaukee, of Bingham, reached the market today with a car of con-

The Taylor-Brunton sampler reported cars of ore from Tintic and 1 from Bingham today.

Manager Dusseldorf, of the Com-stock, was visiting that Thayne's canyon property today.

M. P. Gilbert has returned from the examination of some mining property in California and Idaho. P. L. Kimberly returned today from California, after bonding a large group

of mining claims in Shasta county for

The seat on the mining exchange oc-cupied by the late R. C. Chambers was sold for \$815. The purchaser was Mr. The shipment from the Galena of

Fish Springs was sold on controls show ing 65.5 per cent lead and 143.7 ounces silver per ton. Assays from a sample of rock from the Boston and Tintic ground at Silver City showed the presence of 39 ounces

silver and 6 per cent lead. Ed. Sheets has returned from California and intends entering into the stock business again with Mr. Thompson. They will handle only the business of some larger customers.

The Uncle Sam dividend of \$15,000 was to be paid today, though owing to a slight technicality in making the checks it was said it might be delayed until tomorrow.

The ore and bullion receipts for the past week amounted to \$559,700. In addition to this sum there is the ploduct of the Highland Boy and Bing-Manager J. T. McConnell of the Raven Elaterite company has returned from Vernal. He reports the Dyer smelter preparing for another run on

the high grade copper ores of the Dyer Manager A. J. Davis of the San Rafael Oil company's property near price, who has returned to town gives the same information regarding the company's well as that published in the

"News" a week ago. The well is about 740 feet deep. A flow of oil is not looked for under 1,200 feet. Tintic Miner: The Swansea Mining company has let a contract to William Hatfield, J. C. Sullivan and James Nolan to sink the main shaft 200 feet from the \$50-foot level. The company fur-nishes everything, and hoists the waste and water, and pays \$16 a foot. Until

the work is finished other operations underground have been discontinued. Tuscarora Times-Review: S. B. Milner, vice president of the Dexter-Tuscarora Mining company and one of its heaviest stockholders, accompanied by R. V. Smith, a well known cyanide ex-pert, arrived by stage yesterday evening. Their visit, as we are informed, is in the business interest of the company,

and will detain them here some eight Mammoth Record: Eastern parties have secured a lease and bond on the have secured a lease and bond on the Pioneer, a group of claims lying about seven miles southeast of Mammoth, near the old Copperopolis mill site and which has been worked for some time by Messrs. Hagen and Sheppard. It is understood that the bond calls for a payment of \$10,000, and that active development of the property will begin within thirty days. A shaft has been sunk to a depth of 109 feet, and considerable drifting and prospect work has been done. A fissure vein has been uncovered. lying between quartite and lime, from which assays as high as \$20 in gold and 1 per cent copper have been obtained.

## WIDE ADVANCES IN AMERICANS.

Their Strength in London Relieved New York Market.

A RUSH AT OPENING TO BUY

Country's Misfortune Had Already Been Discounted-No Diminution of Confidence of Buyers.

New York, Sept. 16.-The anxiety this morning in Wall street was relieved somewhat by the early cabled quotations of the American stocks in London showing wide advances in all American securities, reaching between 3 and 4 points in Atchison, St. Paul, United States Steel stocks and the Readings. This was taken as an indication that the country's misfortune had been already discounted in the operations of last week. At the opening here the extraordinary spectacle was presented of a rush to buy which carried prices up throughout the list, the principal active stocks rising from 3 to 6 points, the latter in Rock Island. The first stock quoted on the tape was Pennsylvania at an advance of 314 and the succeeding quotations told the same story of buoyant rise in prices. In some cases simultaneous purchases resulted in wide quotations on an upward course, the first prices varying from 1 to 11/2 in the cases of Amalgamated Copper, Union Pacific, Brooklyn Transit and some less conspicuous stocks. St. Paul, the Pa-cifics, the United States Steel stocks, Sugar, Atchison and some of the east-ern railroad lines led the advance.

The unexpected high opening induced large sales of stocks by holders who were disposed to liquidate until the fu-ture becomes more defined. The orders

by bargain-hunters to buy at the mar-ket price were fed by the supporters of the market and prices fell back abrupt-ly after the first few minutes. Some of the principal stocks lost a point or over and Amaigamated Copper, Brooklyn Transit and Sugar declined 2 points each. The decline had not proceeded far before sturdy resistance was encountered and prices retraced their up-ward course more, quietly, several among the grangers, Pacifics and spec-ialties rising above the opening.

There was a large absorption of all grades of stocks and bonds with a steady uplift of prices. St. Paul, Atchison, the Pacifics, Erie, Southern Railson, the Pacifics, Erie, Southern Railway and Amalgamated Copper exceeded former prices considerably, St. Paul rising to 160½. The Vanderbilts were buoyant, C. C. C. & St. Louis rising 5¼ and New York Central and the New York, Chicago & St. Louis stocks from 2¼ to 3. There was no apparent diminution of confidence by the buyers, Bonds were active and strong.

Prices fell back, but business decreased on the decline and the market steadled again. Missouri Pacific adstances of the confidence of the decline and the steadled again.

steadied again. Missouri Pacific advanced to 103, Colorado Fuel rose 5 and Consolidated Gas 4%. general buying continued confident under the stimulus of an absorp-tion of the Vanderbilt and Morgan tocks. Room traders bid up other caders very strongly. St. Paul reached 161% and the best prices of the day were reached for active stocks. Money was below 6 per cent. Shorts covered heavily all through the list. Various

fractive stocks made exceptional advances, including a 10 point raise in American Steel preferred. MONEY AND BONDS.

### CAPITAL PAID IN - - \$300,000. Banking in all its branches transacted. Exchange drawn on the principal cities of Europe. Interest paid on time deposits. A Thousand THE DESERET SAVINGS BANK Miles of Comfort.

There is not a piece of track in all America that is better built, safer, or easier to ride over than the Burlington Route from Denver to Chicago. A trip over it is the most not-able experience in the trans-continental journey. For more than a thousand miles you are transported at flying speed. Noise and dust are noticeably absent. If it were not for the landscape that rushes past at 60 miles an hour you would hardly believe you were moving. Through sleeping-cars for Chicago leave Sait Lake at 3:15 p. m. daily. Through tourist-cars Wednesday and Fridays. Glad to give you more information.
