

## BEGINS TO LOOK LIKE INTERVENTION

United States Sends Cruiser Des Moines South to be Near Havana.

### GOVERNMENT WANTS DETAILS

Administration Will Proceed With Great Deliberation in Dealing With Cuban Question.

Washington, Sept. 11.—It was officially admitted today that the American cruiser Des Moines, which sailed yesterday from Norfolk, had gone southward to Key West, with the ultimate purpose of proceeding to Havana. It developments within the next two days seem to warrant such action. At Key West the Des Moines will be about eight hours' run from Havana, and while waiting, Commander Halsey will be in close communication with the navy department prepared to carry out immediately any request from the department of state. There is no intention in this movement of the Des Moines toward partially toward one side or the other in the present conflict in Cuba. The ship will be at Havana to serve as an asylum in case of need, and be at the disposition of the American government.

In case the United States government finds it necessary to intervene in Cuban affairs under the provisions of the Platt amendment, forces which would have to be used for that purpose would be found in a much better state of preparation than when hostilities began between the United States and Spain. The long military occupation of Cuba by the United States troops afforded an opportunity to army officers to become familiar with the island and probably no portion of the earth is better known to the military authorities of the United States than the island of Cuba.

In addition to the familiarity of the army officers with the geography and general conditions of Cuba, all of the supply departments are better equipped. The critical situation in Cuba is absorbing the attention of the administration to the exclusion of all other foreign topics, as indicated by the activity of the officials. In the state, navy and war departments. The president at Oyster Bay is keeping in close touch with every development of the revolutionary movement in Cuba, and is in instant communication by wire with the officials here, who indeed are even in receipt of detailed instructions from him as to what they shall do. The prime object of the administration at present is to get at the details, which is no easy task. Particularly it is desired to know the precise strength of the revolutionary sentiment in Cuba and the relative powers of the government and the insurgents there. Mr. Morgan, the American minister to Havana, is understood to be hastening from Europe, where he has been on vacation, to the Cuban capital, and meanwhile Mr. Sleeper, the secretary of the American legation at Havana, is supplying the state department with a daily bulletin containing such facts as he is able to gather there. It is realized, however, that Mr. Sleeper is bound to accept the official rendition of the daily collisions between the Cuban troops and the insurgents in the field. He has no means of securing the rebels' statement of those same occurrences, and in the view of the officials here there is good reason to believe that the whole truth is not disclosed by either side. It is the purpose of the administration to proceed with great deliberation in dealing with the Cuban question, and it was said on the highest authority that there would be no intervention by the United States unless the rebellion assumed the proportions of a general conflagration. It was further stated that there had been no application from any of the foreign governments for the United States government to step in and preserve the peace.

### PALMA SUSPICIOUS

Havana, Sept. 11.—The government of Cuba now views with suspicion not only its political opponents but also many of those whom it has hitherto trusted as friends. The government, it is learned, has suspected for several days that the veterans' peace committee desired to turn their peace making into a practical liberal victory. The veterans deny this insinuation. They are all apparently sincerely interested for the moment, at least, in securing peace. When Gen. Menocal was questioned on the subject today he glanced at the clock and declared that he had hoped by that hour the whole matter would have been decided. He had a telegram from Pina Guerra expressing that leader's willingness to accept terms to which the government did not object.

Others among the veterans for peace said they were not joining the rebels, or thinking of doing so. They said the cause was not hopeless, inasmuch as the insurgents were willing to negotiate. Rumors are persistently rife that the government was assured of the backing of the United States before the issuance of the fresh declaration of war.

### WILL ACT VIGOROUSLY

Havana, Sept. 11.—Concerning the present attitude of the government and the decree issued by President Palma, Gen. Rafael Montalvo, secretary of public works, said today: "The government has been entirely too lenient with the rebels. Our desire to avoid bloodshed has been mistaken for vacillation. The suspension of constitutional guarantees was necessary to effect the arrest of several senators and congressmen who form the central revolution committee in this city, and whose actions have been closely watched lately by men of the secret service."

As rumors that the rebels proposed attacking Havana, Gen. Montalvo said there were but a few small and unimportant bands on the outskirts of the city, and no large force near Havana. This city itself was amply protected.

"Aggressive action now will be be-

## A NERVOUS WRECK.

DR. WILLIAMS' PINK PILLS SAVED MRS. GREEN'S LIFE.

She Gained 26 Pounds in Weight and Can Now Walk and Work.

General debility is a term that covers a multitude of cases where there is no acute disease, yet the patient continues to lose strength and the doctor's medicines have no apparent effect. This is the decline that leads to death if means are not found to check it. In a great majority of cases Dr. Williams' Pink Pills will check it and restore health and strength because they actually make new blood and send renewed vitality to every organ and tissue of the body.

Mrs. S. A. Green, whose address is Box 29, R. F. D. No. 4, Franklin, Ga., says: "For three and a half years I suffered with weakness and nervousness, complicated with stomach trouble. At times I was confined to my bed for periods ranging from three weeks to two months and was under the physician's care most of the time for three years. I do not know the cause of my trouble but I was prostrated with weakness and, although I took a great deal of medicine, nothing seemed to give me strength. At times my stomach hurt me something fearful and my head often troubled me. I was sleepless and what sleep I did get did not refresh me."

"When I began taking Dr. Williams' Pink Pills I weighed but 104 pounds. I knew I was so bad that a few doses would not cure me and I had patience. Soon the pills began to give me strength. I could sleep well at night and help some with the housework. Now I weigh 130 pounds and think nothing of walking half a mile. Dr. Williams' Pink Pills have done wonders for me and my neighbors all know this statement is true."

Dr. Williams' Pink Pills actually make new blood. That is all they do, but they do it well. They don't act on the bowels. They won't cure any disease that is not caused by poor blood. They cure anemia, rheumatism, headache, neuralgia, and many forms of weakness in the most direct manner and, as the nerves depend upon the blood for nourishment, they strike at the root of such diseases as neuritis, sciatica, neuralgia, and have been used with the greatest benefit, even in cases of locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail, postpaid, on receipt of price, \$3 cents per box, six boxes \$2.50, by Dr. Williams' Medicine Co., Schenectady, N. Y.

gun," Gen. Montalvo concluded, "against the rebels in Havana, Santa Clara and Pinar del Rio. The Cuban government has been in communication with Washington, or has been consulted in any manner. Government officials say the administration is capable of coping with the situation."

The following persons were arrested today: Ex-Congressman Dr. Malberry, Clerk of the House of Representatives Felipe Gonzalez Sarrafin, Gen. Se Cadex and ex-Mayor of Havana Juan Ramon O'Farrell, who was ousted from his position by Gov. Nunez to make room for a moderate successor.

What appears to be positive confirmation has been received of the report that Alfredo Sayas, president of the Liberal party and a prominent volunteer of Havana, is among the group of Cuban senators who have joined the insurgents under Havana.

The mayor of Maron, the province of Puerto Principe, reports a fight in this vicinity of rural guardsmen and volunteers with a band of rebels. The latter were dispersed. The casualties are not known.

All the men remaining in the towns of San Jose and Las Ojas near Cienfuegos, have joined the rebels. Baldemero Acosta, a prominent resident of Havana, joined the rebellion today with 100 followers, and started for El Caeo, in Havana province. The stock market showed a serious falling off in prices today.

### SEGAL'S PECULIAR FINANCIAL METHODS

Philadelphia, Sept. 11.—Receiver Earle's plan for the reorganization of the wrecked Real Estate Trust company will be mailed to the 5,000 depositors tomorrow. U. S. Atty. Bell today stated that he had discovered additional evidence of Segal's peculiar financial methods. Five issues of mortgage bonds were made by Segal on properties known as the Standard Iron & Steel company, the Champion Iron & Separator company and the American Swedish Crucible Iron company. The first mortgage for \$250,000 was increased by four additional bond issues to \$3,000,000, each succeeding issue being made without the previous mortgage having been canceled. Checks signed by O. S. Clark, secretary of the Champion Iron company, were found and the district attorney says he will endeavor to learn what Mr. Clark knows, if anything, concerning these transactions.

### ZION CITY FINANCES

Chicago, Sept. 11.—John C. Hatley, appointed receiver of Zion City pending litigation in the federal courts made his first official report to the court today. He declares the liabilities of the city as shown by the books aggregated \$8,125,018. The quick assets are estimated in the report at \$372,054, and the slow assets at \$2,154,427.

### BIG BANK ROBBERY

Akeley, Minn., Sept. 11.—The bank of Akeley was broken into at 2 o'clock this morning by three robbers and \$10,000 in currency carried away. The safe was blown to pieces with nitroglycerine.

### SHOT FROM AMBUSH

Ardmore, I. T., Sept. 11.—Al Chook yesterday James Martin, a stockman, was shot and killed as he was riding along the highway. It is alleged that trouble with stockmen was the cause of the tragedy.

The opening session was characterized by great enthusiasm, long continued cheering and applause greeting especially the name of Mr. Hearst and the utterances of speakers which touched upon the freedom of the ballot, the permanence and truth of the principles of the Declaration of Independence, the revolt against bosses and the alleged frauds in the last New York city election.

Willard A. Glenn of Syracuse was selected as temporary chairman, and delivered a speech in which he denounced corporation influence in legislation. He referred to Alton B. Parker, Mayor McClellan and ex-Congressman Lemuel E. Quigg as "political firebrands" representing corporate interests headed by Thomas F. Ryan and August Belmont, which statements were greeted with long continued groans, hoots and hisses.

The executive committee of the state committee met at the Gilsey house this morning, arranging the last details of the first meeting of the convention. It was given out that the committee-

## WHERE DO THE PRESIDENT GET IT?

Mr. Bryan Says He Got His Rate Bill Idea From Democratic Platform.

### THE RAILROADS IN POLITICS.

Declares They Have Been the Most Corrupting Influence in it for Last Twenty Years.

St. Louis, Mo., Sept. 11.—A tremendous ovation was tendered William J. Bryan by the 12,000 people gathered in the Coliseum tonight when he stepped upon the platform and took his seat. With one accord the audience rose, waved flags and shouted until the strains of "America" by the band were drowned out. The cheering was continued for four minutes, and was finally silenced by National Democratic Committeeman William A. Rothwell, who started to make a speech of introduction. Chairman Rothwell thereupon cut short his speech and presented Mr. Bryan with a wave of his hand.

Mr. Bryan motioned for silence with a palm fan. Mr. Bryan said in part: "Mr. Chairman, Ladies and Gentlemen—It's warm enough when you keep still. I don't want you to increase the misery by exertion. You have cheered enough to cheer my heart, and I am glad to be here. I have been trying to find home for more than a week, and I have found it so homelike everywhere that I can hardly tell where I live. I have always suspected that Missouri felt friendly. She has shown it on many occasions, but never more so than tonight."

"I want to show you it is better to trust the Democratic principles to the Democratic party than to trust them to any man whose party denounces him for following them. I want to remind you that the most popular act of Mr. Roosevelt's administration was his bringing peace between two nations. He settled the coal strike after a loss of \$59,000,000 to employers, employees and the public. It was a grand act. I speak of him for 100 years where did he get the doctrine—in the Republican platform? He got it from the Democratic platform, and I wrote the plank myself. If he could gain popularity by settling one strike that cost \$59,000,000, why might not our party have some credit for proposing a plan which, if put into a law, would have made the strike unnecessary?"

"Why has not the Republican party followed it up by making a national law that will make it unnecessary for a man to starve his wife and children in order to get justice? If the president can become the only popular man in the Republican party because he does something spasmodically along Democratic lines, what would be the popularity of the man who does something and has always been a Democrat? Where did Mr. Roosevelt find his mandate for his action regarding the rate bill? He had to go to the Democratic platform. The most important part of the Elkins bill is the penalty sentence for its violation."

"The railroads have been the most corrupting influence in politics in the last 20 years. By the use of passes the railroads have packed conventions. This law was suggested by the Democratic party. I shall soon have occasion to talk on railroads again, but I want tonight to impress upon you that the railroad resolution was the production of the Democratic party."

"The president has now been in office almost five years. How many trusts have been in the penitentiary? We have a great many trusts in this country violating the law. My friends, I ask you to figure out, on the basis of the number of trust magnates imprisoned during the last five years, how many generations will it take to solve the trust question."

"My friends, if these things prove to you that Democratic forethought is better than Republican forethought, would not it be better to vote for Democrats than for those who have followed at the tail end of the Democratic procession?"

Mr. Bryan left for Louisville at 2 a. m.

### DELAWARE FOR BRYAN

Dover, Del., Sept. 11.—The Democratic state convention today nominated the following ticket:

Congress—David T. Marvel, Wilmington.

Treasurer—Robert H. Wilson, Dover.

Auditor—Kendall M. Wiley, Bridgeville.

William J. Bryan was endorsed for president.

### HEARST'S INDEPENDENCE LEAGUE CONVENTION.

New York, Sept. 11.—The first state convention of the Independence league, of which William Randolph Hearst of New York is president, was called to order at 1 p. m. today by Max F. Himm, chairman of the league's state committee. The long and important night session of the state committee with its controversy over the question of nominating all or any candidates, or of waiting the action of the Democratic state committee and the continuation of the morning of the debate on that vital question, delayed the opening of the convention which was called for noon. It was expected when the convention came to order that this afternoon's session would be comparatively short and perfunctory, confined to preliminary organization and the appointment of committees; that it would adjourn until this evening, and that the closing session would be held tomorrow evening without day sessions tomorrow.

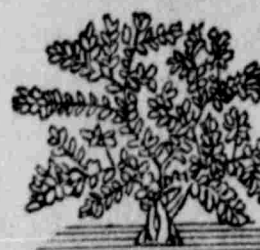

The main entrance to the hall was liberally decked with flags, and in side the hall was a mass of American flags. The front of every gallery was draped with them and the stage was fairly ablaze with the national colors. At the back were the arms of the state of New York surrounded with spread eagles and flanked on right and left by large portraits of Washington and Jefferson.

The opening session was characterized by great enthusiasm, long continued cheering and applause greeting especially the name of Mr. Hearst and the utterances of speakers which touched upon the freedom of the ballot, the permanence and truth of the principles of the Declaration of Independence, the revolt against bosses and the alleged frauds in the last New York city election.

Willard A. Glenn of Syracuse was selected as temporary chairman, and delivered a speech in which he denounced corporation influence in legislation. He referred to Alton B. Parker, Mayor McClellan and ex-Congressman Lemuel E. Quigg as "political firebrands" representing corporate interests headed by Thomas F. Ryan and August Belmont, which statements were greeted with long continued groans, hoots and hisses.

The executive committee of the state committee met at the Gilsey house this morning, arranging the last details of the first meeting of the convention. It was given out that the committee-

meeting had not touched on the subject of whether or not to recommend any action on the position of fusion with the Democrats. The state committee last night referred to the committee on resolutions to the committee on the subject of fusion with the Democrats.

The sentiment of the delegates today seemed to favor the naming of a complete ticket by the Independence league. If the Democrats then should choose to endorse the league's principles and its ticket, the delegates who were most outspoken on the subject declare they would be glad to welcome the Democrats as individuals at the polls.

### GERMAN MILITARY MANEUVERS CONTINUE.

Eigenitz, Prussia, Sept. 11.—The military maneuvers were continued today, and in the first light of the morning the foreign observers saw from a commanding hill top the vast military panorama unfold itself over a great sweep of level country.

Emperor William and his guests arose this morning at 3 o'clock. They had breakfast on a special train and arrived in the neighborhood of the Tera, where the maneuvers were in progress, at half past 4. After a gallop held at half past 4. After a gallop through darkness of early morning, they reached high ground on the Blue side at dawn. Several hundred pieces of artillery already were in action, shelling the Reds at a distance of from 3,000 to 4,000 yards. No Reds were visible, but along the horizon the observables could see the flashes of their guns in reply. Thirty thousand Blue infantrymen, who had been marching since 1 o'clock in the morning, began deploying on the wide stretch of morning mist, where fields lying below the Blue batteries. This force debouched in seven columns. Companies and battalions, availing themselves of fences, depressions in the rolling country, road embankments and other natural or artificial cover advanced against the ridges sparkling with the fire of their invisible adversaries. As the Blues advanced the Reds retired and their cavalry were theoretically captured. The roads for miles behind their positions were crowded with guns, infantry and baggage trains. At the end of four hours of firing and pursuit the umpires called a halt.

Emperor William called attention to the fact that the Blue infantry seemed to be greatly distressed as a result of its prolonged march. The eleventh division covered 34 miles in full field equipment, which means that each man carried 55 pounds exclusive of ammunition. His majesty personally inspected several battalions and talked with the men. Instead of remaining with the imperial party, the American officers rode widely over the field, observing for themselves at first hand the appearance and conduct of all arms of service. In company with the other foreign visitors, the American dined with the emperor tonight at Breslau castle. Emperor William bivouaced in the field.

### STEVE ADAMS DISCHARGED AND THEN RE-ARRESTED.

Boise, Ida., Sept. 11.—Today Steve Adams was discharged on the fugitive warrant issued last week and on which he was arrested when he was released on habeas corpus proceedings. He was immediately rearrested by Angus Sutherland, sheriff of Shoshone county, this morning, on a charge of murdering a man named Tyler on the St. Joe river, in August, 1904. The sheriff placed him in the penitentiary for safe keeping, until he can make arrangements to take him north.

### STOCKMAN MURDERED.

Muskegon, O. T., Sept. 11.—Cleof Davis, a wealthy stockman, was killed by an unknown assassin four miles east of Porum, I. T., today, being shot from ambush while going along a road near his home.

### BATTLE WITH BURGLARS.

Oakland, Cal., Sept. 11.—Jacob Medo, who conducts a restaurant in San Francisco and who lives at 1033 1/2 Chester street, Oakland, returned to his home, and when he entered the door was set upon by two burglars and given a terrible battle for his life, finally being forced to flee from the house to prevent the men killing him. During the scuffle Medo struck one of the robbers over the head with a porcelain
