Tells Why the Sagebrush State Has Become the Pug Center.

THREE REASONS ARE GIVEN.

They Are: State Permits, People Support the Game and There is Plenty of Coin.

The following article, written at Tonopah, Nev., is from the pen of "Wally" Young of this city:

That this particular section of Nevada-"the heart of the land of gold," they are pleased to style it, and a very pretty designation it is, too-will become within a few more months the recognized fight center of the world, is patent to anyone on the ground with his eyes open. In fact, it is not an ex-aggeration to say that right now this new world of wealth holds the fistic tuation more tightly in its grasp than did San Francisco when the game was

did San Francisco when the fire, good-before the fire, The reasons? There are three. The state permits finish fights. The people state to support the fights. They state permits mish lights. The people are here to support the fights. They have the money to support the fights. Can you beat the combination? People interested in the gentle art of

jabs and uppercuts were amazed when Tex Rickard and a small corps of enthusiasts offered a purse of \$30,000 for a finish fight between Joe Gans and Battling Nelson at Goldfield. They figured it as a spasmodle effort on the part of some topheavy miners to get rid of their money. The battle drew \$69,000. "It The was an exceptional attraction," monopolists of wisdom remarked. They were right, it was. At the same time, exceptional though a combat between these two premiers of puglilsm was, isn't it something to wonder at that they should draw into a gate so much money in a newly settled section of a mate which the Union, for years before the discovery of gold, was sorry was not a territory? There are live people here. They

know what they are doing at every re-sounding tick of your Ingersoll.

INDICATIONS OF GOLDFIELD PURSE.

There was nothing spasmodic about that Goldfield purse. There was a great deal, however, that was signifi-cant. It indicated, simply, that here is a bunch of men with the money to pay for a good fight and willing to pay

it. Right on top of the Goldfield offer came a \$20,000 purse for the Gans-Her-man fight, to be held here on New Years day. This fight, as indicated by the difference in size of purse, does not, it must be admitted, hold the same interest that the fight with Nel-son held. At the same time, anyone conversant with the game knows that Herman is a tough boy and has a bet. Herman is a tough boy and has a better chance with Gans than any other lightweight-outside of Nelson, possi-bly, and he, after taking every advantage of the colored lad that the whip-hand could procure, was unable to do better than is disgrace himself by losing a bitter fight on a dirty, intentional foul.

The people in this section of the country have seen Gans at his best. They have seen him fighting on the

beginning to believe that he has more than a soou chance with thans, five big Casino pooroom for two days to be get on merman at 2 to 1, and there were no takers, the Gans people want beiler oaus. What does that mean ?, PUBLIC GENERALLY LIKES COL-

ORED LAD.

Simply this: These people here have seen Gans fight and they like him. They nave also seen Herman work and they are beginning to think. Herman has youth and ruggedness and strength and more than a bit of cleverness. He has a tear-in style somewhat like that of Tommy Burns. Hurns the deniesd short-ender "a somewhat like that of Tommy Burns. Burns, the despised short-ender, "a joke," made the "invincible" Jack O'Brien look foolish only a very short time ago. Perhaps—there is always a perhaps—there is always a perhaps—therman will prove him-self to be the Burns of the lightweight class, except that he has more class than Burns aver dreamed of having. class, except that he has more class than Burns ever dreamed of having. After this big battle Manager Mike Riley has other things in store for the men with money who live here—and also the men with money who care to come here to see the best to be had in a fistic way. In the spring he will hold a fistic carnival in his new per-manent pavilion—built for this Gans-Herman fight. There will be three championship battles. And there will be pienty of money to handle the fies. ta adequately.

I have a great deal of neuralia around the heart, and the Pain Pills also relieve that. I now take them when I think I will have an attack, and they stop it right then. Treasures Found in **Our American Forests.**

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most emine medical writers and teachers of this and other countries. Even the untrooted Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal discases, if we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affec-
