TINTIC MINING NEWS.

Movements of Ores Amounted to 118 Cars Last Week.

Special Correspondence. Eureka, April 5.-The shipments from Tintic district last week amounted to 118 cars. The shipments will increase from now on, as the roads are drying up and more ores can be freighted to the railroads for shipment to the valley smelters. The classification of the cars shipped this week are as follows: Bullion Eeck 1, Centennial Eureka 26, Carisa 1, Dragen iron mine 18, Eagle & Blue Bell 4, Grand Central 34, Gemins 6, Lower Mammoth 6, Mammoth 16,

Victor 6; total 118.
Thomas Mansfield has taken charge of the Apex property, filling the post tion as superintendent made vacant by the death of Charles L. Barnett.

The Northwest Mining company and Laguar Mining company have consolicated their interests, and active devel-orment work will be commenced through the Dagmar shaft which has already attained a depth of 125 feet. Preparations are being made to de-velop the George A. MAMMOTH'S ORE BODY. New Disclosure in Mine Samples \$55 to the Ton.

Several weeks ago when the east fisaure was cut in the Mammoth mine, it was predicted that a new ore system had been opened that would rejuvenate the old producer. Recent develop-ments substantiate the claim that was made for the property at that time. several weeks the management has been marketing an excellent grade of gold quartz from that territory. The crosscut has penetrated the ore body on the 1,500-foot level a distance of four sets of timbers, or twenty-eighth feet. Careful sampling shows the entire stope to contain \$55 a ton, principally in gold, and there is as yet no indica-tion of a wall. Burleigh drills are rapiely pushing a connecting drift on the 1,790-foot level, and when it reaches the ere, which should be within a day or two, stoping operations will commence in carnest. The mill will also resume operations within a fortnight, it is expected, and within three months "Young Sam" McIntyre, who has made an excellent record in the managemen of the property, expects to see the red ink balance at the bank wiped out altogether.-Tintic Miner.

Among the arrivals in the city yesterday from Boise were Sam T. Godbe.

A. H. Godbe and H. A. Smith, who had been on a trip to the Neal district, where they went for the purpose of conducting an examination of the Gold Eagle and Dalsy properties.

Advices received from the Idaho capital state that the gentlemen have consided a deal in which the Messrs. concluded a deel in which the Messrs. Godbe figure as purchasers. The nearest to a confirmation of this report today was an admission that the matter was pending.

THE MAJESTIC SMELTER. Construction Work is Progressing

Very Favorably. Recent weather has been more favorable for smelter construction and more rapid progress is being made on the Majestic plant. Work is to be com-merced at once on the big dust flue and stack, which is not included in the Colorado Iron Works contract, but a part of the Majestic company's work The dust flue will be 200 feet long double compartment, fourteen feet wide and nine feet high, and the smok stack at the end will be ninety feet high. The smoke and fumes from th furnaces are passed through this flu pefore reaching the stack, and the val ues that pass off in the fumes are orecipitated in the dust chambers.

the Milford Times is authority for the statement that James Chipman and several Richfield citizens have been negotiating for the purchase of the Wild Bill mine near Milford.

The shipments of ores from Park City last week amounted to 4,291,520 pounds, as follows: Daly-West with 2,116,000 pounds; Ontario, 116,000 pounds; Silver King,1,817,520; Zinc plant, 200,000; Daly-Judge, 42,000.

Charles Butters of the Butters plant made a significant remark at the banquet the other evening, the occasion being the starting of the Reidler pumps. Mr. Butters said that he expected to remain on the Comstock for at least twenty years. As Mr. Butters' plant extracts the values from about 500 tons of tailings per day, it is plain to be seen he expects the new era to be the work-ing of low grade ores and waste dumps.
