BY TELEGRAPH PER WESTERN UNION TELEGRAPH LINE. AMERICAN. Sudden Death of Vice-President Thomas A. Hendricks. HDIANAPOLIS, 25.-Hon. Thomas A. Hendricks, Vice-President of the ited States, died very suddenly at his residence in this city, at 4.45 this evening, under circumstances that were particularly distressing to his

family and friends, insomuch as they had not anticipated a fatal termination to his brief illness and nobody was with him when death came. He returned from Chicago last Saturday and since then had been complaining some what of pain in h's head and breast, but nothing serious was thought of it. Last night He and Mrs. Hendricks attended a reception at the residence of lon, John J. Cooper, secretary of the State, returning home in their car-riage about midnight. Hendricks had aken off his heavy clothing he usually wore and put on a dress suit of lighter naterial and before he got home complained of chilliness and a certain degree of exhaustion, but attributed it to instarial influence. He sat by the fire for an hour or more before retiring, but declined to send for a doctor, although urged to do so He slept restlessly until about 3 o'clock this morning, when he wrose, dressed himself and ate a hearty breakfast, Saging he felt much better and intended to attend to considerable at his house. Mr. Hendricks was very charitable, and calls on him for aid and intended to attend to considerable arose dressed himself and attend to considerable and intended to attend to considerable and intended to attend to considerable and intended to attend to considerable attable, and calls on him for aid area from unbeeded. For delayed business during the day. He and Mrs. Hendrick's walked out for nearly half an hour and he had apparently regained his physical vigor and cheerfullness. An hour later however, he began to be troubled with pains in the region of his stomach and Mrs. Hendricks sent for the family physican, Dr. W. C. Thompson, a life-long and confidential friend of the Vice-Presi-dent. As the pains in the stomach continued to increase, he was given an emetic and afterwards an injection and relief came in a natural way. He arose from his bed, in which he had lain only a few minutes, and read the morning papers, talking cheerfully with his wite and an old house servant. Just before noon, he had a relapse, however, and the physician was again summoned and administered the usual remedies, besides bleeding the patient, and Mr. Hendricks again expressed himself as being greatly relieved. He remained in his room all the afternoon, occas-ionally rising from his bed to which he

were in striking contrast with the sad scene within. Dr. Thompson says that in his opinion Mr. Hendricks died of paralysis of the brain and there will probably he a post mortem examinaion to establish what the disease was For several years he had not been robust man and was subject to "bad spells" as he called them, during which sometimes, he would be prostrated for days at a time. About two years ago he was confined to his room or several weeks by a gangrenous af-

fection of the foot which, at times, h was feared, would result in bloodpoisoning and it was then thought that the end of his life was near at hand, but he apparently entirely recovered from this and was in his usual health. While in Washington, during the last session of Congress, he was overworked and almost worn out by the press of political matters, and upon nis return home he signified his intention of laying aside all public business this summer and devoting the time to

recreation. He spent three weeks at Atlanta City, fishing, bathing and yachting, and then came west and went
