AMONG THE LADIES

The brilliant, fascinating tints of Complexion for which ladies strive are chiefly artificial, and all who will take the trouble may secure them. These roseate, bewitching hues follow the use of Hagan's Magnolia Balm—a delicate, harmless and always reliable article. Sold by all druggists.

The Magnolia Balm conceals every blemish, removes Sallowness, Tan, Redness, Eruptions, all evidences of excitement and every imperfection.

Its effects are immediate and so natural that no human being can detect its application.

EASTERN.

Eastern Opinion of the San Francisco Trouble.

NEW YORK, 27.—At a meeting of the central council of the Greenback Labor party, of Brooklyn, last night, the following preamble and resolutions were adopted, which are fair samples of the action of similar bodies throughout the east:

Whereas, We feel called upon to express our sentiments upon the dastardly attempt to assassinate the Rev. I. S. Kalloch, Workingmen's candidate for mayor of San Francisco, by the desperate editor of the *Chronicle*, Chas. De Young; and,

Whereas, We recognize in the act of this representative and hired tool of corrupt influences that have ruled and ruined California, an outrage against free government, execrated by all law-abiding citizens; and,

Whereas, We hail with honest pride and unbounded satisfaction the judicious counsels of Denis Kearney in restoring and guiding the just anger of the citizens of that city to the prompt obedience of the law; therefore be it

Resolved, That we extend our heartfelt sympathy to the Workingmen's party of California in its present great trial, and fervently trust that the murdering attempt will only serve to more strongly unite them in the work for success in their noble principles, and that it will be gloriously and decisively answered on election day.

Resolved, That, we pledge our united co-operation, our means and our lives to the success of the grand work which they have undertaken in educating the industrial classes in America to a knowledge of their rights.

The *Evening Post* says the San Francisco *Chronicle*, speaking for the DeYoungs' extenuates its publication against Kalloch's father on the plea that there was a kind of clerical blunder in its office. Nevertheless it does not appear that it retracted the obnoxious and slanderous dispatch, and on the contrary one of the De Youngs is quoted as saying that after the publication the charge had to stand. What an exalted notion of journalistic responsibility that a false and slanderous charge be admitted by a culpable carelessness into the columns of a newspaper, and is to go uncontradicted simply because it has been spread abroad in type. If the DeYoungs can offer no better excuse than this, the best advice for them is to keep quiet. On the contrary, however, there is reprinted this morning from the *Chronicle* two or three columns of pleas in abatement, in which all the various details which led up to the tragedy are rehearsed to justify the deed. The theory that slander is to be punished by cold-blooded murder at the hands of a journalistic desperado, would be a novel one in an enlightened community, but in San Francisco there seems to be no moral restraint on the practice of libery in a leading newspaper. These are, after all, symptoms of a social disease in that turbulent and half organized community which carry their own explanation of a disgraceful cause and bloody effect.

Business Report from the Custom House.

The clearing house exchange for the week ending August 23d, according to the *Public*, are smaller outside of New York than those of any other full week for four months. Still there is a large increase in comparison with the corresponding week last year, though not so large as has been observed in several recent weeks. Exchanges at all the cities, New York included, fall short by more than $100,000,000 of the high water mark of May, but are nevertheless larger by 3-62 per cent. than those of the corresponding week last year, a portion of the gain here being due, as usual, to the greater activity in speculation. Outside of this city, the most notable feature is the unprecedented gain of 55 per cent. at Boston, exchanges there being the largest reported in any week thus far this year, excepting in one week of April. The increase at Philadelphia is also very large. On the other hand; any decrease whatever at Chicago seems extraordinary, and losses at San Francisco, Milwaukee and New Orleans, though doubtless due to usual causes, are especially large.

The comparison is moderately favorable on the whole, and it is pleasant to see continued and vigorous improvement in the great iron interest reflected in the transactions at Philadelphia and Pittsburg. For midsummer reports, they will do very well. It does not indicate that any alarming stringency of money has penetrated from the vicinity of the New York Stock Exchange to any of the other cities.

Metropolitan Items.

Two United States officers sailed yesterday on the *Arizona* for Alexandria, Egypt, to bring to this country the obelisk called Cleopatra's Needle, sister to the one recently set up on the Thames Embankment, London, and which is expected to arrive on January 1st.

An explosion of the boiler of the tug *Essex*, early this morning, wrecked the boat and killed Leonidas Fuller, fireman, and Joseph E. Laffay, engineer.

Major Harlee, of Poughkeepsie, in business in this city, has failed; liabilities about $100,000: $50,000 secured.

Capital Gossip.

WASHINGTON, 27.—The Secretary of War has reviewed the proceedings and findings of the court martial of January 10th, 1864, by which Surgeon General Hammond was dismissed from service, and recommends the finding and sentence be annulled and set aside, and that in accordance with the authority conferred by the act of March 15th, 1878, the name of Hammond be placed on the retired list of the army as Surgeon General without back pay, present or future pay or allowance of any kind whatsoever. The recommendation of the Secretary of War has been approved by the President.

The Treasury Department purchased to-day 670,000 ounces of silver bullion for the mint at Philadelphia. Offers for delivery at the Western mints were above the market rates and all declined.

The decision of the Attorney General relative to arrears of pensions affects about 15,000 soldiers in the different homes. The amount involved is $1,500,000.

Sherman's Speech.

CINCINNATI, 27.—Secy. Sherman visited the Merchants' Exchange to-day and made a speech explaining his action in extending the time for the payment by National banks of the proceeds of the sales of four per cent. bonds. He was fully convinced that his action had prevented serious injury to business, and the refunding operations have uniformly been conducted with the purpose of interfering as little as possible with the money market. He gave figures and facts showing the operations and the effects of the redemption of called bonds to justify his action. He concluded by stating that this was not done to relieve the banks or to help anyone. He denied that he ever had been or was interested in any bank. The assertion that he was, was simply false, and made without foundation or excuse. It was a political sensation. The reason the unsettled accounts are with the First National Bank of Commerce, New York, is because the Bank of Commerce made the $40,000,000 subscription closing the 5-20's, and the First National Bank made the subscription of $121,000,000, closing the 10-40's, and these being the last subscriptions are naturally the last drawn upon. Said he: Had I continued to drain the money market of legal tenders and to hoard them in the Treasury to await the presentation of called bonds, the clamor would have been much louder and much more just. I did exactly right in the order of the 13th of August, and stand by it, and now under it the loan accounts are being rapidly closed without any disturbance in the money market. If the clamor will only induce holders of the called bonds to send them in for payment, I would be greatly rejoiced.

Murder Caused by a Lawsuit.

ST. LOUIS, 27.—Sam. H. Pemberton and Wm. Roberts, residents of Walpole, Ill., were assaulted yesterday while returning from the county seat, where they had had some difficulty about a lawsuit. The theory is the difficulty was the cause of the murder.

Partly Returned.

The police of New York have recovered $5,500 expressed from here to Trenton, New Jersey, by Wm. K. Bell, receiving clerk in the American and Kansas Pacific Express office, in Kansas City, who absconded with $6,000.

Yellow Fever Notes.

NEW ORLEANS, 27.—Dr. S. M. Bemiss reports to-day officially, to the board of health, that General J. B. Hood and daughter, Lydia Hood, 10 years old, are both down with yellow fever, on Third, near Annunciation street. The child was taken sick yesterday, and the General this morning. Dr. Bemiss, the family physician is in attendance.

Memphis, 27.—There were three new cases this morning, and six deaths. Among the whites was James Roosa, a well known wagon manufacturer, who died six miles east of the city on the Raleigh road.

The weather continues to grow warmer.

There were 22 cases in all to-day, 10 white and 12 colored. The thermometer ranged between 65 and 88.

WESTERN.

Kalloch's Condition.

SAN FRANCISCO, 27.—Kalloch's condition is reported by his physician as satisfactory, and if inflammation does not set in, he will be considered in a fair way to recover.

Murder in Arizona.

A dispatch from Fort Thomas, Arizona, says: Hines, deputy constable was killed here while trying to arrest J. B. Collins, a merchant. A party of nine men from Safford, have Collins, his clerk and Justice Mann in custody. Fears are entertained for their safety.

FROM THE FAR WEST.

China and Japan News.

The steamer *Oceanic*, from Hong Kong *via* Yokohama, has arrived.

Hong Kong, 13.—The W. U. ship *Shah* missionary case which for the past year has attracted much attention, is finally decided at the British court, Shanghai. The missionaries complained of the alleged outrage of a mob near Foo Chow, declaring that their property was wantonly destroyed and premises invaded. The Chinese claimed that missionaries had aggressively encroached upon the native temple grounds, until the populace was aroused to violent measures. The Chinese confidently submitted the case to the English tribunal, and the result is a complete vindication for them and overthrow of the whole missionary position. The suit is considered important as establishing precedents for similar affairs.

Corea still endeavors to retard Japanese intercourse, but Japan firmly maintains the position guaranteed by treaty. The hasty acts of individual Japanese, however, are strongly reprehended.

Attempts are made to instigate China to angry demonstrations against Japan on account of Loo Choo differences. The agency of the British is plainly apparent, and not, indeed, disguised.

Representatives of European powers generally have suddenly issued notifications requiring their countrymen to observe and obey Japanese quarantine regulations. It is feared, however, that concessions comes too late. It is impossible to overstate the exasperation of the Japanese. They feel and declare that solely for the maintenance of a paltry false principle of diplomatic dignity, plague has been let loose upon the people of this part of the country. Only one foreign representative, the American, has recognized Japanese right from the beginning. The British envoy has led all others in opposition, and the ground assumed by him is that the Japanese privilege of excluding foreign ships, on any plea, must never be acknowledged. If the government apprehends peril from epidemic, he claims that foreign envoys must be appealed to, and that it is for them to decide whether steps be taken to prevent the entrance of disease. The irritation of the government and people is more intense than ever before. In addition to United States Minister Bingham and General Grant, Governor Hennessy, of Hong Kong, lately visiting there, strongly supports the Japanese.

A document is published by authority of the department of finance presenting a scheme for the total liquidation of the public debt in 26 years. The plan is elaborately wrought out and is recognized by financiers as practical and effective if the primary condition of peace is ensured. The finance minister makes no claim to infallibility for his project, but places it on record as the result of his experience and study to stand guide and aid for his successors. The details are already put in operation for the present year.

Grant has returned to the capital, and started on a new excursion to Kamakura, the ancient seat of the military government, and neighborhood. During his stay in Tokio, he was visited by the Mikado, who consulted him on many important points of international policy, and to some extent, domestic policy. The confidence and reliance manifested by the government and people in him are wholly unprecedented. Grant returns to Tokio on August 19th, and exchanges a series of formal visits. He sails for America next mail.

A movement is in progress for the formation of a new society, having in view the extension of the protecting influence for eastern nations against the perpetual aggression of European powers. The organization will doubtless be complete before the departure of Grant, who has consented to support it warmly and actively.

The cholera continues virulent, but there are signs of abatement within the present month. Thus far they have 45,000 attacks and 25,000 deaths.

The government displays unflagging energy in confronting and checking the disease.

The Emperor has given $70,000 from his private funds in aid of sanitary measures.

Yokohama, 12.—The cholera is still spreading, and has reached Yokohama and Tokio.

There are rumors of impending trouble between China and Japan relative to the Loo Choo Islands.

The Duke of Genoa arrived at Nagasaki on the 8th of August.

The Russian steamer *Nordskold*, arrived here on the 1st, and left on the 4th inst. for Behring's Straits, with stores for the Arctic expedition.

The import market is fairly active. A moderate business is doing in silk. Prices have advanced slightly, but closing weak.
