aver saw met our view. Upon ax-amination, the suter bone (the radius) of the right fore-arm was found to be fractured, and the bene of the index-finger of the left hand was severed, the left ear was al-most severed, and there was a wound, two and a half inches in length over the left eye, and a severe wound on her left hip. The doctor dressed her wounds and made her as comfortable as possible under the circumstances. All the wounds are doing well excepting her finger, which undoubtedly will have to be amputated to prevent more serious troubles. This would have been resorted to before, had abe not protested so strongly against it. each family, also for names, dat

THIS 16 ounce army pound is marked into 16 equal spaces (11x11) each space representing an ounce. It being justly divided, the consumer is satisfied with his allottment. and the retailer knows that he has given neither too much We are already opening some of the newest and nor too little; as he is liable to do where the lump is not so marked. This lump also renders it unnecessary for the retailer to have more than one package of Tobacco open at a time, as he can accurately cut any size lump needed from 12 ounce lump down to a single thick pocket piece. It is the only plug of Tobacco marked for the benefit of the dealer and consumer. All others marked with tin, wood, leather. or other tags, or in any other manner are solely for the beneafirmations, ordinations, endow- fit of the manufacturer.

It saves interest, as a single package gives the dealer the sizes he requires, it is not necessary to keep six or eight nd various particulars of the same, open at a time as is usually the case.

> The manufacturer is able to make a better chew in a pound lump than in a smaller one for the same money. No loss can accrue from change of styles or variation in prices. Most dealers know by bitter experience how great an advan-tage this is. It is manufactured with the utmost care and each plug is perfect in chew and style. VI WO
