

Passenger Cars, Injuring One.

Washington, Feb. 22.—Senators Smoot and Sutherland of Utah, and Long of Kansas, today requested the president to grant a pardon to R. B. Shepherd of Salt Lake City who is under conviction for sending obsene literature through the malls, and must soon begin a sen-tence of 13 months in the penitentlary. The president directed that the papers be laid before him.

Among the articles stolen were the following: Two sacks of flour, 20 pounds of coffee, 2 sacks of tea, 24 cans of condensed milk, 4 pounds of cheese, a dozen oranges, 24 packages of cigarettes, 25 pounds of corn meal. 24 cans of honey, 4 cans of pork and beans, two or three hams, likewise bacon, a large quantity of cigars and tobacco and a yast amount of smaller tobacco and a vast amount of smaller stuff stuff. As soon as Nathan recovered from the shock he received, word was sent to police headquarters and Officer J. M. Lyon was detailed on the case. Wagon marks about the place indicated that two trips were made to carry off the stock. The exact loss, in cash, was not figured out, but an estimate places it between \$35 and \$50. Patrolmen and detectives are now working on the case in the hope of running down the burglars, but up to press time they had failed to locate the thieves.

Fain these ends, we must have a set-aled governmental policy. And it must be a right policy. It must be a policy consistent with the genus of our institutions. The people of this country do not desire so-claims even as an experiment. They do not propose to pass through a dreaded "quarter of an hour" of revo-lutionary charges to satisfy themselves of these imperfections of human nature of which they are already well ap-prised, and which make impossible the constitution of society in accordance prized, and which make impossible the constitution of society in accordance with Socialistic theory. We must make progress and it must be steady and consistent, conserving what is good and anteguarding the opportunities for honest effort. Otherwise gains will be offset by unnecessary losses and expert accountants may search in vain for a credit balance. We may accomplish needed reforms by making our institu-tions work as they were intended to work, and by effecting, in the light of the benefits thus secured, such changes as experience may commend and de-liberate judgment may approve.

HOW TO HANDLE ABUSES.

HOW TO HANDLE ABUSES. The way to get rid of abuses is to attack them directly. And I believe the most efficacious means is definition and prescription, and adequate punishment of offenders. The punishment is most salutary when visited upon the guil-ty individuals. Few men can be hired to go to jail. And if offenses which public sentiment recognizes to be of a grave character are punished by im-prisonment, the law is more likely to be obeyed and the punishment to have its intended effect. In our legislation and administration we must favor no class, but protect the interests of all our citizens. While the nation may devote its powers to

the interests of all our citizens. While the nation may devote its powers to this end so far as matters are within federal control, our state governments and local communities must not miss their great opportunities. In the use of all these powers, according to their constitutional distribution, for the de-velopment of our resources, the encour-agement of agriculture, the improve-ment of the conditions of labor, and the safeguarding of the freedom of commerce, we shall progress toward the attainment of the aims of liberty. Let us realize our mutual depend-ence and rejoice with Washington, not in power, but in service; not in dis-tinction, but in duty well performed; not in what we have gained, but in what we have given.

NO NATIONAL HOLIDAY.

Considerable discussion arose Considerable discussion arose in different circles today regarding the various holidays. The question was asked a number of times, "What are the national holidays?" Numerous reference books are authority for the statement that there are no national holidays. This was passed upon and decided by Congress a few years ago when it left holidays entirely to the choice and desires of the states. Of course such days as Christmas. course such days as Christman, Thanksgiving, and Fourth of July are observed by the entire country, the president of the United States and the governors of the different states issuing proclamations. But aside from these the celebration of certain days are left to the states. Labor and Ar-bor day are marked by the issuance of proclamations from the offices of of proclamations from the offices of governors. Other days are observed with or without having attention call-ed to them by governors. These are known in the majority as legal holi-days. Utah's holidays are Jan. 1, (New Year), Feb. 22, (Washington's birthday), the day the entire country is observing today, April 15, (Arbor day), May 30, (Decoration day); July 4 (Independence day); July 24, (Pio-neer day), first Monday in September, (Labor day); Thanksgiving and Christmas.
