At 7 o'clock tonight, after over four hours' discussion, the hearing was ad-journed until Wednesday, March 4. Dur-ing the interval it is intimated that Au-gust Belmont, chairman of the Jockey cub will call a meeting of that organ-ization to agree upon certain suggestions to be submitted to the legislative con-mittee designed to check gambling by young men. Anong those who made brief remarks were Mr. Belmont, James R. Keene, owner of many famous race horses, and P. P. Johnson of Kentucky, president of the National Trotting asso-ciation.

noises, and the National Trotting asso-claim. The principal address against the bill was made by Joseph S. Auerbach, attor-ney for the Jockey Club, who upheid the so-called unconstitutional discrimination in the present Percy-Grey law, under which betting is permitted on race tracks subject only to the penalty of the recov-ery in a civil action of the amount wag-ered. He declared that the measure would create discrimination against the race tracks and favor poolrooms, and crit-ielsed Governor Hughes for making "a speech here and a speech there and with full scenic effects," in support of the bill. He said that two years ago a similar bill was introduced, but that after Rev. Dr. Slicer and Elshop Doane had been in-formed that it was promoted by the pool-rooms, they withdrew their Indorsement of it. "I am not saving.", he continued, "that this bill was promoted by the pool-rooms, but T do say that it is in the interest of the poolrooms." NOT FOR BETTING.

It will drive out of the state 52,500,600 annually and throw out of employment 12,000 people." The speakers in favor of the bill com-hed most of their remarks to the com-hed a discrimination on gambling in fa-bor of race tracks and that the legs-sture should "square the law with the metition."

He had spoken to her on the subject, and she had promised to see after it, but still the button was not on properly. He got out of patience one Sunday, when the missing button had made him late for parade, and exclamed: "Bad 'cess to the woman; I'll give her a hint this time, anyhow." He took the lid off his tin blacking box-about three inches in diameter-punched two holes in it with his fork, and then tied it on the neck of the shirt that was next to be washed.
