Prices for cattle are reported as un-satisfactory, and but little business is being done because buyers and sellers are too far apart on their prices, with the result that sales will be about 25 per cent under last year's figures. It is claimed that feeders are losing cost of corn and their time, and at the sam time meat prices are high, in marked contrast with cattle prices.

Manager R. S. Campbell of the Utah Light & Railway company feels quite proud of the electrical engineering staff attached to his office. It has been due to their intelligent efforts that the three burned coils in the big \$30,000 genera tor have been repaired and the great machine once more put in operation successfully.
