City Council Session—Efforts to Secure the Waterworks.

Dr. Lyman Skeen Welcomed Home—Mary J. Schreiber Sues for Divorce—Weddings.

An action has been filed in the Second district court by Dennis A. Smith against Charles R. and Annie S. Reed to secure a clear title to the north-east corner of Lincoln avenue and Twenty-fifth street. The defendants in the action claim to have a half interest in the property and Saturday morning they commenced to erect a brick building on the corner. Yesterday morning Mr. Smith went to the property with two other men and commenced to tear down the bricks, this enraged Reed and a quarrel ensued, in which Reed claims he was struck by Smith and the two other men. He then went to the police station and swore out a complaint against Smith and his assistants, charging them with assault and battery on which charge they are held. Later in the day Mr. Smith went to W. L. Maginnis and laid his case before him; as a result, a complaint was prepared against Reed and his assistants. Reed and his assistants are now being held in the city jail. Judge J. F. Childress issued a restraining order restraining Mr. and Mrs. Reed from going ahead with their building until the title is settled by the courts. The plaintiff alleges that he bought the property March 19, 1901 from a man named Luster.

CITY COUNCIL SESSION.

The following business was transacted by the city council in regular session last night:

City Engineer A. F. Parker tendered his resignation to take effect immediately. The salary for this position is only \$75 per month, and as it will require practically all of the incumbent's time, that amount is entirely inadequate. For this reason, it is believed the resignation was sent in. It is believed, however, as Mr. Parker is a very competent man, and the city can ill afford to lose his services, that the salary will be increased and that gentleman re-appointed.

By a resolution passed it was ordered that the Ogden city proceed at once to take the necessary steps to condemn the waterworks system, with all the appurtenances thereunto appertaining. The resolution also provides that all citizens who are opposed to the condemnation proceedings may file their objections with the council within 10 days.

A resolution was also adopted authorizing the county auditor to draw warrants for all laborers under the direction of the street supervisor at the rate of \$2 per day for each laborer and \$3.50 for each man and team. These wages to be allowed all city workmen except for polltax, for which the law makes \$1.50 for man and \$3 for man and team the wages.

A motion to increase the salary of the city sexton was referred to committee on public buildings and grounds.

The committee on public buildings and grounds reported favorably on the proposition to lease Lester Park pavilion for the year for \$2,400.

On the recommendation of the mayor the council authorized the purchase of two additional street sweepers.

GEO. PAYNE MISSING.

It is reported here that George Payne, a well known resident of Syracuse, Davis county, disappeared from his home about 10 days ago and has not been seen by his friends or family since. It seems he was the owner of the Syracuse salt works, and about

the time of his disappearance sold that property. As a result of the sale he had about \$10,000 in cash in his possession, and he took it to Salt Lake and deposited it in a bank. He left home for that purpose, and that is the last seen of him by his family. His daughter is in Ogden today enquiring about him, and it is feared he has met with foul play.

WATER RIGHTS IN DANGER

Irrigators of Utah County Fear Encroachments Of Salt Lake People on Utah Lake.

Improvement of Waterworks Agitates City Solons—Wedding Bells—Garden City Notes.

Provo, Utah Co., March 24.—Judge John B. Miller, of the Utah Lake association, which is called a meeting of citizens interested in the waters of Utah lake, has made the following statement of the object of the meeting:

"It appears that there is a probability of an attempt being made to settle any differences that may exist in connection with the waters of Utah lake, with the view of increasing the supply in Salt Lake valley. Efforts have been made to unite the people of Salt Lake valley on some plan, which have not yet been entirely successful, but may be. No attention, whatever, has been paid to the people of this valley and their rights, and it would seem as though we, in Utah valley, are not supposed to have any material interest in the question anyhow. We were, about a year and a half ago, asked to elect a committee to confer with a Salt Lake committee, but nothing has come of it except that Col. Holmes wrote me a very nice letter, last November, desiring our corporation when their plans would be perfected. And we have all this time been quietly waiting to ascertain the desires of the people of Salt Lake valley. Now, however, the board of commissioners appointed by the governor to secure government aid are considering the question of asking the secretary of the interior to spend a million dollars on Utah lake, and as it appears from all we can learn of the proposed scheme, that that expenditure will produce great injury to us in Utah valley, we think that, as that commission is not advised as to our claims and rights, they should be informed, and that common justice to them and ourselves demands that we should in some manner communicate with them by stating our rights and intentions, that they may be fully advised on both sides of the question."

WATERWORKS QUESTION.

A special session of the city council was held last evening, at which the proposed improvement in the water-

If Women Only Knew.

What a Heap of Happiness It Would Bring to Salt Lake City Homes.

Hard to do housework with an aching back.

Hours of misery at leisure or at work.

If women only knew the cause.

Backache pains come from sick kidneys.

Doan's Kidney Pills will cure them.

Salt Lake City people endorse this.

Mrs. H. Haynes, H. Haynes, retired, residence 212 1/2 South State street, says:

"For twelve or thirteen years I knew that my kidneys were not in the best of health. Work is bedeviled by the winter of 1901 my urinating proved to be true for the sharp pain across my loins became so pronounced that I could neither stoop nor straighten after stooping without suffering. I noticed that my head aches very severely and that when in the violent stage dimness of vision occurred. I tried everything in my power to check the cause and spent lots of money for physicians' treatment, but all my endeavors were fruitless. I was induced to try Doan's Kidney Pills and went to the P. J. Hill Drug Co.'s store for a box. To say that the treatment surprised me is putting it very mildly. Relief came in a few days and a short time afterwards the last attack stopped."

works system by connecting the system with the springs in Provo canyon was quite generally discussed, in connection with the proposed increase of city and county school tax levy. The cost of connecting the system with the springs will be about \$25,000, and the cost of putting in an effective filtering system, which is necessary if the city continues to use the river water, will be about the same, and the latter will call for additional yearly expense in keeping the filtering system, which expense will not attach to the use of the spring water. It will require an eight-million tax for two years to raise the necessary revenue, and several members of the council expressed a desire that the question might be presented to the people, so that they may be prepared to decide which is of the most pressing necessity, pure water or additional school facilities. Councilors Powsell, McEwan, Taylor, Parmer and Silver spoke on the question in favor of the improvement in the water system, and as a result the committee on finance will take the matter up and prepare a statement of the cost of the contemplated improvement to be presented to the citizens through the press.

An appropriation of \$100,000 for improving Fifth West street from Fifth North street to Jos. Richard's residence, and \$100 to be expended in leveling the lake drive.

STAKE CONFERENCE.

Visit of President Lund—Illness of Hon. J. L. Holbrook.

Special Correspondence.

Bountiful, Davis Co., March 23.—The Davis stake quarterly conference was concluded tonight, having convened in the Bountiful tabernacle yesterday and today. President John Hess, through ill health was unable to attend, and in his absence Counselors Grant and Clark presided.

President Anthony H. Lund, Apostle Rudger Clawson, Palmyra John Smith and Elder Rufus S. Wells, visited us and addressed the conference. A number of local brethren were also among the speakers. The attendance on both days was very good, and the conference was a most successful one.

The Mutual Improvement Association held a well attended meeting on Sunday evening.

Hon. Joseph L. Holbrook, ex-county commissioner and one of Bountiful's leading citizens, who was taken ill by typhoid pneumonia in September last, and has been very sick ever since, is now so very low that very little hope is entertained for his restoration to health.

SMITHFIELD.

MRS. JOSEPH FORRESTER DEAD.

Successors to Sudden Attack of Heart Disease.

Special Correspondence.

Smithfield, Cache Co., March 22.—Mrs. Emma Forrester, wife of Joseph Forrester died this evening of heart failure. This morning at about 10 o'clock after attending to all her household duties in her usual health, she went out doors and was found apparently dead within just a few minutes. She was brought into the house and all was done that was possible, but without success.

She was a highly respected woman and one of our pioneers. She leaves a large family who will deeply mourn her death.

FAUST.

OUTLOOK ON DESERT.

Some Losses, but Sheep and Cattle Doing Fairly Well.

Special Correspondence.

Faust, Tooele Co., March 20.—The farmers are rejoicing that the amount of snow that has fallen the last week, and especially the dry farmers, who look for good crops this season.

A number of our farmers received trial macaroni wheat from Washington, last spring and it has proved a great success. Senator Kearns is sending out a good lot of trial seed to our people here.

M.A. and R.E. Beckstead of Riverton are here putting up shearing pens. There has been some uneasiness among

sheepmen about shearing at this place, fearing the railroad would not be finished, but the Beckstead boys have a guarantee from the company that the road will be in running order by the 15th of April, and should anything occur, to prevent the road from being in running order by that time, the company will stand good the transportation of wool and work is being pushed on the road and we have every assurance that the road will be finished in 30 days' time.

Sheep as a whole are doing remarkably well on the desert, considering the small hold winter and the dry conditions. Two herds on the northeast corner of the desert have lost 1,000 head each, but outside of these two herds sheep are doing well. Range cattle are looking fairly well.

CLOSE OF SCHOOL.

Entertainment Given by Children—New Post Office—Copper Prospect.

Special Correspondence.

Bloomington, Washington Co., March 20.—After two more stormy nights, we are now having clear weather; it is very chilly at nights, but pleasant in the day time.

Our district school has closed for the season, yesterday being the last day. An entertainment was given last evening, under the direction of the teacher, Miss Edna Sorenson, and it was a complete success. A well prepared program was rendered in a creditable manner by the children. A good supper was served after the entertainment, which was followed by a dance, in which all enjoyed themselves.

A postoffice has been established. Apricot trees are beginning to bloom and some trees and shrubs are leafing out.

Messrs. Atkin and Atkin have made a find of a new copper vein, south of here, which shows very bright prospects.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She had been coughing and straining for weeks, and had lost 15 pounds in weight. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength. Z. C. M. I. Drug Store, 112-114 Main Street.

A Warning.

To feel tired after exertion is one thing; to feel tired before is another. Don't say the latter is laziness—it isn't; but it's a sign that the system lacks vitality, is running down, and needs the tonic effect of Hood's Sarsaparilla.

It's a warning, too—and suffers should begin taking Hood's at once. Buy a bottle today.
