

LOCAL AND OTHER MATTERS.

FROM THURSDAY'S DAILY, OCT. 10.

NOTICE.—Mrs. Maria Jensen, of Lynne, Weber County, wishes to hear from her husband, Erik Jensen, who left his home on the 20th of April last with the intention of working in the Cottonwood mines. She has never heard from him since the date mentioned. —Ogden Junction.

W. H. SEWARD DEAD.—It will be seen by our latest dispatches that Hon. Wm. H. Seward expired to-day. He was a man of enlarged views, a gentleman and statesman. It is to be hoped that the book of travels, upon which he had been recently at work, is in a sufficiently advanced state to ensure its being given to the public complete.

ACCIDENT.—We are informed, by Brother David Jeremy, that a lady, from the country, fell into a spring, opposite Father Jackson's residence, sixteenth Ward, and, but for the timely assistance of two men passing that way, might have been drowned, as it was, she was thoroughly drenched, from head to foot, with mud and water.

To pedestrians passing that way this spring is exceedingly dangerous, being directly in the side walk. Steps should at once be taken to have that portion of the path securely covered.

SUIT IN CHANCERY.—We understand a suit in chancery has been commenced against Salt Lake City on complaint of Rheinke and Luitze, surviving partners of Englebrecht, and that subpoenas were served this morning on Mayor D. H. Wells, City Marshal J. D. T. McAllister, City Recorder Robert Campbell and officer B. Y. Hampton. The body of the subpoenas states that copies of the complaint are appended and accompany them, but, we are informed, no such copies of complaint were served with the subpoenas. The parties are cited to appear before Judge McKean in December.

PAROWAN.—Brother William Adams writes from Parowan, October 2nd.

"There is a general time of good health in this city. The lumber trade is brisk, two steam saw mills being in full blast, and another expected to be in operation in a few days, besides three upright saw mills. Lumber is being constantly shipped to Pioche. Five shingle machines are supplying the demand for that article. The co-operative store is doing a good fall business. Grain is nearly all thrashed. A large amount of butter and cheese is being made this season, which commands a good price, especially the butter."

THE TEACHERS' ASSOCIATION.—It is a source of congratulation to all members of the community who take a lively interest in the cause of education that a Territorial Teachers' Association has been formed. Such an organization has been greatly needed for a long time, and it is to be hoped that its objects will be assiduously and faithfully carried out. In the meetings of this association the various subjects in connection with educational matters will be thoroughly discussed, and the system considered the best adopted, subject, of course, to amendment, as wisdom and circumstances shall dictate. It would be well for those counties which have not yet or teachers' associations to do so, that they might co-operate with the Territorial or parent organization.

THE SUNDAY SCHOOL TEACHERS' ASSOCIATION met in the Social Hall on Saturday, Oct. 5, and after addresses by Messrs. E. M. Lyman, of Millard Co., C. D. Evans, of Utah Co., and Charles Wright, of Box Elder Co., and discussion, a resolution was adopted to discourage corporeal punishment in schools, and discard it at the earliest practicable date. A committee was appointed to draft rules of order.

The association met again Oct. 7, when Prof. F. M. Bishop, chairman of committee, reported rules of order, which were adopted.

Miss M. E. Cook gave an illustration of her method of teaching in primary schools by regular class exercises, eliciting favorable criticism.

Another meeting was held by the association on Tuesday, Oct. 8. Resolutions were adopted requesting the executive committee to notify county superintendents, at least five weeks, previously of the time and place of the next meeting, and request each superintendent to send a delegation, and also that a notice of the time and place of meeting be published in the weekly and semi-weekly News and the semi-weekly Herald four weeks previously; that the executive committee select three subjects, to be published three months before the next session, for essays, to be read at the session, and call upon the various teachers in the Territory for class drill in the different branches before the association at its next session.

Adjourned until April 3, 1873.

FROM FRIDAY'S DAILY, OCT. 11.

TRIED AND SENTENCED.—We are informed by a gentleman from Sanpete, that the trial of Richard Smyth, for an attack with intent to kill, on Jeremiah D. Page, commenced, in the Probate Court at Mantu, a week ago last Monday and terminated a week ago to-day. Judge Peacock presided

during the trial. The jury returned a verdict against the prisoner of guilty and he was sentenced to imprisonment in the penitentiary for one year.

LOGAN, Oct. 11, 8:25 a.m.—On Tuesday last, Andrew Allen, son of Judi Allen, of Box Elder County, while oiling a threshing machine, had his arm caught and drawn between the sogs, mangleing it terribly to a distance above the elbow. Dr. Ormsby, Jr., of this place, was telegraphed for, who, on arrival at the unfortunate young man's residence, found amputation between the shoulder and elbow necessary. Drs. Graham and McKinney, of Corlone, assisted him. The man is now doing well.

RAISINS.—The samples of Malaga and Sultana (or seedless) Raisins exhibited by Mr. Joseph E. Johnson, of St. George, at the late Territorial Fair, were most excellent and compare favorably with any raisins of the kind imported from abroad. An examination of these samples satisfied us that they deserved premiums, which we believe were awarded to them.

In the cultivation of these grapes and the manufacture of raisins such as these samples, the Southern portion of our Territory has a productive and remunerative branch of industry opened to them. We do not know whether the price at which raisins sell in this market would be such as to pay our citizens South for their productions; but we suppose it would, and if so, the stoppage of the importation of these articles is only a question of time; for, so far as quality is concerned, if these exhibited by Bro. Johnson be accepted as a fair average, they are all that can be desired.

OBITUARY OF D. M. MILLER.—The appended obituary of the late Daniel M. Miller, of Nephi, who was killed by Indians in Sanpete County, September 26th, has been forwarded to us by brother Samuel Pitchforth, with a request to publish. An accompanying note from brother Pitchforth informs us that the son of the deceased, aged 12 years, who was with his father when the attack was made, and who received two wounds at the same time, says that he recognized three of the attacking Indians as persons who dined at his father's house on the 24th of July, when the Indian Agent was there.

Daniel Morgan Miller, son of Josiah and Amanda Miller, was born Nov. 20, 1820, in the town of Murray, Genesee County, State of New York. In 1831 his parents were baptized into the Church of Jesus Christ of Latter-day Saints, and moved, with their family, to Kirtland, Ohio, where they resided until the Saints migrated West, keeping with the Church.

On the 16th of July, 1846, Brother Daniel was baptized, at Council Bluffs, by Elder A. Love, and ordained an elder by Presidents B. Young and Geo. A. Smith. The same day he joined company E of the Mormon Battalion, and traveled with it to Santa Fe.

At the latter place he was taken sick and could not proceed with the company, where his brother Miles left him to go on with the battalion to the coast. The latter did not expect ever to see his brother again; even Daniel had little hopes of his own recovery, he became so far convalescent, however, as to be able to travel with Capt. Brown's company, the members of which, after receiving their discharge came to Salt Lake Valley, arriving soon after the pioneers. He resided in the 4th and 7th Wards until 1852; when he moved to Nephi, Juab county, where he remained until his death. He was a member of the 22nd Quorum of Seventies till Sept. 24, 1865, when he was ordained one of the Presidents of the 71st Quorum.

Deceased was much respected by all who had the pleasure of his acquaintance. He leaves a wife and eight children.

His funeral took place on Sunday, Sept. 29th, and was the largest ever seen in Nephi. A subscription list has been started to raise means to erect a suitable tombstone to his memory.

SODA SPRINGS promises to be a favorite Summer resort, if we may judge by the expressions which we have concerning them from those who have spent any time there. Our friend, Hon. Wm. H. Hooper, who has, with his family, spent the most of his time there since his return from Washington, at the close of the last session, arrived from there at the beginning of Conference, and his healthy and rugged appearance speaks highly for the excellence of the climate and the beneficial effect of the waters. The Captain has been busily employed while there in erecting a fine dwelling. Himself and family consider the locality a charming one for a summer residence, and it is probable they will arrange affairs so as to spend their summers there regularly. When the Utah Northern shall be completed we expect to see the Springs become a great summer resort for our citizens.

FROM SATURDAY'S DAILY, OCT. 12.

CAMPAIGN TOUR.—His Excellency Governor G. L. Woods left this city this morning on an election campaign tour in Nevada, which will probably be extended to California. Before his departure he signed a certificate to the effect that Hon. G. Q. Cannon, at the late general election, was duly elected Delegate to Congress for this Territory. The certificate is also attested by Hon. Geo. A. Black, Secretary of the Territory.

HOME-MADE WAGONS.—In a Territory like ours, where the people are scattered over a large extent of country, and the great majority of them engaged in agricultural pursuits, the manufacture of wagons must always be an important industry, and this is a branch which was well represented at the late Territorial fair here, by the wagons on exhibition from the factory of the Messrs. Naylor Bros., of this city. This firm is comparatively young, having been started only some four or five years, but their wagons, light or heavy, already take the lead in this market, being pronounced superior to, and bought more readily than, those of any eastern firm, although they sell twenty-five dollars higher. The following are among the advantages claimed for these wagons. They are made of second growth, eastern timber; their transom plates are fourteen inches long, while others are only ten, which prevents a high load from settling on either side, their hind hounds are plated top and bottom, all the timber used in them is seasoned three years before used, while for light running they can not be equalled. The Messrs. Naylor state that since last winter they have made one hundred wagons, and that ten dollars would cover the expense of repairs on the whole of them—a statement the equal of which they believe can not be made by any other firm in the United States. This enumeration of the excellencies of the Naylor wagon is no mere puff, but has a complete endorsement in the fact that they can not manufacture near enough of them to supply the demands of their patrons.

ASSAULT.—On Thursday W. R. Keithley, the same who committed the cowardly assault, some time ago, on Mr. C. W. Penrose, Editor of the Ogden Junction, was himself attacked and severely beaten, by a miner, named Stephen McIntyre. The affair took place in the vicinity of a room occupied as an office near McKimmins' livery stable. So far as we can learn, the circumstances which led to the affair are about as follows: On Wednesday McIntyre went to the office above named, in a state of semi-stupefaction induced by hard drinking, and Keithley, it appears, was in the office at the time. After the alcoholic fumes had evaporated from McIntyre's brain he claimed to have discovered that he was minus \$25 U. S. currency and that, in lieu thereof, he found in his pocket a note of deposit of some kind for about \$50, which, however, was not worth the paper upon which it was written. He got it into his head that, while he was in a state of mental obfuscation, Keithley had traded him the worthless piece of paper for his \$25. On the following day McIntyre called at the office of Mathews and Keithley and informed the latter that he wanted his \$25, and that he was going to have it. The three individuals named left the room and descended the stairs and when near the entrance door McIntyre and Keithley indulged in some loud talk, especially the first named, which had the effect of drawing a small crowd to the spot. Mathews then shut the door, which he says he did to prevent the crowd getting inside, when McIntyre assaulted Keithley, battering his face in such a manner that he could scarcely see out of his eyes.

McIntyre left town and Keithley had Mathews arrested as accessory to the assault, in locking the door, &c. There was an examination of the case this morning, before Justice Clinton. The matter was adjourned till Wednesday, pending the appearance of McIntyre, and Mathews was held in \$500 bonds to appear at that time.

CHEERING NEWS FOR MRS. CAMERON.—It will be remembered, that while the train of emigrants which arrived here last, was travelling through Illinois, a little Scotch girl, named Jane Cameron, fell therefrom and was not missed until it had proceeded several miles, and then intelligence was forwarded to her mother by telegraph that the child's right arm had been so badly injured by a portion of the train passing over it that it had had to be amputated. The accident happened at Morrison, Whiteside County, Ills., and as the mother of the little sufferer was poor and had several other children with her needing her care and attention, it was thought best under the circumstances to send back one of the brethren to look after the child, and to stay with her until she was able to come along. Brother William Rollo was the person elected for this duty, and this morning we received a letter from him, giving a cheering report of the present condition and progress towards convalescence of the child. She is in the midst of friends, is the recipient of every kindness, and has done so well, that she will probably be able to start west in two weeks from the date of writing, that was last Monday.

Brother Rollo says that after the accident the child was picked up by Mr. J. C. Johns, who took her at once to a doctor. The latter pronounced amputation the only thing that could save her, and he performed the operation. Mr. Johns then bought a shawl, wrapped her in it, and took her to the house of Mr. William Richards, a philanthropic Christian gentleman, of Morrison, and he and his lady have done everything for the comfort of the child that kindness and sympathy could dictate, treating her as if she were their own. A lady named Mrs. Fay, a neighbor of Mr. and Mrs. Richards, and numerous others in the vicinity, have also taken great interest in and have been kind to her. Brother Rollo says the mother, Mrs. Cameron, may

make her mind perfectly easy, for her daughter is being better cared for than she could be if with her in her present circumstances.

In view of the serious misfortune sustained by the little girl, she having had her right arm amputated at the shoulder joint, one suggestion contained in the letter of Brother Rollo is worthy of consideration, namely that an appeal be made to the "Scotch" residents of Utah, to raise a fund to give her a good education, and so enable her to provide for her own wants, and to be a useful member of society.

FROM MONDAY'S DAILY, OCT. 14.

HOME MISSIONARY APPOINTMENTS, Sunday, October 20th:

American Fork City, R. Miller and R. F. Neslen; Mill Creek, G. Teasdale and John Nicholson; Big Cottonwood, Brington's Ward, John Van Cott and Isaac Groo; West Jordan, L. D. Young and D. Candland; South Cottonwood, Milo Andrus and W. McMaster.

Meetings commence at 10 a.m. and 2:30 p.m. L. D. Young.

HONORABLE JOHN TITUS, U. S. Chief Justice for Arizona, is in town and staying at the Walker House. He paid a visit to the Third District Court this morning and was warmly greeted by the members of the bar. The course of Mr. Titus, when Chief Justice of this Territory, was in marked distinction from that pursued by some officials we wot of. Although strong in his prejudices against the religious tenets held by the great majority of the people of this community, he never, so far as we are aware, allowed those prejudices to enter into any of his judicial decisions.

NEW MEETING HOUSES.—The new meeting house in course of erection in the Tenth Ward will be up to the square to-night. It is a handsome building with an excellent rock base. The main portion of the walls are of brick. The hall will be 55 x 33 feet and nineteen feet from floor to ceiling. When the building is completed some suitable alterations will be made in the old meeting house, rendering it a comfortable and airy school house.

A very good meeting house is also being erected in the First Ward, showing that the people of that suburban locality are also alive to the spirit of progress.

THE COLORADO COUNTRY.—Mr. E. O. Beaman, recently photographer to the Powell Exploring expedition, called on us this morning, with a number of interesting stereoscopic views of various scenes on the Colorado and of the Moquis villages and residences, which, accompanied by Mr. James Carlton, Mr. Beaman visited for two or three weeks. These views are highly interesting, depicting the wild and imposing scenery of that portion of the continent, and the peculiarities of Moquis architecture.

Mr. Beaman has a large variety of these views, which can be obtained at Savage's fine art gallery, and other places in town where such things are usually on sale.

VIRGIN CITY.—Oliver Stratton, junr., writes from Virgin City, Kane County, as follows:—

"All is well here, crops are above an average, and the people are well and trying to live their religion. Our Sunday school is in full blast, doing all it can to be useful. Peace reigns and improvements are the order of the day."

RETURNED.—Elder J. J. Thayne, lumber merchant of this city, who left on a mission and to visit his friends in the east and in Canada, on the 29th of July, and reached home in the early part of last week, called this morning, and gave us some account of his visit. During his absence he traveled 6,500 miles, in Missouri, Iowa, Minnesota, Illinois, Michigan, Canada and New York. He has had very pleasant visits with old friends, and has made many new ones; has preached a good deal in private, and in so doing has created good impressions of Utah and "Mormonism" where prejudice formerly existed. When in Missouri he visited Haun's Mills and while standing in the well into which the dead bodies of seventeen of the murdered Saints were thrown by the mob, during the persecutions in that State, bore testimony to the settlers to the truth of the gospel and the mission of Joseph Smith. He brought twenty-two persons back with him, all his own relatives, who come for the purpose of investigating and obeying the truth. Among them is Mr. John Lefler, who, it will be remembered, inquired of Bishop Moon, while the latter was on his mission last year, concerning the truth of the Book of Mormon, and to satisfy himself, he in company with Bro. Moon, visited Mr. David Whitmer, one of the witnesses of the Book of Mormon, and heard him bear testimony that he saw the angel of God and heard him declare that the plates were a divine record.

While absent Elder Thayne visited some of the principal lumber and shingle manufacturing in Canada, and he intends, as soon as circumstances will permit, to import some of their most improved machinery, being satisfied that by its aid lumber and shingles of as good quality and as cheap can be made in Utah as any now imported.
