DESERET EVENING NEWS TUESDAY AUGUST 18 1908

Emerald Hecla

they had an immense body of her off, and the work of sacking ready for ship-ment was commenced. A larget ton-nage was thus prepared, but before hardly a pound of it could be moved an injunction was placed on it, through the claim of Tyng brothers, who were then operating the Millar property un-der losse that they were trespassing

BOSTON COPPER CLOSE.

nt 41

the claim of Tyng brothers, who were then operating the Millar property un-der lease, that, they were trespassing. This put a stop for a time to the mov-ing of this fine lot of wealth. Closely following this a suit for dam-ages and trespass was filed against the Tyng Brothers company by the Sur-prise Mining and Leasing company. After two or three bouts in the district court, the Tyng Brothers company and the Surprise Mining and Leasing com-pany arrived at a settlement, and it was just during the past month that an effort was again put in motion to realize on the immense ore bodies which were then in sight. This had progress-ed but a short time, when on Monday last Sherliff Harmon of Provo went to the workings to serve another injunc-tion on the leasing company, this time on a plea of the new leasing com-pany on the Surprise Leasing com-pany of the Taylor & Brunton Sampling works and others will be fought very stubbornly, and an action will also be commenced against the Millar Mining company by the Surprise Decole for stubbornly, and an action will also be commenced against the Millar Mining company by the Surprise people for re-leasing the Surprise mine while their leave was in force.

WILL VISIT ALTA.

Jesse Knight May Increase Holdings In This Camp.

It was learned today from good au-thority that "Incle" Jesse Knight is zeriously considering the matter of increasing his holdluss in the camp of Alta. He is a large shareholder in the Old Emma Mines company, which was incorporated several months ago with the old Emma mine, one of the oldest mines in the state, as the basis. In the early days of mining at Alta, the mines in the state, as the basis. In the early days of mining at Alta, the Euuma, next to the Flagstaff, was prob-ably the most important producer in the district and like the Flagstaff, figthe district and like the Flagstaff, fig-ured conspicuously in a congressional investigation. These mines were then owned by Englishmen and although the surface deposits yielded a great deal of ore, the men who bought them, and operated them, realized very lit-tle, if anything from their investment. Mr. Knight has never visited Alta personally, but it is understood, he con-templates denos as never was been.

pected to arrive in camp in a rew days. At a depth now of 185 feet, the entire bottom of the East Tintle De-velopment shaft is in vein matter, a sample from which, taken out last Thursday assays 20 per cent lead. After encountering ore on the 125 level, it became apparent that greater depth was necessary to insure a pay-ing proposition, but a change came sooner than expected; the shaft was continued but a short ways when evi-dences of pay ore began to appear. Sinking will be continued until the 200 level is reached without any un-necessary delay. The Gemini has been shipping ore for two weeks past. The product is going to the United States smeller.

PARK CITY'S ZINC MILL.

Capacity of Plant Is to Be Doubled Right Away.

(Special to the "News.") Park City, Aug. 18.—Steps will be taken immediately to enlarge the con-centrator owned by the Grassalli Chein-leal councary, which be centrator owned by the Grassalli Chem-ical company, which has a contract to supply a market for a large tonnage of zinc ore from the Daly Judge mine. Construction Engineer E. Neshit, has returned from a visit to the head of-faces of the company at Cleveland, Ohio, with instructions to double the capacity of the plant, which was oper-ated very successfully several months last year, from a metallurgical viewlast year, from a metallurgical view-point; but financially speaking, it was demonstrated that greater tonnage would have to be treated to obtain good return on the investment.

NEVADA DOUGLAS COPPER.

A Car Load of 13.32 Per Cent Copper Ore In Market.

per Ore In Market. The Nevada Douglas Copper company is in the market today with a good car of copper ore. While the average does not run as high in copper as some lots brought to the Salt Lake valley smelters; yet the one just arrived is by no means inferior. The controls show 13.32 per cent copper and 15.8 per cent iron.

The Nevada Douglas company The Nevada Douglas company is making some history these days in the development of its Verington property. It will not be long until this company will have railroad transportation fa-cilities. At least this is the informa-tion coming from an official of the Harriman system. With a railroad built to the mine it is pretty certain that the mining company will not be long in getting busy on the construc-tion of a smelter. tion of a smelter.

Buy

St. Louis, Aug. 18.-Wool, fine. Terri-tory and western mediums, 15@18; fine mediums, 10@15; fine, 9@12. BOSTON.

Boston, Aug. 15.—The activity in the local wool market continues in nearly all lines which are in good demand. Prices held steady. Fine Montana staple 50 cents, scoured, while a large transac-tion in Texas fine 12 months at 50 cents on a scoured basis is reported.

PRODUCE.

CHICAGO.

CHICAGO. Chicago, Aug. 18.-Buying by commis-sion houses based on the steadiness of the Liverpool market in the face of a sharp decline here yesterday, caused tirmness in the focal market today, Of-ferings were limited. September opened unchanged to ½ higher at 91% to 91% and advanced to 92%. Corn was strong, particularly the Sep-tember delivery, owing to buying by a leading buil. September opened % to 1 higher at 76 to 76%, advanced to 76% and then reacted to 76. General demand for oats due to some extent to the advance in corn caused firmness in that market. September open-ed 4, higher at 46% and advanced to 47.

47. Provisions were quiet and steady. Pit traders were bearishly inclined but the strength of corn and oats had a tendency to restrict offerings from that source. The September deliveries opened un-changed from last night, initial trades on pork being at 15.07 ½ and had at 9.27 ½, and ribs at 8.77 ½. Close—Wheat—Sept., 92 %; Dec., 94 %; May 98 %.
