IMPORTANT TO THE TRAVELER—It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is central ly located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East coast connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Rock Island Line and Pan Handle Route, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon request, or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stenhouse, General Passenger Agent, Chicago. d w 231

**A Healthy Man.**—In conversation with Brother Joseph McKay, this morning, we learned that he will be seventy-nine years old if he lives till next February, and is still hale and hearty. There is, perhaps, nothing very remarkable about that, but there is in the fact that, according to his own statement, he has never had any sickness whatever during this long period, never having had to write out a meal in his life on account of indisposition. He has been in this country almost a year, and formerly hailed "the Land of the West."

**Isiah's Prophecy.**—"Orient" adds the following:

SALT LAKE CITY, Sept. 25th, 1903.

**Editor Deseret News:**—Will you be kind enough to publish the 11th verse of the 25th chapter of Isiah's prophecy, with such comments as you may consider the text entitled to. The text is as follows: "Lord, when thy hand is lifted up, they will not see: but when thou shalt smite, they will be dismayed, and they will be cut off by the sword, and they will be cut off by the sword, and they will be cut off by the sword."

**The Accident at Smithfield.**—On Saturday, September 19th, between the hours of 9 and 10 a.m., a young man named Thomas William Thompson, eighteen years of age, who was engaged on a threshing machine belonging to the United States of Springfield, Cache Co., was pushing some loose grain into the machine with his left hand, his glove caught in the teeth of the cylinder, and his hand was drawn into the machine, the fingers being picked off the middle afterwards. Dr. Ormsby of Logan was speedily in attendance, and it was found necessary to amputate the arm between the elbow and wrist. The sufferer is doing, as well as can be expected under the circumstances. He is of a steady, industrious disposition.

**Attempted Burglary.**—At an early hour this morning an attempt was made by parties, with burglarious intent, to enter the home of Attorney Royce, 11th Ward. About two o'clock Mr. and Mrs. Royce heard a peculiar noise at one of the windows, but the thieves probably

heard the two conversing and desisted. About an hour subsequent to this noise was resumed, upon which Mr. Royce arose and looked out of the back window of the room, when he noticed that one of the outside shutters had been removed and presently he saw a hand raised, which fumbled about the part of the window where the upper and lower sash join, apparently for the purpose of loosening the fastener. He called out to the unseen owner of the hand, asking what he wanted, when the party, of course, immediately desisted. It will be remembered that the house of Mr. Royce was entered by burglars last Spring, considerable property having then been stolen from him.

**Orderville.**—Orderville is a small settlement, in Long Valley, in the extreme southern part of the Territory, and its affairs are conducted entirely upon a united principle or system. It is composed of people who were desirous of living in a united capacity, on the principle of one not possessing means or property that was above another, and the better to carry out their desires in this regard, moved from other settlements to their present location, and all placed their means in a kind of joint stock fund. The heads of families are mostly young, healthy, robust men, but there are also some aged men among them. Howard O. Spencer is Bishop of the settlement.

One of the members of this young community is now in the city, Brother William Heaton, and we learn indirectly from him that a most peaceful and enjoyable spirit prevails there, and that the satisfaction with the system is universal, there being no visible disposition on the part of any to withdraw from it.

In connection with and belonging to the settlement is a granary, in which this people have by united effort and careful industry, been enabled to store three years' bread-stuff ahead. They have a sheep ranch, which contributes much toward supplying the people with what they require in the shape of clothing.

Their buildings are in a plat of ground thirty-six rods square, and the dwelling houses are being erected five rods distant from the fence or from the outer edge of this lot, all around, facing outwardly north, east, west and south, according to the particular side of the square they are built upon, and, as a matter of course, the other side of the buildings face to the interior of an enclosed square. In this square is the large dining hall, in which the people meet, as one family, to take their food. A very large brick oven has been or is about to be erected for cooking purposes. All the labor of the settlement is systematized, and, so far, matters have operated harmoniously.

Although due consideration is necessarily given to the creature comforts and more material interests of this interesting people, they are not unmindful of the necessity for spiritual and intellectual culture, and preparations are being made for the organization of an educational institution among them for the attainment of that worthy object.

**Littell's Living Age.**—The number bearing date Sept. 25, completes volume one hundred and twenty-six of this eclectic weekly. This and the preceding weekly number contain "Natural Religion," "On Animal Instinct, in its Relation to the Mind of Man," "The Royal School of Art-Needlework," "The Influence of Arctic Cold on Man," "The Inheritance of the Great Mogul," "The Days of Henry Quaker," "The Persecution in Russia," "The Raising of the Herzegovina," "The Dearest Foe," "Drawing-Room Music," "Bishop Thirlwall's Study," "Boys at Home," "Nanny a Summer Scene," "Pated to be Free," together with the usual choice poetry and miscellany.

The next number, the first in October, begins a new volume, to be printed on new type, and a good time for beginning a subscription is thus afforded. May be had at Dwyer's.

**The Alleghenians.**—The Alleghenians, vocalists and Swiss bell-singers, were to give their last performance at the Grand Theatre on Saturday evening last, where they were meeting with full houses. They will be in this City in a few days.
