#### DESERET EVENING NEWS: SATURDAY, SEPTEMBER 21, 1901.

Silver Dividend-Mining

Notes.

The trouble between Delos Lombard

and the management of the Ridge and

Valley Mining company has been set-

tled by Mr. Lombard selling out his

interests to three or four well known

professional men in the city. Mr. Lom-

bard owned about 24,800 shares of stock

in the company and, it will be remem-

bered, he objected to the manage-

ment's action in the settlement of the

Gemini trespass. He threatened to

take the matter into court but when an

offering of \$4,500 was made him for

his holdings he decided to abandon the

threatened suit. This sum virtually

amounts to 20 cents a share for his

stock as there is a 2-cent assessment

Reports from the property state that work is being pushed in a drift from

the bottom of a big cave extending from the 820 level away below the 900.

Indications are fair but no ore is be-

### THE EXCHANCE

Closes With Declines in Some of Delos Lombard Sells OutHis Inthe Favorites. terests in Ridge & Valley.

#### LOWER MAMMOTH STRONGER QUINCY LAWSUIT DENIED.

#### Ajax Weakening-Daly-West Firmer Today-Manhattan Advancing-Bon Butler Strong.

The sales on the Mining exchange today amounted to 47,495 shares, which changed hands for the sum of \$47,315.75 The week's business shows a very handsome total, averaging as it does over \$80,000 per day. Altogether 418,157 shares of stock changed hands for the sum of \$109,911.75. The feature of the week was the slump in Daly West, which appears to have been caused by a rumor without any foundation. After dropping from around \$39.00 to \$30.00 the stock reached to 34.50 today. Carisa has also fallen off materially. Another big drop occurred today when it sold down to \$1.40%; thus showing a shrinkage of about 10 cents a share this week. Mammoth hangs around \$2.00 while Ajax declined to \$1.37% today as compared with \$1.50 a few days ago. Ben Butler climbed to 191/2 today though it was traded in at 19% at the close. Victor was a little stronger today, selling up to 581/2. Boss Tweed let go 300 today at 561/2, while May Day did business between \$1.46 and \$1.43. Ontario was traded in at \$12.12½, while sacramento released 100 at 24. Tesora was weaker at 67%. Uncle Sam showed a slight recovery today from the bear attacks of the past few days. It opened at \$1.70 and moved up to \$1.72%. Lower Mamto suspend the afternoon call during next week, on account of the Elks' carnival. Incorporated in the motion moth has also gained considerably this week. Sales are recorded as high as carnival. Incorporated in the motion was the proposition to cease "curbing" after 2 p. m. The matter was consid-ered by the governing board immedi-ately after the exchange closed and an order was made to the above effect. An infraction of the rule will be fol-lowed by a fine of not less than \$25. It was said that some of the members of Grand Central is also stronger at better than \$4.00, while Daly hangs between \$2.90 and \$3.00. Manhattan, a Tintic youngster, moved up to 1 3-16 to-day, while Golden Eagle, a Nevada proposition, sold at 2. Generally speakwas said that some of the members of the governing board objected to the ing the market is in excellent condition. The closing quotations are as folproposition, but yielded the point on ac-count of the almost unanimous expreslows:

Bid. Asked Stocks. Ajax..... .... 1.38½ 1,38% Albion..... 3736 Alice.. .. .. ........ 2.75 Anchor ..... 2.50 Black Jack ..... 1.65 551/2 56% Boss Tweed.. .. .. 551 Bullion-Beck.. .. .. 2.75 Ben Butler., ., ., ., ., 19 Con. Mercur., ., ., 2,55 Congor., ., ., ., ., 15 19% 2.70

A car of ore reached the market today from Miller & Pike, Boise, Idaho. NO LAWSUIT. It is reported that copper is enter-ing the 300 level of the West Morning Glory. A lot of 17 tons of ore was on the market today from the Regulator group at Alta.

Col. Wall went out to Tintic today to look over the Sloux and Utah property, which he has bonded. A car of concentrates from the Columbia of Bingham was sold today on controls showing 16 per cent copper.

The week closes with no changes reported at the Ajax where the ore chule on the 1000 level is being upraised on.

The Taylor Brunton Sampler reported 9 cars of ore from Tinuic, 4 cars from Fvisco, 1 from Alta and 1 from Boise cdav Lead in Lower Mammoth Shaft-Horn The Midas mill has not started off as

smoothly as was expected, but h changing some screens it is expected to overcome the trouble.

The vacancies in the directorate of the Ridge & Valley Mining company have been filled by the election of R. G. Wilson and Henry Dinwoodey to those positions.

Fred Leonard is making tests on the zinc ores of the California with the view of treating them by the process in use at the Anchor.

#### Milan Packard of the Star Con. ports iron entering into the drift off the 660 level of the Star Con. good copper ore is being extracted from the 400 level.

A car of ore from the Utah mine at Fish Springs was sold today for \$1,997. It assayed 57 per cent lead and 85 ounces silver. Another car of ore is on the way to market.

A. J. Harroll and Grant H. Smith left for the May Day mine last evening to witness the operations of the new mill. Experiments are still being made, but it is said it will be started up full blast in a few days.

Supt. Thomas W. Jennings of the Grand Gulch was at his desk yester-day afternoon after spending several weeks at the mine. He reports a force of 25 men engaged at the mine.

Col. H. L. Pickett, manager of the Savanic copper mine, has returned from northern Arizona. Development work is progressing satisfactorily and two cars of high grade ore are on the way to market.

President John Dern of the Uncle Sam returned from that Tintic mine yesterday. He reports Superintendent Roundy as saying that the mine never looked better than it does at the present time.

Aspen Democrat: E. J. Whitney, who has been the able foreman at the T. & B. sampler for the past ten years, has tendered his resignation to that com-pany owing to his daughter's failing health, and goes to Utah to take a similar position with T. & B.

Boise Statesman: Work has revived at the Owyhee county oil fields, with two rigs now in operation. The Newell ompany has moved its rig back a short listance from the old hole, in which a ot of iron was discovered, and every-

thing being in readiness, steam was raised several days ago and sinking on to the bottom of the lawsuit rumors re- the new hole is now well under way.

December wheat opened at 71%, de- erty, which has a frontage of 60 feet lined to 71. on South Temple and a depth of 169 feet. The new owners will make the place their permanent home. October, John McSorley, foreman of the Daly-December.

West mine, is the purchaser of the cast Second South street property belonging to the estate of Antoinette Schanilin. The property adjoins the Commercial block and is 25½x72½ feet. The price received for the property was \$20,110. Edwin Cleophan and wife have con-veyed to H. L. Benner for a considera-tion of \$4,100 a house and 4734 x165 feet

of ground facing north on Third South street east of Ninth East street. Many notable improvements are ob served in the Main street stores. The new glass fronts of Z. C. M. I. are now

complete, and they almost revolutionize the appearance of the store from the street, as well as in adding greatly to the lighting facilities on the interior.

The new men's furnishings establish ment of Nicol & Crabbe Co., at 220 Main Street, has started in business at the old stand of Marshall-Wingate.

For a long time the Cohn's Dry Goods Co. have needed more room for their increased business, and they are now the sole occupants of the building at 222-224 Main street, hitherto shared with the Davis Shoe Co. The cloak depart-ment has been moved from the basement to the floor above.

Gray Bros. Co. have enlarged their store by an addition to the rear, and changed the front, putting in two show windows and a center entrance.

Mrs. Julia M. Brixen, who is building a double terrace, of eight rooms each, on Second and A streets, says she expects the buildings to be completed and ready for occupancy in a month from now. Great pains has been taken to incorporate all modern conveniences in the houses, and they are expected to be as nearly perfect as at present possible.

Building permits were issued during the week ending September 21st as follows:

John Rogers, F street between Brig-ham and H, double brick residence, \$4,-

E. W. Druce, Third street between D and E, brick residence, \$1,500. Deseret savings sans, First between

garding that property and the Quiney which have had such a disastrous effect on Daly West stock during the past on Daly week. Last evening he called up James Fa rell, president and manager of the Outney company and learned that the rumors are absolutely without found-Mr. Farrell denied most postation. tively that there has been expressed on he part of any Quincy shareholder any threat against the Daly West. Coming from Mr. Farrell this would seem to settle the lawsuit rumor for a few months at least.

Horn Silver Dividend.

2% Advices were received last evening by Manager Farnsworth of the Horn Sil ver that the directors of the company met in New York on the 15th and de-clared a dividend of \$32,000 or 8 cents a 18% share, payable on September 30th. The 1% transfer books closed on the 23rd. The last dividend was declared in June, 1900 and amounted to 5 cents a share.

#### Lead Ore in the Shaft.

Director James Chipman has returned from an inspection of the Lower Mammoth. He reports the shaft down be-low the 1,000 level, and a small body of lead ore is entering the bottom of the shaft. The winze below the 900 is down about 80 feet in ore, which is said to be shipping grade. The vein appears to be 15 feet wide in the bottom of the winze. The west fissure is disclosing a fine body of silver and cop-per ore, the finest chute in the mine. The upraise from the 700 has also opened up about 6 feet of silver ore. Altogether Mr. Chipman considers the con-dition of the mine very satisfactory and with greater depth he expects to see it one of the big producers of Tintic. The management is hampered be-cause of hoisting facilities, but as soon as the mine is further developed the shaft may be made double compart-

ment, as it is below the 900.

#### Former Salt Laker's Luck.

C. C. Ruthrauff, formerly of Salt Lake, has discovered, through information given him by a prospector, what seems likely to mark the location of one of the best mining districts in the Northwest, says the Halley (Ida.) Times. His lo-cations are on the divide between the South Bolse, the Big Smoky and the Little Smoky rivers, and are laid across seven hills, from either of which 200 to 600 feet of backs can be got by tunnels. They will be self-draining, and Mr. Ruthrauff put a force of miners to work and when he left here last Saturday he had sunk a shaft at each end of the 6,000 feet that he located; sunk a pit 4,000 feet north of the discovery; driven a tunnel forty-five feet long in the very center of the group, below the outcrop-ping, and drifted on the vein about twenty feet; besides making open cuts and sinking several shallow pits. all these openings ore was found. The outcropping was found to be solid ore, ten feet of which—a bluish-gray quartz —assays \$66 in gold. The first sample taken there assayed \$93.50 in gold. It was an astonisher.

Tonapah Shipments.

Returns were received during the oast week to the net amount of \$19,-576.64.after deduction of rallroad freight and treatment charges, says the Tona-pah Bonanza. The highest return was on a small shipment from lease No. 35. Bianchi & Co., which gave a return of 786 ounces in silver and 15.36 ounces in gold, or a total value of \$715.80 per ton. Another high return was from a small shipment from lease No. 82, which gave a return of 717 ounces in silver and 9.25 ounces in gold per ton. The low-est return received was on ors which gave a return of over \$150 per ton.

#### MINING NOTES.

AMALCAMATED COPPER.

ItWas the Great Feature on the Stock Market, Fluctuating Violently.

> Omission of Customary Extra Bividend Chief Cause-Bank Statement Brought Prices Up.

New York, Sept. 21 .- Trading in the stock market at the opening was very small, due to the uncertainty of the effect upon speculation of the omission of the customary extra dividend on Amalgamated Copper. The first 8,500 shares of that stock sold simultaneously at 103 and 101, compared with the closing price last night of 10715. The stock rallied immediately 11/2 and then fluctuated violently and feverishly. In the general list fractional declines were the rule on very small dealings.

The depressing effect of the slump in Amalgamated Copper wore off when the local traction stocks were advanced rapidly under the leadership of Man-hattan. That stock made an extreme rise of 2½, touching 122%. Brooklyn Transit and Metropolitan Street Railway rose 2 each. Prominent railroads made sharp fractional advances. Amalgamated Copper was well suported up to a point above the opening low level. Amalgamated Copper then ran down to below the earlier low point. Man-hattan re-acted 14 and Sugar lost as much. Amalgamated Copper fell to par and Anaconda lost 2. There were declines of a fraction to 1% among the Vanderbilts. Canada Southeer leading. Vanderbilts, Canada Southern leading the declines. The general market dropped until the appearance of the bank statement when prices rallied. The local tractions led against, Manhattan rising 2% over last night, Metropolitan Street Rallway, 3½ and Brooklyn Tran-sit 2%. The general movement was narrow. The closing was moderately active and irregular.
