Grande Western railway and liberal prizes have been offered for the various specimens of the business men of the state. The newspaper men within the limits of the special rates have given every assistance possible and the awarding committee to one of the greatest of the kind ever held. The committee on arrangements have been graciously helped by the various gentlemen connected with the city government to present on July 24th.

We are extending from Frank J. Cannon, one of our business men, who will deliver a speech on "The Press" at 8 o'clock on Friday, July 19th, at the Hotel Utah. Cannon is a member of the Press Association and will represent the Press Association of the state. The committee on arrangements have been graciously helped by the various gentlemen connected with the city government to present on July 24th.

We expect 2,000 people on the grounds and have ample accommodations for more than that number. The committee on arrangements have been graciously helped by the various gentlemen connected with the city government to present on July 24th.

INDIAN WAR VETERANS.

They Will Hold an Annual Camp Fire

at the Hotel Utah, July 18, 1896.

The fourth annual camp fire of the Utah county Veterans of the Black Hawk war will be held at the Hotel Utah, on the 18th, 19th and 20th of August, 1896. At a meeting of the executive committee held at the Hotel Utah on June 25, 1896, it was decided to ask our comrades in all the counties of the state of Utah, to send one of their number to the camp fire, for the purpose of organizing a state society of the veterans of the Indian war of Utah. Do not wait for a further invitation, as we have an abundance of knowing all the same, but you will all be made welcome.

TOO MUCH STREET PLOWING.

A Correspondent of the City Council

has published the following:

Open letter to the City Council:

Gentlemen—I wish to ask a few questions concerning expenditures made for the street department on the superior's account for the month of June, 1896.

The amount asked for was \$1,213.97.

Now would it not be to the limit of economy to instruct the street superintendent to make plowing up the highways and byways at the city for the year?

The result of the work done for the past two years by Mr. Mulvey and his workmen has been in every way satisfactory to the traveling public and to

those who live near them. They make a safe, for the following reason: The dirt after being plowed up is then spread into the middle of the street, forming what is called a grade, and there left for the public to travel over. As a rule the dirt is very dry, and by the action of the horse's hoofs, the wheels of the numerous vehicles that pass over it, it is so broken up that it is almost impossible to travel over it. It is so broken up that it is almost impossible to travel over it.

Then as a rule at a heavy rate of travel, the dirt is so broken up that it is almost impossible to travel over it.

The street has been made by some former superior, that these streets were being graded previously to their being paved.

After a year or two, by the action of the wind upon these dirt piles (designated graded streets) and the frequent passing of these vehicles, the dirt is so broken up that it is almost impossible to travel over it.

Now, as a matter of fact, I may ask the question, why not about this time, when the streets are so broken up, and the dirt is so broken up that it is almost impossible to travel over it.
