

Nat M. Brigham, at Wheaton, Ill., Miss Mary Merza Young and Mr. Howard Goulding, both of New York

Mrs. Goulding is the daughter of Mr. John W. Young, and her marriage announcement will come as a surprise to ter many relatives and friends in Utah. Mr. Goulding is a Pennsylvanian by Mr. Goulding is a Pennsylvanian by birth but has lived in the west of late years, his mother owning mining inter-ests in Californis. Mr. Goulding has now made New York his home and, being a mechanical engineer, he has found a big field for his profession here where so many large apartment houses, and other mammoth buildings are go-ing up.

Judge Herrick performed the ceremony. Mr. and Mrs. Goulding spent Thanksgiving day with Mr. and Mrs. Brigham and family, leaving on the evening train for New York, where they will reside. Congratulations from their friends here will await them.

Their friends here win await them. Thanksgiving was observed by the Utah colony in a quiet but social way, many of the elders receiving invitations from friends here, in Brooklyn and Newark, all partaking of excellent din-ners and enjoying the day thoroughly Mrs. Pryor, in her usual hospitable way, gave a dinner to her friends, the elders, at 420 Wset One Hundred and Twenty-fourth street. In the evening there were several informal parties, Mr. and Mrs. Wesley Early having a num-ber of friends at then home who came o surprise the genial hosts, and enjoy-ing a rare evening of music and enter-tainment.

health and strength to the nervous and exhausted as is shown by the experience of Mrs. R. P. Taylor, of Oakland, Kans. She says: — "I am glad to recommend Dr. Wil-liams' Pink Pills to weak and nervous women, because they build and tone up the whole system and give lasting bene-fit. Some years ago I had nervous de-bility and seemed to be on the verge of a collapse. I was all broken down. My heart beat so fast at times that it would frighten me. I had smothering sensa-tions and felt as though I was going to faint. These spells came on me fre-quently. My stomach was affected. I did not enjoy my meals but had to force the food down. I often had severe ner-yous headaches which made me dizzy. I was greatly reduced in weight. — "The doctors pronounced my troubl-weakness and nervous debility. He would help me for a while and I would think I was getting better but as soon as I quit taking his medicine I would become as bad as ever. I had been sick for over two years, before I decided to try Dr. Williams' Pink Pills. A few boxes proved to me that the pills were helping me and I used them mutil en-tipls now as a tonic and always find immediate relief." Dr. Williams' Pink Pills contain the elements necessary to make new blood and, as the nerves get their nourishment from the blood, have been found invalu-able in a wide range of diseases of the blood and nerves, such as rhematism, after-effects of the grip and fevers, neuralgia, nervous debility. St. Vitus' ducee and even partial paralysis and locomotor ataxia. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid. on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Madleine C. Schwarted V.Y. Messra. Joseph Decker, Thomas Shannon and Joseph Essex, business men of Salt Lake, have been in the city for several days and tonight gave a dinner at the Savoy to a few of their New York friends, a very de-lightful time being spent. Mr. Decker leaves for his home in Salt Lake Sat-urday next; the others leave a few days later. . . .

A number of new elders came in the past week: H. M. Dudley and C. L. Cheney have been appointed to the N. W. Virginia conference; P. W. Christianson, A. R. Briggs and R. M. Haddock will go to the South West Virginia conference, and H. C. Foulger will labor in Brooklyn.

Many of the friends of Dr. James E Many of the friends of Dr. James E. Talmage were disappointed in not see-ing him during his flying visit to the city last week, but as he only had a few hours in the city, he could make no calls. It is with genuine pleasure that the people here receive the visits of Dr. Talmage, the only fault being they are so few and far between.

Elder Ambrose Call, who arrived last week, has been assigned to Philadel-phia to labor.

At today's Latter-day Saint services, Mr. William McKey was a new arrival, having just come from Chicago, where Mrs. McKey is visiting relatives. Mr. McKey has been playing a sketch for some time, and is now rehearsing an-other for the road.

ment to Build Them Up. The first thing to do when threatened with nervous trouble is to stop the cause of it, if possible, whether it is irregular living, worry, or whatever it may be. Then the nerves must be given special nourishment and the blood must be kept pure and rich. This is the mission of Dr. Williams' Pink Pills and this is why the pills have been used with such great success in nervous trouble that did no' yield to ordinary methods of treatment. These pills are a tonic for both men and women but are especially adapted for girls and women of all ages, and give just the aid required to bring back health and strength to the nervous and exhausted as is shown by the experience of Mrs. R. Diamonds, rubies, sapphires, spinels, fourmalines, garnets, rock crystals and various soits of amber and jadeito are the precious stones found on India's the precious siones found on India's coral strand. The ruby and jndite wate the only stones of considerable value produced. Large quantities of tur-quoise come from Sikkim and Tibet that item the latter country being harder. darker blue, and therefore more valu-ble. The importation of precious stones into India amounts annually to about \$4,00,00. The diamond industry is limited and is carried on in southern India, the north-for part of the Indian peninsula and in the central provinces. Ruby mining is carried on in Super Hurma, and next to petroleum is the most provinable of the mineral resources of the staft, the value of the product being about \$50,000 an-nually. The yellow, while blue and green varieties of sapphires are found in the ruby bearing gravers in Burma. The spinel is found in considerable quan-tities in Burma. Tourmaline stones of blue, green and black coloring are found in Upper Bur-ma, garnets are mined in Jaipur. Rock crystal, cut for cheap jewelry, known as valeam diamonds, is found in Madras. Another quarks crystal found in Kala-bagh is cheaper and is used for meck-laces. Chalcedonic silica is called hap-pik and embraces many forms of agate mined in the Decean. Agates and cur-nelians are cut and prepared for market in Bombay. They come mostly from Rajpipea. Large quantities are shipped to Europe and an inferior jade is found in other parts of India. The stone sells for \$50 to \$100 a hundred weight.— Chicago Tribune.

general curias has recently been issued from the valican under the signatures of Cardinal Vives y Tuto, prefect, and Abbot Jamsens. O.S.B., sccrefary of the Congregation of Religious. It is under-stood in Catholic circles that the in-spiration of it has come from the pope humsel. The document is interesting on account of the glimpse it gives of the character of the new universal code of canon law which Cardinal Gasparri, with his 40 commissioners, is competing. The "instruction" really forms part of this code, and both Cardinal Vives and Abbot Jamsens are among the most ac-tive members of the commission of codi-fication. The same is true of another document just issued regarding debts points out that the facility with which they are contracted "disturb the peace and imperil the good repute" of various "Religious Families." Such flaotities are often contracted unwisely with the best of motives, such as the extension of an order or the relief of distress. They and the Congregation of Re-ligious families." Such flaotities are onthe rows, such as the extension of an order or the relief of distress. They are dangerous, however, when they do not harmonize with Christian pru-dence. Therefore Plus X after taking the opinions of the Congregation of Re-visican on July 30, 1509, decided to issue prescriptions for the observance of all orders, congregations and institutes of both sexes, whether of solem or simple vows, and by monasteries, colleges and religious houses. All superiors are forbidden to contract sections dobts or undertake financial obligations without the consent of the absence of such bodies, without the con-sent of the bishop. Serious debts are defined as ranging from 5100 to 5300 in the case of single houses, from \$300 to 51,000 in the case of provinces and anything exceeding \$1,000 in the case of general ouring. If a liability of over \$2,000 is to be formed the permission of the apostolic sec must be secured. Tongregations having no councils are-ordered to constitute them within three months.

Notice to bandwide them within three months. No foundation of a monastery or house, and no extension or change of a foundation is to be made when the nec-essary money is not in hand and when for this purpose debts or financial ob-ligations have to be contracted, although the ground or materials for the build-ing or some part of the building itself be given gratuitously.
