Mrs. Clem's Case. INDIANAPOLIS, 29.—The reasons

INDIANAPOLIS, 29.—The reasons given by the prosecuting attorney of Boone Co., for moving for a nolle prosecut in the case of Mrs. Clem, were the death of an important witness, the absence of others in California, and the want of funds for conducting the prosecution. On the first trial of Mrs. Clem, the jury disagreed; the second and third resulted in conviction and life sentence to the viction, and life sentence to the penitentiary, the Supreme Court in both cases reversing the decision. A change of venue was then taken to Boone Co., where a third conviction and life sentence were imposed, and after two years of this sentence had expired the Supreme Court set aside the verdict, and the fifth trial resulted as above, and Mrs.

SENATE.

Civil Rights Bill.

WASHINGTON, 29.—When the morning hour expired the Senate, on motion of Frelinghuysen, proceeded to the consideration of the supplemental civil rights bill. The amendments of the judiciary committee were concurred in.

Frelinghuysen explained the bill, which he said was intended to secure equal rights to both white and colored citizens.

Thurman moved to strike out the second section, which imposes a fine of five hundred dollars for violation of the act, to be paid to the person aggrieved, and also for the punishment, by fine and imprisonment, for the same offence. Without a vote the Senate went into executive session, and adjourned.

Help for the Widows and orphans.

New York, 29.—The treasurer found within her limits. The mountains contain more and richer gold and silver bearing veins than any section of the same area on the continent. In saying this, we do not disparage Montana, Idaho, Utah, New Mexico, Wyoming or Colorado, for they all have their mineral development still in its infancy.

Many of the mines have been abandoned because work could not viver is the miner or traveler safe.

The famous Mowry mine, the Lee & Scott mine near Tucson, and others in every portion of the Territory have been abandoned because no force of miners could be found to work them, expecting every moment that their bodies would become the receptacle of an arrow or a bullet. The ores of Arizona include nearly all those known to the mineralogist, and what is of ouite as much significant. known to the mineralogist, and what is of quite as much signifi-cance almost all of those carrying Compendium, calf gilt...... gold and silver are tractable, containing fewer sulphurets than the River and Harbor Appropriation ores from more northern mines. To the above the Arizona Miner Northern and Eastern Arizona i well watered, and we doubt if man well watered, and we doubt if man or beast have ever suffered from thirst while traveling through it.

A large amout of grain harvested in Arizona is raised without irrigation, nearly all the farmers in the north-eastern portion of the Territory depending entirely upon rain.

The land is broken with steel plows, the grain harvested with reaper and threshed by steam.
