remus Give Expert Testimony.

Mr. Hamomnd denies that there had been any stock jobing in the matter, and intimated the belief that the mine could yet be put upon a dividend pay-ing basis. He said he would only take hold of the mine if given absolute con-trol of the property, with all the pow-

rs of a board of directors. Mr. Winfield S. Stratton, when ques tioned regarding the present condition of the Independence mine, which he sold in London, said: "I do not care to discuss the mat

ter. I am not in the company and have not been for months. It is my opinion, however, that the property has been worked too hard. The manage ment has simply made a mistake in what it thought the property could do I am satisfied that the Venture corpora-tion is absolutely honest in the han-

dling of the stock company." The opinion of Cripple Creek mining men generally is that the London com-pany has simply neglected to do the necessary development work and had drawn too heavily upon the ore .re serves for the purpose of paying large Hvidends

Thomas F. Walsh, owner of the Camp Bird mine, said today regarding the in-dependence: "The property was no doubt worth all that was paid for it by English investors, and the manage ent in Colorado is not responsible fo aking out the reserves of such a wholesale rate. that S. T. Thompson, who recently bonded the Ida property from John Magnuson in the interest of Sait Lake parties, put two men to work last Mon-day grading a site for a tunnel. Manager A. D. Lewis of the Imperial

Copper company who came up from Frisca today, reports the new shaft on the Cactus group down eighteen feet with a fine grade of ore in sight. A new discovery of excellent ore is also reported near the mouth of the tunnel.

BUSINESS WAS VERY LARCE

At the Opening the Tone of the Stock Market Was Very Irregular.

Changes Were Small, Not Reaching a Point-Support Given Special Stocks.

New York, Nov. 20 .- The tone of the stock market in the opening dealings was exceedingly irregular, different stocks in the same groups moving in contrary directions. Business was large and widely distributed, but changes did not reach a point except in a very few cases. Brooklyn Transit Northern Pacific, Great Northern pre-

Northern Pacific, Great Northern pre-ferred, Union Pavific and Steel & Wire preferred were among those showing gains of about a point. Trading was very confused and largely manipu-lative. Support was extended to special stocks under cover of which large sales were made in others. The weakest were made in others. The weakest features were American Linseed pre-ferred, Steel Hoop preferred, Tennessee rerred, Steel Hoop preferred, Tennessee Coal and People's Gas, which lost 14 @346, the first the chief sufferer. By 10:30 the speculation became more set-tled and the most active stocks were inclined to follow the lead of Northern Pacific, which rose to 69%. Great Northern preferred rose 3. Purchases to cover shorts benefitied the steel group People's Gas and the treations group, People's Gas and the tractions from 1 to 2% points and a few of the railroads rose over last night. North American became active and advanced Orders to sell on the rise in the group stimulated a bear attack and the group re-acted sharply, drag-

ging the general market along. Dull-meas then developed and as pressure re-laxed prices of some stocks hardened slightly. Bonds were rather quiet and

JUDGE TIMMONY'S COURT.

One lone solitary backslider graced the mourner's bench in the gilded tem. ple of justice today. He was George Hamilton, a young laborer from Park

City. George came to town last even-ing and concluded to have a time. He had it. When the charge of drunk-enness was read to him, he pleaded guilty, and begged for an opportunity to separate himself from the city of Salt Lake. He is now on his way to Park City. Park City

supply agent has ordered that every lampwick be used until there is not enough of it left to connect with the old in the bowl. Tiny pins have been provided to the lamp users to keep the short pieces of wick in position for continued service

Trainmen have been ordered to practice more marked economy. They have been given to understand that links, pins, lantern globes, lard oil, flags, forches, torpedoes and other things in common use are valuable, and that they would be expected to be as careful with

them as they could be, The inspector takes the "Economy Special" out every sixty days, visiting all places on the two divisions. At each office he checks up the supplies on hand, notes what is needed and gathers in the old waste, bent pins, twisted links and other things that have lost their worth in the service. The old pins and links, if too badly out of shape, are sold for old iron.

ROCK ISLAND PLANS.

Preparing for Active Construction in West Texas and New Mexico.

A special from Santa Fe says: The Rock Island White Oaks railroad sur-veyors are at work 100 miles south of Santa Fe. Chief Engineer Summer of the White Oaks route and party driven the final grade stakes for the proposed road twenty-two miles east and north of Pecos river at Santa Rosa, and have a double track toward the

east. Under the arrangement with Rock Island people the surveyors of the El Paso and Northeastern company are to define this end of the line from Carrizzozo mountains to the Pecos, and construction work will not be long delayed.

AMUSEMENTS. community and the second secon

The sale for Alice Neilson at the Theater today proved a breaker of records. At least Manager Pyper says that since his connection with the house the seals were never entirely cleaned out by 2 o'clock as they were today. The line began forming at 9 o'clock last night. 'By midnight there were thirty people on hand and the number was constantly added to until. when the box office opened, there were not fewer than 300 people in front of the Theater. The rule of limiting ev-ery buyer to four tickets was rigidly

ery buyer to four tickets was rigidly adhered to, but at 2 o'clock every seat down stairs and all those in the first circle, except the last row, had been taken for Thursday night, and almost an equal number fer Friday night. Mr. Pyper has wired Miss Neilson's mana-ger suggesting a Friday afternoon mati. nee, 4 6 6

At the Grand last night the comedy, with the odd title, "A Hindoo Hoodoo," opened an engagement of three nights and a Wednesday matince. The piece belongs on the wildly ridiculous order of farce creations, but improbable as in of farce creations, but improbable as it is, it drew unbounded jaughter from those in attendance. The best work of the night was done by Mattle Lockette, Laura Oakely, who fills the part form-erly played by Anna Boyd, and Mar-celle Bonetta. Most of the men were clover and the bolls were accessed clever, and the ladles were generally handsome and sprightly. The same bill

goes again tonight. The sale at Daynes Music Store for the big opera company moved along slowly today, though Mr. Kronberg says he has received so many assurances from leading citizens that the demand would improve as the date of

plication, so that the thought of this

great organization passing us by will be abandoned.

Regarding i supposed friction be

tween Mr. Mulvey and Mr. Cummings and myself, I wish to say it is an error.

There is no friction that I am aware of

except that Mr. Mulvey granted Mr. Cummings permission to go back on the

stage to see what scenery there was in the theater, that he might determine

what immediate improvements were necessary to put the place in condition, admitting the building of new produc-tions each week; and then because I
