Ogden, March 28 .- All users of water from the Ogden Waterworks company are now receiving a bill from the company for the water tax due for the first six months of the present year, and accompanying each bill is an application and contract for the supply of water. and contract for the supply of water. The water company is making it obli-gatory on all consumers to sign the contract before it will accept the rates. Some of the users have objected to sign-ing the contract, as there are clauses contained in it that they are not satis-fied with. Some water consumers have taken their tax notices to the company's effect on the First National hank build. office in the First National bank build-ing with the cash to pay for the tax, but because they refused to sign the application and contract as it reads, the company's clerks refused to accept the cash. The company, however, has the best of the proposition, as it is with-in its power to shut off the water from the consumer. One of the clauses of the contract reads: "I also hereby agree that the penalties following a violation of the rules of said company, for a in the First National bank buildof the rules of said company, for a non-payment of water rentals, where-by the supply shall be stopped and shut off by the company, will not relieve me from the obligation hereby assumed to pay for the water under this contract." An extract from the rates fixed by the water company is as follows: "The Ogden Water Works company

may charge and collect the following

House or private residence occu- pied by one family, two rooms or less	
Three rooms	
Each additional room	
Bath tub private residence	1.00
Water closet private residence

Another clause in the contract which the consumers are required to sign reads, "and the said rate is satisfacreads, and the said rate is satisfic-tory to me," when as a matter of fact some of the rates are not entirely sat-isfactory. The district court has held that the new ordinance fixing the wa-ter rates is valid, and therefore the people will have to pay them if they use the water.

Boise, Ida., March 21.—Henry Dorn, an insame man confined in the county jall in this city, today shot Deputy Sheriff Driscoll in the face with a charge of birdshot and later attempted to commit suicide by shooting himself in the head. Dorn was transferred from the hospital to the county jall last evening by the deputy sheriff. Imme-diately after confining him in the cell, the demented man reached through the bars and secured an old riffe which for a long time had been standing bestide the door. Several attempts were made

OLD SORES FED AND KEPT OPEN with telling effect. Seizing the hose with telling effect. Seizing the hose, they turned the loc cold water full blast upon him. This had the power of subduing him, but not until he had fired all the ammunition in his posses-sion. He had only two cartridges left, one of these he bred at his persecutors and the last he fired into his own head, just between the eyes. The shot was a glancing one and simply inflicted a scalp wound. The shot fired at the guards went astray.

A great many people have an idea BY IMPURE BLOOD that old sores exist merely because of a diseased condition of the flesh where the ulcer is located. They

patiently apply salves, powders, plasters and other external applications, but in spite of all such treatment the place refuses to heal. Whenever a sore or ulcer does not heal readily the blood is at fault; this vital fluid is filled with impurities and poisons which are constantly being discharged into the place, feeding it with noxious matter, which makes it impossible for the sore to heal. Old sores may be the result of an inherited blood taint, or the effects of a long spell of sickness, or again the circulation may be contaminated with the collections of refuse matter which the different members have failed to expel through the channels of

nature. Whatever the cause the blood becomes steeped in poison and a cut, bruise, scratch or other wound often develops into a sore, fed and kept up by these impurities, causing it to eat deeper into the surrounding tissue, inflaming, festering and causing pain. External applications can only keep the sore clean; they cannot cure the

trouble because they do not reach the blood. S. S. S. cures Old Sores by going to the very bottom of the trouble, driving out the impurities and poisons and purifying and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, the place scabs over and is soon permanently healed. "We think that at the next state elec-tion the Democratic party has every chance to be successful, providing that we can go before the people with a real live issue and on a sensible platform. The Mormon question is no political is-sue, and Mr. Dubois must be given to understand that the Democratic party at the next compaign cannot be used by him to parade his flighty notions before the people. We believe that now is the time to get busy on this proposition and that is just what we are doing. I am sorry that the news of the move-ment came out quite so soon, but if ment came out quite so soon, but it won't make much difference for the ball is now rolling very nicely."

Seventeen students of the eighth grade have been taking examinations in Rigby this week, lo of whom belong to the Rigby school, the others from places adjacent. Frof. Moser from Teton Basin conducted the examination here, and Prof. J. D. Long of the Rigby school went to Rexburg for a similar purpose. The examinations are given thus early to accommodate pupils in some of the smaller districts where schools have to be closed early owing to lack of funds. The school here will continue six weeks longer and another examination will be held in May. On the 20th the Relief society celebrated the antiversary of the founding of the society by a ball at Peck's Opera hall. The latest candidates for hymeneal bliss from Rigby are Ammon C.
