No Serious Disturbances Likely-Combination of Unpleasant Clicons. stances Makes Awkward.

Havana, Cuba, Sept. 34 .- The small band of rebels which has been traversing the country in the vicinity of Mayari, in the northern section of Santiago province, has, according to late dispatches, again exchanged shots with the pursuing rurales. The intter are cluss on the heels of the bandits.

Gov. Magoon has determined to deal with outlaws and insurrectionlats with a strong hand. The orders of the rurales, it is stated, are to capture, kill or drive them into the

While there are signs of uncasiness in various parts of the island, the opinion prevails here that no serious disturbance is likely. In commenting or the situation, the Diarlo de la Ma-

Fina says: "A combination of unpleasant cir-"A combination of unpleasant cir-cumstances having no link one with the other, appears to make the sit-nation at first sight more serious than it really is. Each one of the prob-limis that at present contront the ad-ministration—the yellow fever epi-demic, the conspiracy of Parra, Miret and Ducassi, the existence of hands of outlaws in the country and the railroad strike is of an alarming character, but except for the tendency of the strike to become general and stop railway communication, through-out the island, these events are of no great importance in themselves. "The yellow fever has not opread and there appears no danger of a general epidemic, as cases are com-paratively few up to the present time." "The complement of the second

#### THAT TWILIGHT INTERVIEW.

#### Saturday Night's Slush Branded as False and Distorted by the

Victim of Misquotation.

Hon, A. Milton Musser prohounces the purported interview with him, published in the evening edition of the Tribune last Saturday, to be distorted and false. This, he suys, for the reason that what he really did say to the reporter who visited him was carefully eliminated from the report, while half of the front page of the sheet was filled up with quotations, searcely one word of which was uttered by him.

When the reporter entered Mr. Muss. ser's office and asked his views on certain political matters, he was told that he had come to the wrong person for information. Mr. Musser states that he jokingly said that politically he did not weigh more than three ounces to the pound, and he gave the fellow the names of several politicians to whom he could go with far hetter prospects of getting what he wanted.

GAVE HIS REASONS.

GAVE HIS REASONS. The answer to questions, however, Mr. Musser stated that he wished to see the "American" party defeated in the coming election, and gave his reasons therefor. Among the objections enumer-ated by him against the party now in power was the mal-administration from which Salt Lake has suffered for two years, the scandals in the police depart-ment, the jangling and wrangling of the majority in the city council, the un-crude and in some instances almost worthless paving that has recently been done, etc. For these and other short-comings of the "American" party. Mr. Musser was decidedly of the opinion, he told the reporter, that it should no long. THAT FUSION TALK.

THAT FUSION TALK.

THAT FUSION TALK. As to how the aggregation should be beaten, Mr. Musser did not make men-tion, he declares. He did not make use of the terms "Democrat" or "Re-publican," and did not say that the otherents of the one should flock to the other. He thought fusion was about the right thing under the circum-stances, but the manner and means of accomplishing it was not discussed by him, and what he did say to the report-er, states Mr. Musser, was his private opinion, after trying to get away from talking at all.

#### CLOSE OUT ENTIRE STOCK IN NEXT TEN DAYS

No need to tell you how susceptible to injury are the highly polished surfaces of pianos from dust, dirt, plaster, cement, falling bricks, etc. No need to tell you of the damage liable to occur by moving the planos about or by rubbish incident to the work, or that the workmen must have room. These facts, while they make this sale necessary, scarcely need to be related.

No need to tell you that to move this immense stock to a storage house, then back after store is completed would involve a big expense and damage to the goods. So we have decided to simply give the people a chance at the entire stock, to buy instruments here during the next ten days at their cost to us. Instead of moving the pianos to a storage house we will move them to the homes of the people, taking our unavoidable loss in loss of profits, rather than in damaged goods, the buyers getting the benefit.
