were hermined in by the rising waters on Monday. They sought refuge on top of a big water tank and at last ac-counts were still on the tank surround-ed by four miles of water. An effort will be made today to rescue them.

RAINIER CLUB BANQUET

Nature and a woman's work combined have produced the grandest temedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering. The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs. Lydia E. Pinkham's Vegetable Compound is now recognized as the

standard remedy for woman's ills. Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing

to make my troubles public. "For twelve years I had been suffer-ing with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice re-stored health and strength. It is worth mountains of gold to suffering women

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff. it will do for other suffering women.

tory of the club. Two hundred guests including Admiral Sperry and 100 of-ficers, Gov. Albert E. Mead, and Mayor J. F. Miller, were present. In the cen-ter of the dining room there was a representation of a battleship made of

flowers. When the coffee and, cigars were reached, President George H. Walker of the club, called John H. Powell to the chair to act as toastmaster. Speeches approprite to the occasion were made by Rear Admiral Sperry, Rear Admiral W. H. Emory and Capt. Richard Wainwright. The army was represented by Col. Thomas C. Wood-bury of Fort Lawton, Gov. Mead, Frederick Bausman and ex-Gov. John H. McGraw.

Frederick Bausman and ex-Gov. Joint H. McGraw. Among the recent arrivals was an excursion of 250 from the Spokane chamber of commerce, headed by May-or Moore. Gov. Mead will today of-ficially welcome the fleet to the state of Washington. This necessary for-amility has been postponed owing to the absence of the governor in the éast

GATHERING OF SURGEONS.

the United States government, said at the Aero club last night that mea-sures had been taken in this country similar to those enforced in France and Germany cohibiting balloon as-censions in all cases where the pilot and the balloon had not first obtained government approval. A. C. Triaca.

rnment approval. Triace director of the international school of aeronautics, said: "It is criminal to permit a man who knows nothing about mechanical con-struction or the piloting of balloons to endanger the lives of persons. The Acro Club of America should voice its strong disapproval in the matter. Such escapades scriously affect the work real aeronauts are trying to do." William R. Kimball said there, had been no casualities in this country ex-cept to persons not connected with or-ganized bodies. "In three years the aero clubs of the United States have had no accident due to defective ap-paratus," he added, rector of the international school of

PORT OF ROME.

Paolo Tuccimei, Eminent Italian Engineer, Here in Interest of Project.

New York, May 26.—Paolo Tuccimei, the Italian engineer, who is in this country in the Interest of the com-mittee of capitalists and prominent men of Rome who have launched the proposition of making Rome a port, has arrived in this city from Washing-ton and had as consultation with the Italian consul, Count Feybaudi Mas-silia.

Italian consul, Count Feybaudi Mas-silia. There he made arrangements for a conference with the leading members of the Italian chamber of commerce to be held at the National Italian club on June 4, at which Mr. Tuccimei will explain the details of the project. Ar-rangements will also be made for the organization in this city of a commit-tee to co-operate with the Roman com-mittee in the work. Similar organiza-tions have already been organized by Mr. Tuccimei in Philadelphia, Wash-ington and Boston. Contrary to the impression that has been circulated that the Italian gov-ornment is not with the municipality in the movement, it has agreed to build the seaport at the Mediterranean end of the proposed canal which will cost many millions of dollars. Work on the highway and electric road from the sea to Rome has already been be-gun by the municipality but the plans for the canal have not yet been com-**pleted.** It is hoped that the entire sys-tem will be opened by 1911, in time for the celebration of the fiftieth anni-versary of the making of Rome the capital of Italy.

TO DEEPEN HELL GATE CHANNEL

TO DEEPEN HELL GATE CHANNEL, New York, May 26.-To preclude the possibility of such accidents as that which happened to the Metropolitan line steamer H. M. Whitney, which has been aground at Flood Rock at Hell Gate, the dangerous Long Island sound entrance to the port of New York late Saturday, the engineer corps of the United States army will begin early in June the work of deepening the channel at that point. The work must be completed in two years. The rock which broke the back of the Whitney is the principal menece to navigation. It is only 18 feet under water. When the engineers get through with it it will have been blown away to an average depth of 26 feet— a sufficient depth to accommodate any vessel likely to desire to make the pas-

essel likely to desire to make the pas

age. The work now to be attempted i the most important in this vicinity since the original blowing up of Heil Gate two decades back. Congress has appropriated \$250,000 for it.

Mrs. S. Joyce, 180 Sullivan St., Clare-mont, N. H., writes: "Aboat a year ago I hought two bottles of Foley's Kidney Cure. It cured me of a severe case of Kidney trouble of several years' stand-ing. It certainly is a grand, good medi-cine, and I heartily recommend it." F.J. Hill Drug Co., "The Never Substitutors."

MAE C. WOOD BAILED OUT. *

New York, May 25 .- Mae C. Wood, the woman from Omaha who sued Senator Thomas C. Platt for divorce, alleging that she was secretly married to him in 1901, was released on \$5,000 ball today. Miss Wood is charged with perjury in the testimony heard in the case last week. When the bail bond had been made

Morse will be placed on trial in the fer oral court on Oct. 14 next on a churk of conspiracy and misapplication of the funds of the National Bank of North America. The same date was set for Ine trial of F. Angustus Heinzo, who was in-dicted on a charge of overcertification of checks while president of the Mercantilo National bank.

THE COW AND HER MILK.

Prof. C. B. Lane Tells How Both May Be Improved.

The cow and her product formed the subject of an interesting lecture at the Federation of Labor hall last evening by Prof. C. B. Lane, assistant chief of the dairy department of the United States department of the United States department. A goodly number of darymen were in attendance, and the speaker was listened to with the utmost attention as he gave suggestion uthost attention as he gave suggestion after suggestion that would bring bet-ter results to the milkmen and more satisfaction to patrons. Mr. Lane was in Salt Lake a few weeks ago, since which time he had noticed improvements in local dairies following hints given by him. Conditions

following hints given by him. Conditions are by no means perfect yet, and state and federal legislation is necessary to thoroughly remedy the existing state of affairs. The scoring system was strongly urged by the speaker, as by that means the public would better be able to judge of what they were get-ting in the way of milk, cream and butter. Stabling, feeding, cleanliness in milking, etc., received attention from Mr. Lane.

THE NERVE OF SOME PEOPLE.

A good story comes today from the shoe department of Z. C. M. 1. which goes to prove the assertion that the herve of some people is immense. A man walked into the store indicated arrying a bundle, which he said con-ained shoes that he wanted to change. tained shoes that he wanted to change. The parcel was unwrapped, and the shoes were found to be from the mail order house of Sears, Roebuck & Co. When the clerk demured against giv-ing for them a padr of larger or small-er dimensions, the man became ruffled in his feelings and dediared that while the firm from which he bought the goods would not make the exchange, he thought Z. C. M. I. would thus ac-commodate bim.
