MINING, BUSINESS AND STOCKS.

VOLUME OF BUSINESS LIGHT

Conditions Which Prevailed in the Stock Pit Today.

PRICES RANGED LOWER.

Daily Stocks All Tended Downward—Closing Quotations and Sales of This Forenoon's Session.

The tone of the mining share market was not so good today. Compared to yesterday the range of prices was lower and the volume of sales fell short by considerable. Altogether, on the regular and open boards 14,745 shares were transferred, which brought $18,718.12.

Considerable trading was done in Con. Mercur at about yesterday's figures. Daly-West participated; the first sale was quoted at $40.05, weakening to $39.97½ at the close. Lower Mammoth held firm, as did Sacramento. California continues to be a frost and holders of the stock are ready to part with it at almost any price. A buyer was found for a board lot at 5 cents a share. New York passed through the forenoon practically unchanged. Victor was a ready trader around 24 cents, while Wabash opened at 26½ cents, at which figure it also closed.

On the open board Daly-Judge was brought out and at prices much below yesterday's quotations. Thompson was in demand; 1,850 shares were exchanged.

The closing quotations and sales of the forenoon, were as follows:

TO WORK EIGHT HOURS.

Mine Owners to Adopt System at Silver City, Ida.

The eight hour bill introduced in the late Idaho legislature was killed through the efforts of the representatives from the Coeur d'Alenes, who, it is alleged, were controlled by the larger mine owners.

At Silver City, which is one of the best camps in the state, a conference was held last week, according to the Nugget, between the miners, mill men and mine managers, which, it is thought, will result in the mines of that and surrounding camps being placed upon an eight-hour basis for the men employed. At present the men labor 10 hours with two shifts working each day; if the change is made, three shifts will be put on in the principal mines.

Eight hours constitutes a working day at the De Lamar, Ida., mines, and the managers of the properties find that they get better service out of their men.

COLUMBUS CON. HAS PLENTY FUNDS

The Treasurer Has $35,000 in Cash in His Possession.

MILL AND ELECTRIC PLANTS

Are to be Built in the Near Future—Manager Jacobson to Confer With Eastern Shareholders.

Early next month, Manager Jacobson of the Columbus Consolidated mine of Alta, contemplates taking a trip east to confer with some of the larger shareholders of that corporataion relative to the erection of a concentrating plant at the mine; also, the construction of a big electric power plant in the Little Cottonwood canyon, from which it is proposed to generate power and light for use of all the mines of the camp which may choose to contract for such service. Little Cottonwood creek furnishes a good supply of water, the year round, sufficient to operate a power plant of no small importance.

Details have not been fully figured out, but it is probable that the initial concentrator plant will be built of a capacity for handling 50 tons of ore per day, but arranged in such a manner that it can be increased at any time without great inconvenience.

There are few mining companies of the age of the Columbus Con. that are so securely financed. The treasurer of the concern has in his possession a cash balance of $35,000, the company is entirely out of debt and has besides a block of treasury stock unissued in excess of 50,000 shares, which, Mr. Jacobson says, will not be disposed of at a price less than $5 per share.

Preparations are being made to ship some of the high grade ore, recently encountered in the lower tunnel, to the valley smelters. The management expects that the returns from these shipments will considerably more than pay the operating expenses of the mine, while the mill and other buildings are in course of erection.

Mr. Jacobson departed for Alta this morning upon one of his regular inspection trips.

AFTER UTAH CON.

Statement as to Probable Earnings Of Mine This Year.

Advices received from the east indicate that the Standard Oil crowd is still buying Utah Consolidated, but quietly. Statements have been made that the mine, at its present rate of production, will earn during the present year $1,400,000, a sum equal to $1.67 per share.

AT BLACK DIAMOND.

Management Playing a Waiting Game at Present.

Joseph Dederich returned last night from Stockton where he went in the morning to look over conditions at the Black Diamond mine. Mr. Dederich states that only a small force is at work in the mine at the present time, it being the policy of the management to make progress slowly until after the Honorine drain tunnel reaches the Black Diamond territory. The face of the tunnel is now within about 400 feet from the sidelines of the property.

ADVERTISING DEEP CREEK.

Historical Compilation Soon to Be in Hands of Printer.

The copy for the "History of Deep Creek" compiled by Prof. Marcus E. Jones, will be in the hands of the Printer tomorrow. The manuscript was in possession of the advertising committee appointed at the last meeting of the Deep Creek association, for approval today.

The pamphlet will contain a brief, concise statement of facts concerning the great undeveloped mineral region out towards the Nevada stateline.

Embellished, as it will be, by probably 20 splendid half tone illustrations, the little book will appear in very attractive form.

Back From Monte Cristo

Charles T. Wardlaw, secretary of the Monte Cristo mine in Beaver county, has returned from a trip to camp. The men employed in the mine are following a fissure vein, of which the officers of the company are hopeful it will lead to a larger body of ore.

Sinking at the Keystone.

Manager Ernest Bamberger, of the Keystone mine, Park ity, states that the work of installing a new sinking pump at the property is about completed. It is only a matter of a few days until sinking in the shaft will be resumed.

Senator Lewis' New Buy.

President A. B. Lewis of the Majestic Copper Co., has closed a deal for the purchase of a valuable group of copper claims, located near St. George. The vendor is James Muldoon, of Stateline.

MINING CONCENTRATES.

F. M. Orem, is confined to his home by sickness.

The delinquent assessment sale on Silver Shield stock is scheduled for tomorrow.

Manager M. M. Johnson of the Cactus mine, near Frisco, is at that property today.

Supt. GeorgeCrismon expects to depart for the Utah mine at Fish Springs tomorrow.

The annual meeting of the shareholders of the Century Mining Co. is scheduled for April 6.

H. E. Zerbe, manager of the Cygnet mine at Stockton, went out to that property this morning.

A 16-drill air compressor plant has been ordered for the Baisley-Elkhorn mine, near Sumpeter, Ore.

Good progress is being made with the installation of the new machinery at the New York Bonanza mine of Park City.

A contract has been let for the construction of a new shaft house and other buildings at the Eckholm mine at Park City.

The assessment of one-tenth of a cent per share on the property of the Burton Gold Mining company, becomes delinquent tomorrow.

A. T. Egan will depart today for Mexico City, where he goes to attend to matters in connection with the installation of an electric light plant.

A hoisting plant is to be erected soon at the Belcher mine, near Sumpter, Ore., Supt. Brady is having the lumber hauled into camp for the building.

J. B. Jenson, consulting engineer for the Summit Placer Co., will depart for the properties of that corporation at Soldier Summit, tomorrow morning.

Senator Simon Bamberger departs tonight for De Lamar, Nev., to make an inspection of the big bonanza of which he has charge at that place.

A. Mr. French, of Dillon, Mont., passed through the city yesterday en route to the Beaver county copper belt He will take a look at the Monte Cristo mine.

Geo. W. Emery, who has just returned from an examination of the E and F property near Ploche, Nev., took the train for Park City this morning, and will return in a few days.

The ore and bullion settlements reported yesterday at the close of business hours by McCornick & Co., were: Base bullion, $27,300; gold bullion, $8,300; gold, silver and lead ores, $31,700.

The members of the mining exchange have taken offense at an article which appeared recently in the Advocate of Price, in which the integrity of that body was brought into question. A resolution was passed at the end of the late call yesterday afternoon referring the matter to the governing board for action.

STOCKS SHOWED MORE STRENGTH

Opening Was Affected by a Better Feeling in London.

BIG DEMAND FOR SO. PACIFIC

Drop in Pennsylvania Increased Bearish Sentiment—Fluctuations Constant and Irregular.

New York, March 17.—The opening stock market here was affected by the better feeling over the money situation in London and prices were higher. There were exceptions principally among the southern and southwestern railways. St. Louis Southwestern, preferred, fell nearly a point. There was a rise of 2¾ in Anaconda. Changes otherwise were small and the market was dull.

The heavy demand for Southern Pacific, while stimulating the list for a time, was made use of as a cover for selling elsewhere. Southern Pacific and Tennessee Coal lost 1 point and Pennsylvania dropped rapidly from 143 to 141¾, which increased the bearish sentiment. Most of the usual leaders sold a good fraction under their first prices. Consolidated Gas, North American and International Power lost a point each. Southern Pacific was supported again below 63 and some stocks rallied in sympathy to the best. Smelting gained 1¼. The market developed a very irregular tone.

Fluctuations were constant and irregular. New York Central and Kansas & Texas preferred lost 1 and NorthAmerican fell 2. The firmness of the Pacifics counteracted these declines and the market gained a point. Anaconda 4½. Brooklyn Union as 3, Sault Ste Marie, preferred, National Railroad of Mexico and onsolidated as, 1¼ to 1½.

Burlington Route

Through Sleeper To Chicago.

Board a sleeping-car at Salt Lake City 3:15 p. m. any day—alight at Omaha, Chicago, or any intermediate point—that's the whole story of a trip east via the Burlington Route.

No change of cars en route—that's only one reason why you should ask the agent for a ticket via the Burlington, but it's a good reason.

It's worth while asking about our service to Kansas City and St. Louis, if you are going that way.

R. F. NESLEN, Gen. Agent, 79 W. Second South Street, Salt Lake City.

Best Meals On Wheels.

There is where the Rock Island shines—in its dining car service.

Not even the swellest of New York's swell hotels offers anything finer. Their prices are higher, of course, but the food, and cooking and the service are no better.

Try the Rock Island next time you go to Kansas City, Chicago or St. Louis and get new ideas of how a dining car should be run.

Mid-day luncheon, 50 cents.

Saponifier.

Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household use. Beware of counterfeits. The success of this article has induced unprincipled parties to imitate it. Use genuine unless Pennsylvania Salt Manufacturing Co., Philadelphia, is stamped on the lid.

Ask your grocer for it and take no other
