las · Brown Nuptials. Special Correspondence,

Provo, Utah Co., July 6 .- In the Fourth District court yesterday the damage suit of George Buckley, by his guardian ad litem, Jonathan Buckley, against the Salt Lake & Mercur Railroad Co., was heard before a jury. The plaintiff is suing to recover \$15,000 damages for injuries received on April 19 1990, while employed as a brakeman on defendant's line. The testimony showed that on the date named, the plaintiff, in discharging the duties of brakeman, had occasion to swing between a car and the engine, and in do-ing so fell under the wheels. Half of his right foot was cut off by being run over by the cars. Negligence is charged on the part of the defendant company in this that a foot board, which had been placed on the engine for the brakeman to step on, had been twisted out of position; this caused plaintiff to slip and fall. The jury brought in a verdict in fa-vor of plaintiff for \$2,500.

COPE HAS ALSO BEEN SIGNED

A Great Pitching Staff and Fast In field and Outfield-New Twirler Appears Today.

HE MANAGER of the Salt Lake baseball team is individuals that does not peda four dollars and fifteen cents worth of hoteal and not do lick. He is doer of the word and not a hear-er. A couple of

quietly slipped away from fair Salt gone until the 10:50 train from the East pulled in last night. Then it was that the manager showed his genial coun-tenance. He came from Denver and brought with him a couple of expensive bunches of baseball material. In other words, he brought with him Elmer Mcredith, one of the very best left-handed twirlers in the business, and one Hickey, an infielder of the type that makes the national game a thing of beauty and a joy for ever. The Salt Lakes will now proceed to do a little climbing.

For a number of years past Meredith has performed on the slab in the Western league and he has a record that many eastern league ball twisters would be proud of. His record the present season is no exception to the rule On more than one occasion recently he has held his opponents down to one and two measicy hits and made put outs that would have made a fire department ashamed of itself. He has plenty of speed and fifty pounds over, and what is more, and just as good, if not better, he can hit the ball just about any time he wants to, And as for that man Pickey well, he can hold down home, first, second, third, short and any, infleid position in a manner that wins and it is further claimed by his friends that he is a good hitter and runs bases so fast that frequently it takes his shadow some time to catch up to him, But seriously, these two men rank with the best in the West and the Salt Lake management is to be congratulated in securing them. They are here to stay for the baiance of the season, and are scheduled to make their bow before the Salt Lake fans in today's contest with Lagoon, Meredith will probably pitch while Hawiey will take a rest. That's not all: there's more yet. No more will speedy Cope be seen with a gray uniform on his manly form. Henceforth his suit will be immaculate with wing attachments. You all know

is very likely that in the future team will line up about as follows: McCausiand, catch; Hickey and Margetts, first base; Webster, second; Cope, short: Williams, third base; Kimerer, Morroy and Hanley outfield. That will leave a pitching staff of Hawley, Meredith, Kidder and Taylor, and if the team cannot win with such men it ought to go out of the business and every member set a job, beeling. and every member get a job hoeing

RACES AT NEW YORK. Handicaps for Horses Three Years Old and Upward. New York, July 6.-The last of the great handicaps for horses three years old and upward, the Brighton at one

mile and a quarter, will be run today at the opining of the Brighton Beach

Racing association's summer meeting.

As has been the case for each of the other important handicaps, beginning with the Metropolitan at Morris Park in May, the Brighton, in all probability, will be run on a heavy track, for, fast as the track by the sea deless it looks. What is remained then is the books for all beginnings. as the track by the sea dries, it looks sible milk product them, is dead impossible for it to be other than slow sible milk product them. Eacle impossible for it to be other than slow sible milk product them. It is dead, pure sible milk product them. after the hard rain of yesterday.

The needents of training, too, have had their effect on the prospects for the Brighton handicap, for the top weights have been thrown out of the race for one cause or another, Kinley Mach, Ethelbert, Jack Point, McMeckin, Star Bright and Standing being among the notable who are missing from the list of horses named to run. The race ought to make a good contest for all that, however, as the nine named to run include about the best of those nominated for the handleap that have been trained for the race. Among the number is Alcedo, with the fame acquired by winning the suburban handless.

His Hoof. New York, July 6.-Commando will not race again until he is sound. The recent injury to his hoof-a stone bruise -was much more serious than it shoved on the surface. Only his trainer, James Rowe, realized this and he opposed giving the great three-year-old colt a preparation for the Realization for the Realization for the realization.

James P. Keene after the Realization stakes. The result was that it was de cided not to take any more chances with the colt, but to let him get over is injury thoroughly before he faces flag again.

Trainer Rowe had a long talk with

William Lakeland, who is a half owner of Commando, said in regard to the colt's trouble: "It is hard to tell just how seriously Commando has been injured. The stone that caused all the trouble worked its way into the hoof through one of the fissures and made him lame. It has to be cut out. This left an opening in the hoof. To remedy the trouble, to keep the hoof from splitting, a bar plate was put on it. A bar plate is a remedy but not be a cure."
