TURKEY SHOWS SIGNS OF YIELDING.

Some Concessions May Be Made to Bulgaria to Avoid Bringing On a War.

SOMETHING SURELY IN THE AIR

Porte Recently Manifested a Disposition To Consider Proposals for a Direct Understanding.

London, Sept. 23.—The Balkan situation today presents a somewhat puzzling aspect. Turkey is showing signs of yielding to the Bulgarian demands, and it is evident from the daily meetings of the council of ministers at the Yildikiosk that some sort of negotiations are in progress with the object of avoiding war.

According to a dispatch to the Daily Mail from Constantinople these councils concern two possibilities—either to make an arrangement satisfactory to the Macedonians or obtain from the powers promises of neutrality if it is found impossible to avoid a war.

Apparently both Turkey and Bulgaria are anxious to regulate having taken the initiative in the negotiations. The Sofia correspondent of the Daily

As American manufacturers are not in the habit of dealing directly with such faraway lands, it is Mr. Skinner's duty to go there and assist the conditions under which business is transacted in that region with the view of increasing American commerce there.

A BIG LANDSLIDE. It Occurs on Turtle Mountain Near Frank, Alberta.

Nelson, B. C., Sept. 23.—Passengers arriving tonight over the Crow's Nest report that another immense slide occurred this morning at Turtle mountain, near Alberta. As far as known no lives were lost, but all the people of Frank have deserted the town again, being taken on to Blairmore and other towns. The slide occurred just as the train was nearing Frank, and as quickly as possible the brakes were applied and the train backed for several miles. After waiting for an hour the train was run to Frank and the people who were all waiting in the station were taken on board.

Hurt in a Trolley Car. New York, Sept. 23.—Ten women and a policeman have been severely bruised and cut by being hurled together in a northbound trolley car which derailed on the track in White Plains Road, borough of the Bronx. The motorman was thrown from the platform and badly bruised. A small stone on the track is supposed to have caused the accident. The car plunged down a slight embankment and ran about 50 feet before coming to a stop.

KILPATRICK CASE.

A Prominent New York Society Woman is Involved.

New York, Sept. 23.—I send you herewith \$300. This is positively the last money I will send you. I will not let you blackmail me any longer. Together with the other fragments of a check, is said to be the text of a letter which has been pieced together from bits discovered in the apartment where John D. Kilpatrick, wealthy son of the late David Kilpatrick of Beatrice, Neb., was found Monday shot through the heart. The case had begun to look like one of murder but it is now thought that the first theory—suicide—is correct, and that Kilpatrick killed himself to escape his tormentor.

J. E. Lambie, stepfather of the dead man, declared that sensational developments may grow out of the affair. He is quoted as saying: "We know the woman to whom the letter was addressed. She is a young married woman, the mere mention of whose name would cause a sensation in New York city, as she is known as a member of one of the most prominent social sets in the city. We know enough now to be convinced that my stepson committed suicide."

I have learned since that he wrote another letter and another check and sent them to the woman. I do not know the contents of the other letter. New York, Sept. 23.—Coroner Brown, who is investigating the death of John D. Kilpatrick, the wealthy young Nebraska man found shot through the heart in his apartment yesterday, has abandoned the theory of suicide and today called upon the police to investigate the shooting on the possibility that it might have been murder. The position of the revolver, the fact that Kilpatrick's clothing was not burned and the absence of any ascertainable cause for suicide, led the coroner to say that he believed the shooting to have been either accidental or murder.

THE GRANT HOMESTEAD.

It is Presented to the City Authorities of Galena, Ill.

Chicago, Sept. 23.—A special to the Tribune from Galena, Ill., says: Brig-Gen. Frederick D. Grant, his brothers and sister, wishing to preserve the Grant homestead in this city, have given it to the city authorities, who will probably convert it into a hospital.

Woman's Golf Championship.

New York, Sept. 23.—There will be a smaller field in this year's woman's golf championship than last. Entries have just been closed with Secy. Martin Ballou, of the U. S. G. A., for the annual event to be decided over the links of the Chicago Golf club the first week in October.

Neither Mrs. Charles Stout, the national champion, nor Mrs. Edward A. Manice, the metropolitan title holder, has entered. Miss Ruth Underhill, of the Nassau Country club, another former champion, is also out of it. In addition to the trio mentioned there are a score of other prominent women golfers of the east who are missing from the lists. Nevertheless, Secy. Ballou says the entries are sufficiently numerous to insure the success of the tourney. The complete list has not yet been made public.

ALLOTTED LANDS.

Those Conveyed Without Approval of Secy. of Interior Are Void.

Chicago, Sept. 23.—A dispatch to the Tribune from Muskogee, I. T., says: Judge C. W. Raymond of the United States district court, holds that deeds of conveyance of allotted lands made without the approval of the secretary of the interior are void.

The complainant in this case is one of the United States commissioners for the Indian Territory, and is seeking to enjoin the United States Indian agent from placing the allottee in possession of the lands which he claims to have bought from him and on the conveyance he has advanced and spent \$500.

The complainant sought a decree of court authorizing him to hold possession of the premises until such time as the rent from the same should equal the amount he had expended upon the land, in the event that the deed should be absolutely void. The court refused a decree and decided that to grant a decree would be to nullify every provision of Congress against the alienation of Indian lands, for the reason that if such were the law then the United States citizen could disregard the plain letter of the law with impunity, because he would not be loser even if the Indian should seek to recover possession of the land, he having a right to hold it until the rent should equal the amount he had laid out.

E. A. CRANSTON, FORGER.

Sentenced to Not More than 15 Nor Less than 10 Years.

Boston, Sept. 23.—In the superior criminal court here Judge Sherman has sentenced Edward A. Cranston, charged with forgery and swindling, to not more than 15 nor less than 10 years in state prison.

On the stand the prisoner denied that his name was Cranston, and said it was Edward Augustus Condit. Chief Inspector Watts then hunted up the records which went to show that Condit, if he is the same person, is known all over the country as an expert in beating stock brokers. He is said to have at one time been wealthy. His plan was to open an account with a broker who would accept a check on a country bank as margin. If his trades showed a quick profit he would close the account and take up the check, letting it go by default if the speculation showed a loss.

Cranston began to speculate, the records say, as early as 1872. He was convicted many times in the east, and under the name W. S. Carson, was arrested Dec. 22, 1892, in a Wisconsin city on a forgery charge. He was sent to the state prison at Waupun for three years. In 1898 he was arrested in Chicago on a similar charge, but was released on his own recognizance and disappeared.

WHAT'S THE USE

To Keep a "Coffee Complexion." A lady says: "Postum has helped my complexion so much that my friends say I am growing young again. My complexion used to be coffee colored, muddy and yellow. Now it is now clear and rosy as when I was a girl. I was induced to try Postum by a friend who had suffered just as I had suffered from terrible indigestion, palpitation of the heart and sinking spells."

"After I had used Postum a week I was so much better that I was afraid it would not last. But now two years have passed and I am as well woman. I owe it all to leaving off coffee and drinking Postum in its place."

"I had drunk coffee all my life. I suspected that it was the cause of my trouble, but it was not until I actually quit coffee and started to try Postum that I became certain; then all my troubles ceased and I am now well and strong again." Name furnished by Postum Co., Battle Creek, Mich.

Telegraph asserts that the overtures

made from Turkey and were welcomed by the Bulgarian minister on the condition that deeds were substituted for words and that the cessation of wholesale massacres should become an accomplished fact. He adds that a pacific solution, if it comes, will emanate from Constantinople where the Bulgarian representative is invested with full powers and the negotiations are said to be proceeding satisfactorily.

The same correspondent says in the meantime devastations by fire and sword continue and the Bulgarian government has received from trustworthy sources a gruesome tale of massacre, tortures, indignities and burnings, in many instances the victims being slowly roasted alive.

The assertion is made in another Sofia telegram that the sultan will issue an order on Thursday granting the demand for a mixed commission, but this statement is not confirmed and would seem to be negatived by the dispatches from Constantinople.

A Monastir correspondent of the Daily Chronicle, writing Sept. 15, says the Bulgarian list of villages pillaged and burned reaches a total of 104.

The general effect of these conferences in Constantinople and Sofia has induced a much more hopeful feeling here, although in Balkan affairs it is always possible that the next day's happenings may change the entire situation.

The following is the position of the Turco-Bulgarian negotiations: The porte recently manifested a disposition to consider proposals for a direct understanding, and Bulgaria advanced the following conditions: First, the porte to grant a general amnesty and stop the persecution of the Bulgarians in Macedonia; second, a mixed commission to be formed, the Bulgarian members of which should be nominated by the Bulgarian exarch and never be in a minority on the commission, to elaborate administrative reforms, arrange for an extension of local administrative autonomy, insure the safety of the highways and the equality of Christians and Mussulmans before the courts, reform the taxation and gendarmerie and provide for personal security.

After the accomplishment of these tasks the commission, which would probably sit at Salonica, would become the council of the inspector-general, and would depote one of its Bulgarian members to report to the sultan on the progress of affairs.

Bulgaria also asked that the burned villages be rebuilt with government assistance, the refugees repatriated and an especial ordinance issued providing for the organization of the Bulgarian schools and churches.

These proposals seem to have been accepted in principle, although nothing definite has yet been decided. Even in the event of an agreement being arrived at, proofs of good faith would be required as a guarantee of the execution of the reforms, and if not forthcoming the Macedonians would continue their agitation.

A list compiled from official sources is published, giving the names of and details regarding 25 villages in the district of Makoternovo, 15 in the district of Kirg-Khisse, four in Vasiliko and three in Vezene, which have been the scene of pillage, murder and outrage by Turkish troops.

The war ministry has taken steps to strengthen the Bulgarian frontier forces and it is rumored that troops will occupy all the commanding positions, thus making it almost impossible for bands to cross the frontier. Some regi-

dispatch to the Herald, by a cablegram announcing that the American plate glass manufacturers have agreed to reduce the price of their wares enormously in order to defeat foreign competition.

The United States was the best market after England for Belgian plate glass. The Belgian manufacturers will therefore lose largely by the move of their American rivals.

To Extend American Trade.

London, Oct. 9.—United States Consul-General Skinner to Marseilles, who is here on a furlough and who will make an official visit to King Menelik of Abyssinia, will leave for Marseilles on Oct. 8. In an interview Mr. Skinner said that the purpose of his going to Abyssinia is simply one of the state department's efforts to create trade where none exists, and to extend it elsewhere; that American goods have filtered into Abyssinia for many years almost without the knowledge of our own people. He states that Abyss-
