The above Goods can be Purchased of the Wholesale Hardware Dealers in Salt Lake and Ogden.
d103 1y

BY TELEGRAPH.

FOR WESTERN UNION TELEGRAPH LINE.

AMERICAN.

Wired From Washington.

WASHINGTON, 8.—Plans are being prepared at the Treasury Department for silver vaults to accommodate the excessive accumulation of silver dollars. It is proposed to locate one vault at the New Orleans mint, and another in the basement of the Treasury department.

The Acting Sec'y of the Treasury to day received a telegram from the Collector of Customs at Tacoma, Washington Territory, stating that his officers, with the assistance of the revenue steamer *Wolcott*, had captured a sloop engaged in running Chinese across the line from British Columbia. Two smugglers were arrested, but nine Chinese passengers escaped. The Collector also stated that nearly 100 Chinamen had landed at Hareous Point on the northern frontier in boats and Indian canoes within the last few days, and that he is powerless to prevent this unless his force is largely increased. Secretary Folger will be back in a few days, and the subject will be brought to his attention at once. It was explained by an officer of the Customs Division that the law provides that no Chinese laborers shall be permitted to enter the United States by land without producing to the proper official of customs the certificate required by Chinese laborers seeking to land from vessels, and that any Chinaman found unlawfully within the United States shall be removed therefrom after being brought before a justice, judge or commissioner of the United States; but the duty of bringing a Chinaman before a court or commissioner, or taking action for their removal from the United States is not devolved by law upon the customs officers.

The postmaster-general to-day directed free mail delivery service to be established in Los Angeles, Cal., Oct. 1.

The Strikers.

Philadelphia, 4.—Three of the telegraph operators who have been out on a strike returned to work in the main office to-day.

St. Louis, 8.—Nothing new regarding the telegraphers' strike today, and no other withdrawals from the Iron Mountain Railroad are reported. Six wires of the Wabash roads were cut ten miles north of this city Monday night.

Chicago, 8.—C. Bristol, superintendent of construction of the Western Union Company, reports increased activity in tying up the wires. All the Mutual Union wires were tied up with a small copper cord at Englewood, last night, and only released this afternoon, as were also sixteen of the Western Union on the Fort Wayne, four on the Chicago, Burlington & Quincy, and all the Wabash wires eighty miles this side of Council Bluffs were tied together and will probably require the entire night to release them.

Pittsburg, 8.—Reports from along the line of the Pittsburg Division of the B. & O. received to-day show that the order for the railroad operators' strike was generally obeyed yesterday. Railroad officials admit this, but say nearly all the offices have been filled by new men.

New York, 8.—Five thousand persons attended a concert and ball of the Brotherhood of Telegraphers to-night in Madison Square Garden. The whistle which called the operators out in this city opened the ball.

Washington, 8.—The Bookbinders' Association of this city contributed $300 to the striking telegraphers.

Philadelphia, 8.—The five civil suits brought by Channely H. Fuller, general agent in this city of the Chicago Meat Co., against the Western Union Telegraph Company, have been decided in favor of the company by Magistrate List. The Magistrate held the act of the Assembly under which the plaintiff proceeded did not apply to the case; that there was no contract, as Fuller, in failing to leave either his dispatchers or the money for their transmission with the company's employees, failed to comply with his part of the contract, and that therefore the law binding upon the company in respect to the delivery of messages could not apply to the case. The magistrate further held that the law was intended to avoid any possibility of discrimination on the part of the company in favor of one sender over another, and that it was doubtful whether the general application of this restriction which they put on sending dispatches subject to delay violated the provisions of that law. Fuller's counsel gave notice that the case would be appealed.

San Francisco, 8.—Private advices this evening from Victoria, B. C. announce that a strike of 300 coal miners at Wellington colliery, Department Bay, is expected August 10th. This will necessitate the closing of the mine, throwing 1,900 men out of employment. The strikers demand a large increase of pay, which has been refused. Average monthly shipments of coal from that mine to this port 14,000 tons.

Later.—The strike at the Wellington colliery began to day; ships are unable to obtain cargo. They will have to go to Seattle to get coal.

Depravity and Disease.

CHICAGO, 8.—Paddy Ryan will publish a card in the *Daily News*, saying his backer, Mr. Davis, informs him that a hall cannot be secured in Boston for a professed glove match with John L. Sullivan before next January; that Sullivan having knocked out all imported talent, should give American sluggers a show, and proposes a fight, to take place in Madison Square Gardens, New York within six weeks.

Dodge City, Ks., 8.—The report telegraphed from here stating that Texas fever is raging among cattle in a malignant form is entirely untrue. There has not been a single case of the fever here or near here this season, nor has there been any form or species of disease among stock resembling it in any way.

Detroit, 8.—At Grand Rapids a conductor on the Grand Rapids & Indiana Railroad having received a visit by burglars at his house on Monday night, last night was prepared for a second visit and awaited them in the kitchen. His wife, awakened by street noise, arose and passed through the room. The husband, mistaking her for a burglar, fired, the ball taking effect in the forehead, coming out near the right ear. She is alive but unconscious. There is slight hope only of her recovery.

Council Bluffs, Ia., 7.—A terrible rain and hailstorm swept through this section. It was about two miles wide, beating corn and all growing vegetation into the ground. It is regarded as one of the most severe storms that ever visited western Iowa.

Beverley, Mass., 8.—A terrible collision was averted at the depot. The train going east was at the depot, and signals set warning the Gloucester express, which instantly shot around the curve. The air brakes were disabled. When within a few feet of the train at the station, switchman Williams with presence of mind threw the wild train on a siding, saving many lives on both trains. He will receive a handsome present, and promotion.

Wilksbarre, Pa., 8.—A serious cave in the Pine Ridge mine of Dennare, Audson & Co., took place yesterday. The disaster was expected for some time; no loss of life. It is confined to the under mines; the surface is at no place affected. Work is suspended in a large portion of the colliery until the exact situation of affairs is ascertained.

New York, 8.—A Sixth Avenue Elevated Railroad train through a switch to the central track, hads its rear car projecting on the down track. The south-bound train crashed into it, and the engineer of the south-bound train and a passenger were painfully injured. The rear car of the first train and the engine and first car of the second train were wrecked.

Boston, 8.—Wright, Mosher & Co., wool dealers, Federal St., have failed, and made an assignment of all their property to Lester Goodwin, an employee of the firm. It was one of the prominent wool houses of Boston and has done a large business. Liabilities it is thought aggregate a heavy figure. The concern stood very well in credit, and has been considered worth from $100,000 to $150,000.

The failure caused a surprise to the trade.

The statement telegraphed from the Pacific Coast that the Southern Pacific Railway Co. had obtained judgment for $120,000 against the California Southern Railway of Boston, and that the road would be sold August 29th, is not believed here, where the company has met every obligation promptly.

New York, 8.—George S. Hart and Wm. K. Saulter, are elected directors of the Postal Telegraph Co., in place of Hugh J. Jewett and Thos. Dickinson, resigned. A president was not chosen.

FOREIGN.

British Briefs.

LONDON, 8.—Advices from Silvo, Russia, where the demonstrations against the Jews were made on the second and third inst. state that three columns of Cossacks had arrived for the preservation of order. Eighteen of one hundred persons arrested for participation in the demonstration have already been placed on trial before the military tribunal. Many innocent persons who were wounded during the rioting are since dead. It transpires that no Jews were injured, as they escaped, having had timely warning of the attacks to be made upon them.

A dispatch from Dover says two Norwegian barks collided off there to-day; one was so badly injured that she sank, carrying down thirteen of her crew.

On Tuesday, 682 persons died of cholera in Egypt, including 70 at Cairo and 120 in the province of Sioul.

British imports decreased the past month compared with July last year, £340,000; exports decreased £43,700.

Information is received here from the Straits of Vertieth or Tienikale, one of the most dangerous passages of the Black Sea, that an individual named Frances, a former pilot of Italian origin, was head of a band of pirates of various nations, English, Italians, Greeks and Russians, who made their living by disasters on the coast. They were in collusion with the pilots, and charged large sums for assisting vessels which the pilots suffered to go ashore. In less than two years fifty vessels were stranded and had recourse to the assistance of these pirates. The English Marine Insurance Companies, on learning the facts, sent an agent to Russia to lay the matter before the authorities. The preliminary inquiry fully confirmed the suspicion of the public, and it is said some Government officials are compromised in the matter. The English insurance companies paid indemnities amounting to many million roubles. A great many disasters occurred in calm weather. Other suspicious circumstances were noticed, such as fortunes rapidly made by some of the pilots.

The statement that Cetewayo is alive comes from Cetewayo's brother, who says that Cetewayo took refuge in an isolated kraal after the late battle, having received two wounds in the leg. A correspondent in Natal is inclined to believe the statement.

Gladstone Speaks.

The Lord Mayor's banquet to the Ministers took place at the Mansion House this evening. Gladstone, rising to respond to the toast, "Her Majesty's Ministers," was greeted with prolonged cheering. After expressing thanks, Gladstone sketched recent public events. He said the government held Egypt in an unselfish spirit, and desired simply to accelerate reform there. It was felt that too much haste might spoil the work. When the views of the government in this respect were accomplished, the British would disappear from the country. He said nothing would be more grateful to every one of the ministers than an early and successful accomplishment of the grand movement towards reform in Egypt. In regard to the Tamatave affair, Gladstone said the government had received full advices from Madagascar, confirming the hope that no difficulty existed that could not be solved by the generous and honorable dispositions which should always exist, especially between France and England. He now felt even sanguinely confident that nothing would arise which would disturb their long accord. Gladstone, continuing, said he was thankful that he was able to record a great change in the condition of affairs in Ireland. The authority of the law, he said, had been reasserted there, and peace and security prevailed. Dark dens of assassination are effectually suppressed, and the confidence which had incited their unhappy frequenters and enabled them to execute their deadly purposes had been in a large degree destroyed. Deep gratitude is due the Almighty, and secondarily the lieutenant and chief secretary. He believed the end of the session would show a fair amount of work had been achieved. The government hoped much in future from the grand committees.

General Items.

BERLIN, 8.—Thousands of persons are arriving at Erfurt to participate in the festival celebration of Martin Luther's entry into that town.

The festival was a great success. The historical procession traversing the streets of Erfurt this afternoon, excited much admiration, especially a group in which Luther was represented, surrounded by armed knights. Bodies of singers greeted the procession at different points along the route.

St. Petersburg, 8.—A small tin box containing explosive material was on Tuesday thrown into Varniuski Prospect from a carriage which was being driven along the thoroughfare. The box exploded. No arrests yet made.

Brussels, 8.—In the trial of Canon Bernard, charged with extracting papers and securities representing several millions of francs from the Episcopal Palace of the Diocese of Tournay, counsel for defendant declared his client had a document from the Pope, which empowered him to take the measures that he deemed best to conceal the treasure. He could not have supposed such an order meant that he was only to conceal it in Tournay. Canon Bernard, he said, had been a scapegoat for Bishop Roussaux, who had written him while he was in New York, virtually ordering him to continue to conceal the funds. Bishop Roussaux believed he could avoid meeting in the court of claims, Manager Dumont, former bishop of the diocese, by sending the funds beyond the reach of the judicial power. If he had been successful, he would have indemnified Canon Bernard, who had merely attempted an evasion of the civil law, and had not committed a criminal offense. The case has caused a very painful feeling in religious circles.

Pesth, 8.—Riotous demonstrations against the family of Joseph Scharf, one of the defendants in the Jewish trial at Nyiregyhaza were renewed here to-day. The house in which the family have been staying was wrecked, and a number of shops in the vicinity plundered. The police were powerless, and the military had to be summoned. Fighting in the streets continued at a late hour to-night.

Cairo, 8.—Native officials here are much blamed concerning the condition of patients in the mad house. It has been discovered despite strenuous denials that there have been thirty-two deaths from cholera there while the number of inmates was but 270. English doctors becoming aware of the condition of affairs at the institution, endeavored to remedy it, but even yesterday the place was in a filthy condition, and a number of bodies of victims were lying beside persons suffering from the disease.

Alexandria, 8.—The number of cases of cholera is increasing here and in the interior of the country.

Madrid, 8.—A fresh outbreak in Spain is reported. A hastily summoned Cabinet Council resolved to suspend constitutional guarantees throughout the country and declare the state of siege wherever necessary.

BRIEF TELEGRAMS.

GALESBURG, Ills., 8.—Two car loads of Knights Templar left for San Francisco this afternoon.

Buffalo, 8.—Mrs. W. G. Fargo, widow of the late president of the American Express Company, is married to F. F. Fargo, formerly city clerk. Her second husband is no relation of the other Fargo family.

New York, 8.—The American rifle team arrived from Europe this morning. They are enthusiastic over the treatment they received from the riflemen on the other side.

Chicago, 8.—The Hoosac Tunnel line put a solicitor on the Board of Trade for the Chicago & Atlantic, and refused to withdraw its man at the order of the east bound freight committee. It is believed all roads will be represented on the Board within a few days.

St. Louis, 8.—It now transpires that General Devereux, Mr. Tillinghast and other gentlemen representing the Bee Line and Vanderbilt's interest, did not leave for Kansas City last night, as announced, but had a conference with gentlemen here connected with the project to build a belt railroad around St. Louis, to see on what terms they could obtain the charter and franchises of the Belt Road Co., in order thereby to secure an easy entrance into St. Louis and access to the Union depot for their contemplated new road between here and Kansas City.

Lima, 8.—President Mackenna at Valparaiso congratulates Admiral Lynch upon the success of his arms at Hutmschaka, and says the victory will be doubly glorious if it leads to peace and the establishment of a regular government in Peru.

Providence, R. I., 8.—Mrs. Fanny Sprague, mother of the ex-Governor, has accepted the offer of the Union Company, which bought her homestead, to lease it to her during life at one dollar per month. She accepts upon the advice of Governor Butler, her counsel.

Chicago, 8.—Representatives of the press clubs of New York, Rochester, Providence and Cleveland met in the rooms of the Chicago Press Club this afternoon, and took preliminary steps towards the formation of a National League of Journalism, whose object should be general affiliation among the press organizations of the country. Another meeting will be held at the call of the executive committee. The Chicago press declined a representation.

Philadelphia, 8.—The Amalgamated Iron and Steel Workers Convention resumed deliberations this morning. The entire session was occupied with numbers of important resolutions.

At the afternoon session, Prest. Jarrett will deliver an address which covers almost all the topics that are expected to come up for action during the convention. Jarrett says his reason for declining re-election is not owing to ill health, but strictly on account of his private interests.

Secretary Martin and President Jarrett refused to give any information in regard to the business formally presented to the convention this morning, but from another source the more important suggestions were obtained.

New York, 8.—Corporal James Tanner, a distinguished member of the Grand Army of the Republic, has resigned the office of chairman of the Republican Committee of Kings county. Mr. Tanner says in his letter resigning the chairmanship: "I find that the principal business of that office is presumed to be to secure impossible positions for a vast number of men in the Navy yard and in other directions. I am constitutionally and physically unfitted for such service, and prefer to retire." Tanner is tax collector of Brooklyn. He lost two legs in the war.

Pittsburg, Pa., 8.—The Western Nail Association met at noon to-day, and after a full interchange of views on the condition of trade, it was decided to order a general resumption of the mills for a period of four weeks from next Monday, the 13th. The suspension of the last four weeks has resulted in greatly diminishing stock. Trade is light, but the outlook for the fall is encouraging. The card rate remains unchanged.

New York, 8.—The Northern Pacific Railroad will be connected about sixty miles west of Helena, Montana, on the 25th inst., but the formal opening will not take place until September 7th, next. On and after the 26th inst., the company will be ready to receive freight to and from all points on the Pacific Northwest coast. Rates between St. Paul, Duluth and Portland will be the same as between Council Bluffs and San Francisco.

Milwaukee, Wis., 8.—The second day's session of the Photographers' National Convention was devoted to the discussion of the feasibility of fixing regular rates for pictures per dozen, but no action was taken. The election for officers will occur to-morrow. A discussion followed on blisters on albuman paper. Dry plates formed the topic in the afternoon, and the use of electric light with experiments followed in the evening.

Galveston, 8.—*News* McKinley special: The second and last day of the Confederate Reunion, was even a greater display than the first. The attendance was greatly increased, numbering about 50,000. The speech of Gen. Lewis, yesterday, is generally condemned by the notables present. Still, it took with the crowd. Lewis was cheered to the echo while speaking.

A barber they call Uncle Dave, cut the face of a man he did shave, the man he was mad, but was soon very glad, of the cure that St. Jacobs Oil gave.

AN OPEN SECRET
AMONG THE LADIES

The brilliant, fascinating tints of Complexion for which ladies strive are chiefly artificial, and all who will take the trouble may secure them. These roseate, bewitching hues follow the use of Hagan's Magnolia Balm—a delicate, harmless and always reliable article. Sold by all druggists.

The Magnolia Balm conceals every blemish, removes Sallowness, Tan, Redness, Eruptions, all evidences of excitement and every imperfection.

Its effects are immediate and so natural that no human being can detect its application.

FIRE! FIRE!
"A High Private in the Rear Rank."
TO OUR MANY PATRONS:
ON ACCOUNT OF THE GREAT heat, the Merchandise Department of the ART BAZAR is removed to the store lately occupied by David Yearsley, in the Hooper & Eldredge block. The Photographic Department, in charge of Mr. Ralph Savage, has also been transferred to John Olson's new gallery, on Commercial street. Persons having paid for portraits in advance at the old stand can have them retaken after July 4th, free of charge. No pains will be spared to keep up the standard of excellence hitherto maintained. Rally! Rally! Rally! A new series of views will soon be taken. Nothing was saved from the upper part of the Art Bazar.
