

## REFORM FORCES TO GET TOGETHER

Two Factions of People's Party  
Will be Amalgamated.

AN ADDRESS IS ISSUED.

Lots of Money Wanted—Government  
Ownership of Railroads—American  
Ships for American Commerce.

Dever, July 28.—The two factions of the People's party, each with a national organization, will be amalgamated, into one party by action to be taken this afternoon or tomorrow at the national conference of the People's party and allied reform parties, now in session in this city. The committee on resolutions and address will today report a proclamation that will call for the several factions of the Populist party to unite. It will also contain the declaration of principles.

A committee made up of the officers of the conference is also preparing a list of names composed of one person from each state who will act as provisional committeemen. These names will be announced immediately after the adoption of the report of the committee on resolutions.

No business was transacted this morning. The conference met at 10 o'clock and as the committee was not ready to report recess was taken until 2 o'clock this afternoon.

THE ADDRESS.

At the afternoon session the following address was reported by the committee on resolutions and was adopted:

"The manifest political unrest which everywhere appears in the nation demonstrates the dissatisfaction of the American people with the present management of government and urges the necessity of the reform forces coming together in united action at the ballot box to obtain proper legislation whereby the right of the people to self-government may be had for themselves and their posterity; therefore we, the Populists of the United States, having this day in the city of Denver, Colorado, united our forces with the distinct understanding that all past differences as to policy shall be and now are permanently settled, and experience and the demonstrated fact of the failure of any attempt to secure the enactment of our principles through either the Republican or Democratic parties, we believe the time has now arrived when the united People's party should itself emphatically be opposed to any affiliation with either of those parties and unqualifiedly in favor of independent national political action.

Our fundamental principles are known to all Populists and are nowhere better stated than in that immortal document emanated at Omaha July 14, 1892. However, for the better understanding of the people, we hereby declare our unqualified adherence to the demands for (a) a money whether stamped or gold, silver or paper, to be coined and issued exclusively by the government; (b) a debt, both public and private; (c) a system of transportation and the transmission of intelligence owned by the public and operated by the government; (d) land for use rather than for speculation, and abolition of alien ownership of land; (e) American ships for American foreign commerce, without a cent of subsidy.

And as an open door for all economic reforms, we urge the rule of the people through the optional referendum and initiative, and the recall of derelict officials.

"Confident in the justice of the principles here set forth, firmly convinced that their triumph in government would be for the best interests of the people, we call upon the patriotic citizens of this country to join with us in bringing about their enactment by law. With these principles firmly established, equal justice would prevail, special privileges would be eliminated and the people would be as patriots everywhere, a government of the people, for the people, by the people.

FOUR PEOPLE DROWNED.  
Party of Young Folks Go Over a Big Dam.  
Pittsburg, Pa., July 28.—A sad accident followed shortly after the formal opening of dam No. 1 in Allegheny at Harris Island tonight, in which four young people were drowned. They were:

Joseph Brown, aged 19.  
Frederick Butler.  
Edna Shipley, 13.

The three boys were riding below the dam in a skiff and the fourth girl, friend of the bank, invited them to join in the ride. When all had been seated the skiff was headed for the dam, and when within a short distance the structure the skiff was struck by the "bear trap" drew the boat, in spite of the boys' frantic efforts, into the water flowing over the dam. The accident was witnessed by hundreds of people and rescuers were quickly at work, but before the party could be reached four of the number were drowned. Edna Edgen and Annie McIntyre were rescued in an unconscious condition, but were revived.

## AN OHIO MOB CHASES NEGROES

Had It Caught Them They Would  
Have Been Lynched.

FINALLY LODGED IN JAIL.

Trouble Arose From One of the Men  
Assaulting a White Man With a  
Razor, Cutting Him Badly.

Lorain, O., July 28.—A fierce riot in which a mob of 200 whites chased two colored men, threatening to lynch them, took place here tonight.

Early in the evening two colored men, Charles Hall and Robert Pleasant, became involved in an altercation with a white man named Daniel Cronan. One of the colored men drew a razor and cut Cronan severely on the neck and face. A mob gathered and the negroes were chased the entire south end of a saloon, the entire front of which was battered in with stones. The negroes, however, escaped.

The entire day and night force of police was ordered on duty and specials were sworn in. Late tonight Pleasant was arrested and taken by side streets to the local station, where he was locked up, while the crowd still continued the search, a number of shots being fired. At a late hour Mayor King headed off the crowd at Ninth street and addressed them, saying the injuries of Cronan were not serious and asking the people to quietly disperse to their homes. His words had a quieting effect and the mob disappeared.

Girls Ordered to Strike.

New York, July 28.—At a mass meeting under the auspices of the Wrapper Makers, 2,000 girls employed in that trade here, have been ordered to strike for a nine-hour day.

NARROW ESCAPE FROM DEATH

Twenty Men Nearly Lost Their Lives  
By Explosion of Sulphuric Acid.

New York, July 28.—Twenty men composing the crew of the tramp steamer Easty, hulked in a narrow escape from death, rushing from a burst of flame, caused by an explosion of sulphuric acid in the hold of the ship which was moored to the Erie basin, the men made their escape by jumping overboard, and half smothered plunged into the water.

It is asserted that the explosion disclosed the fact that for a week there had been burning within the harbor, a mine of flame that constituted a source of the utmost danger to much property ashore and afloat in New York bay.

The generation of inflammable gas, which started hundreds of miles out of sea two weeks ago, and with which the captain and his crew had fought in vain, was permitted to go on, it is alleged, because the vessel was not sufficiently strong to contain the gas. The crew was ordered to leave the ship and a band of smoke and dust poured from the hold.

The crew scrambled to the deck and plunged overboard. They reached the docks safely and a fire tug was hastily summoned to lower the vessel into the stream where she was thoroughly saturated with water. The loss is not known.

SUN AND MOON MINE.

Explosion Plays Havoc with Transformers and Spreads Destruction.

Idaho Springs, Colo., July 28.—An explosion at the Sun and Moon mine, located three miles from this city, wrecked the transformer house, set fire to the oil in the transformers and threatened the destruction of the main shaft-house. The latest information from the mine is that the fire has been placed under control. From the meager details of the affair at hand, it is learned that the watchman at the mine, aroused by the explosion, rushed out in time to observe two men running away from the transformer building. He fired at them several times and later a wounded man was found lying nearby. He was taken in charge and the company physician sent for. Under Sheriff Charles Peck of Georgetown and a posse have gone to the scene to make an investigation and protect the Sun and Moon property if it is found necessary. The Sun and Moon mine is the first mine affected by the strike which was declared last February. After four months of idleness the mine resumed operations in June with non-union men. Manager Sims of the Sun and Moon declares that no explosive of any kind was ever kept in or near the transformer building. As near as can be learned the building was wrecked by a heavy charge of dynamite.

Providence, R. I., July 29.—Officials of Brown university have begun an investigation into the charge that the oration delivered by Maurice B. Rich at the last Brown commencement, with which he won the Gaston medal, shows evidence of plagiarism from an oration by a student at Hamilton college in 1901.

Receiver for a Palace Car.

New York, July 29.—A receiver was appointed in the chancery court at Newark, N. J., for a single palace car. It is called the Boston and at the time it was built was known as the finest in existence and was exhibited widely. Later it became famous by remaining side-tracked for almost two years near Springfield, Mass., while the question of its ownership was being fought in the courts. All that time a colored porter and his wife stuck to the car. The litigation grows out of a transfer made to a New Englander, who holds a mortgage on the property, and the court has instructed the receiver, whose bond was fixed at \$10,000, to sell the coach.

New York, July 29.—After having been asleep for 44 days in a Long Branch, N. J., hospital, except a slight interval, C. E. Endicott Allen, a Harvard student, is showing signs of improvement. Allen's strange sleep is supposed to have been in the nature of hysteria, caused by overwork. The doctors believe he is now on the road to recovery.

By the terms of the treaty a list of the customs houses concerning whose number there is a great divergence of opinion, must be furnished to Great Britain.

FRAUDULENT USE OF MAILES.

H. A. Bradford Arrested in St. Louis On that Charge.

St. Louis, July 28.—Henry A. Bradford was arrested here today by post-office inspectors on the charge of using the mails in a scheme to defraud, as a result of an investigation of land swindles that have been in progress since last December. The investigation has been pursued in Colorado, Michigan, Pennsylvania, Missouri, West Virginia, North Carolina, Tennessee and Texas. Bradford's arrest resulted from complaints that he was using the mails to send out circulars, letters and other literature, and that he was using the mails to send out circulars, letters and other literature, and that he was using the mails to send out circulars, letters and other literature.

Postoffice Inspector Dice said the investigation has led to the arrest of 13 other men on similar charges in different parts of the country, and he is of the opinion that the arrest today will mark the final collapse of one of the most gigantic land swindles in the history of the country.

Bradford was arrested here on May 5, 1900, on the charge of using the mails to defraud, but was acquitted upon the ground that the offense did not conform to the facts set forth in the indictment.

from the examiners he concluded that it would be better to secure the coveted position, and he enlisted to serve four years. In a few days he was notified that he stood fourth in the lists, but, owing to his being a Spanish war veteran, had been placed at the top and the \$1,200 position was his. New S. P. Lumber Rate.

Portland, Ore., July 28.—The Oregon Lumber Association has announced that the Portland sawmills will be brought into closer competition with those of Puget Sound after Aug. 29, when the new lumber rate of \$5 per ton over the Southern Pacific to San Francisco goes into effect. The present rate is \$2.10 per ton. The railroad company gives as its reason for this action a disinclination to handle the lumber traffic of Portland in southern points. The new rate will be so high that all heavy timbers must be shipped by water, while the lighter flooring and ceiling materials will go by rail. Most of the mills of Puget Sound control their own lumber carrying vessels, while the Portland mills do not, and the price

of shipping lumber from the Sound southward will therefore be lower than from Portland. It is also reported that the sawmills of the interior of Oregon which are shut off from water transportation will be given a rate to California which will enable them to compete with the mills of Portland. The new rate was agreed upon at a recent meeting of Harriman lines officials at San Francisco.
